

weeks; carcass weight, about 40 lbs. per quarter, though the breeder thought they would go 75 o/o of the live weight, i.e. 42 lbs. per quarter! The early maturity of Hampshire Downs is due to inherent qualities; to the constant use of lambs as sires; and to the great care and skill bestowed upon them by

the shepherds of their native places, a rough but a genuine and intelligent, nay a thoughtful race of men. The 1st prize *Southdown wethers* only weighed 3 lbs. per head more than *Hampshire Down lambs*; not much for twelve months growth!

Seeds

We send our Illustrated Catalogue of "Everything for the Garden," FREE, on application.

We have advantages as Seedsmen of which we wish to tell the public. Thirty years experience as PRACTICAL MARKET GARDENERS AND FLORISTS, gives us such knowledge as enable us to judge not only what are the best kinds for Fruit, Flower or Vegetable crops (whether for Private or Commercial Gardening), but also to thoroughly test the quality of all Seeds and Plants. Our Greenhouses and Frames in Jersey City, are the largest in America, covering upwards of four acres, solid in glass, employing an average of seventy men throughout the year.

PETER HENDERSON & CO.

RENOVATED SORGHUM SEED.

EARLY-AMBER CORN, FROM THE SOUTH, is the only seed which can guarantee a good crop, and first class syrup, in our latitude: yield 250 to 300 gallons per arpent. Two pounds of seed are required per arpent. A circular containing instructions in the cultivation of sorghum and the method of manufacturing syrup and sugar from it, in Canada, is sent with each packet of seed. Packets of 1, 2, 3, or 4 pounds are sent free by post. Larger quantities forwarded by boat or rail on special terms. Active agents wanted in each district to sell seed, canes, and the apparatus used in the manufacture of syrup and sugar.
