

**PRESBYTERY OF BARRIE.**

The Presbytery of Barrie met at Orillia on the 4th inst., and sustained two calls. The first was from Gravenhurst to Rev. J. A. Dow, and the other from Severn Bridge, Ardrea and Gray churches, to Rev. W. I. Hewitt, formerly of First Essex, etc. Mr. Hewitt being present intimated acceptance of the call. The meeting for induction was appointed to be held at Ardrea, on January 18th, at 3 o'clock in the afternoon, subject however to an arrangement being made with the Augmentation Committee regarding the grant.

Mr. Dow has intimated his acceptance of the call from Gravenhurst, and will (D.V.) be ordained and inducted to the charge on January 25th at 7.30 p.m.—Rout. Moore, Clerk.

**WHY SHOULD A MAN INSURE HIS LIFE?**

(1) Because to most men life insurance is the only means of making absolutely secure the future of their loved ones.

(2) Because through endowment insurance a man, by making small annual deposits, may buy a fortune, to be paid to him at the end of twenty years.

(3) Because an adequate endowment policy accomplishes the two great aims of a man's life—protection for his family and provision for his own future.

These reasons make it worth while for insurance, even though a few household economies be practised.

Better have the wife economize a little now than be forced to economize a little later on.

If, after perusing the above, you decide to insure your life, it will be to your advantage to take out a policy in that sterling home company, the North American Life.

All policies issued by the company are indisputable after one year from date of issue.

For pamphlets explanatory of the attractive investment plans of insurance issued by the company apply to Wm. McCabe, Managing Director, 112 and 118 Kingstreet west, Toronto, or to any of the company's agents.

**POINTERS ON THE GRIP.**

A Description of the Disease by One Who Has Suffered.

Ever had the grip? I will give you a few pointers. You will imagine you have a bad cold and you can wear it out, but you need not try it. The grip has fastened its fangs into you and will not let go. You have got to give up, so go home and go to bed. In a short time you will feel like the Chicago drummer who took the Keeley cure at Dwight, Illinois.

You will feel like an Anarchist, and want a bomb. You will think your head has been removed and an old bee hive with the empty comb left in its place. Your mouth will taste like a pail of sauerkraut. You have the grip.

Your pulse is going at a 2:40 gait, and your temperature is away up to 103 or 104 in the shade, while pains of every variety and style shoot through your tired out frame unceasingly. Now you get to bed as soon as you can; the enemy must be routed at its first attack, if possible, so take three of Radway's Pills immediately, and then swallow a teaspoonful of Radway's Ready Relief diluted with half a tumbler of water. Then have your chest, throat and back rubbed well with the Ready Relief, cover up well with blankets, and get into a good sweat. If the throat is already sore, tie a piece of flannel saturated with Ready Relief around it. Ease and comfort will now take the place of distressful pain and aching limbs, and sleep—nature's sweet restorer—will be calm and restful, and when the morning breaks you will awake feeling refreshed and better.

This treatment, used before in similar epidemics, has cured thousands, and warded off pneumonia and other fatal diseases which are so ready to step in.

There is no better treatment than this for driving out a cold. Physicians are not always within call, and it is jeopardizing human life to be without such valuable remedies as Radway's.

They should be in every family and ready for use when required. An ounce of prevention is better than a pound of cure.

Lord Dufferin, formerly Governor-General of Canada and Viceroy of India, is celebrated not only as a diplomat, but has won many literary honors, coming by his talent naturally as the great-grandson of Richard Brinsley Sheridan. He has written for THE YOUTH'S COMPANION a vivacious account of a cruise made in the Baltic at the outbreak of the Crimean War, including an adventure on board the paddle-frigate, the *Penelope*, which ran ashore under the guns of a Russian fort.
