### RAILROAD TREE PLANTING.

The *Railway Review* states that the Northern Pacific Railroad Company, a year or more ago, decided upon a policy of fostering tree culture, and appointed Leonard Hodges to take charge of the matter. The latter, with General Manager Haupt, recently passed over the entire line investigating the needs of the sections through which it passed for increased areas of woods. As a result it is decided to prepare the ground this spring for an extensive system of tree planting, soon to follow, along the Missouri and Dakota divisions. Primarily a row of trees will be planted along the line some 100 feet from the track. Inside of that will be planted yellow cottonwood, which matures in about six years, and which is intended for ties. There will also be planting of numerous other varieties to furnish timber for construction purposes and fuel. Not only does the Company intend thus to obtain an abundance of timber and fuel, but it will have in a short time the very best kind of a snow fence, and, moreover, its lands will acquire a new value to settlers.

The recent gales made sad havoc in Scotland. On Lord Breadalbane's Perthshire estates some 12,000 trees have been blown down in a circuit of a few miles, and on the Dunes Castle property in Berwickshire, it is estimated that 50,000 have fallen. Some of the oldest and finest trees at Glamis Castle were uprooted, and timber to the value of nearly £100,000 was floating about in the Firth of Clyde.

The *Chippewa Herald* says that E. H. Everett, who is logging on Dry Wood, is stealing a march on the weather. He has divided his men up into two crews, one crew skids the logs, and snow the roads during the afternoon and evening, and the other commences hauling at midnight, and works until next noon. This may seem like logging under difficulties, but Mr. E. says he is doing good work, and is satisfied if the nights only remain cold.

### NEW FOUNDRY FIRM.

**McLean, Brayshaw & Co**  
 Simcoe Street,  
 PETERBOROUGH.

## HYDROLEINE

(HYDRATED OIL.)  
 An artificially digested  
 Cod Liver Oil.

For Consumption, Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

### A WONDERFUL FACT.

HYDROLEINE mixes perfectly with water, showing a complete artificial digestion of the oil, and just as the HYDROLEINE mixes with the water, so does it mix with the liquid contents of the stomach, and enters immediately into the system to nourish and build it up. The efficacy of HYDROLEINE is NOT CONFINED to cases of Consumption, as from its valuable tonic effect on the nervous system in addition to its special stimulating action on the organs concerned in the production of Fat in the body, it causes marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease. Unlike ordinary preparations of Cod Liver Oil, it produces no unpleasant eructation or sense of nausea, and should be taken in such very much smaller doses, according to the directions, as will ensure its complete assimilation; this, at the same time, renders its use economical in the highest degree.

For sale by all Druggists.

### MACK'S MAGNETIC MEDICINE.

Is a Sure, Prompt and Effectual Remedy for Nervousness in ALL its stages, Weak Memory, Loss of Brain Power, Sexual Prostration, Night Sweats, Suppurativeorrhoea, Seminal Weakness, and General Loss of Power.
