

Clinical experience has shown that Pepto-Mangan (Gude) has an especial value in these cases, for it not only supplies the urgent needs of the blood, but directly promotes the elimination of ptomaines through the natural channels. The phagocytic process is stimulated, and as a supply of good active blood is produced, the uterus and related organs are vastly helped in their effort to return to normal conditions. Digestion and assimilation are aided and the general vitality reinforced to a marked degree.

In a word, Pepto-Mangan (Gude) is an unsurpassed tonic wherever there is a lowering of blood quality, from no matter what cause, and the definite positive benefits which follow its administration leave no further recommendation necessary.

THE ONTARIO MEDICAL ASSOCIATION.

The Committee on Papers and Business for the current year is composed of the following members under the chairmanship of Dr. D. J. Gibb Wishart :—

Drs. Ingersoll Olmsted, Hamilton; N. W. Woods, Bayfield; W. J. Bradley, Ottawa; A. F. Tufford, St. Thomas; Angus Graham, London; and H. B. Anderson, R. D. Rudolf, J. S. Hart, T. F. McMahon and F. N. G. Starr, of Toronto.

The committee have secured the promise of Dr. Crile of Cleveland to deliver the address in Surgery. Dr. Crile is Professor of Clinical Surgery in the Western Reserve University.

It is proposed to reinstate the plan of sectional meetings at the next annual gathering, which will be held a week earlier than usual—May 28, 29, and 30th, 1907.

It is intended to secure, if possible, some prominent physician of the United States to give the address in Medicine. While it is as yet too early to speak definitely, it is hoped that we may have one of the English physicians who will attend the meeting of the American Medical Association, which will open a few days later at Atlantic City. The committee has partially drafted a programme which will surely interest every physician of the Province.

MEDICAL DIRECTORY OF TORONTO AND SUBURBS.

Issue of this useful publication for 1907 is now in press, and we feel assured that in the hands of its new publishers (Messrs. Theo. E. Gibson & Co.) a thoroughly reliable guide to the medical and kindred professions and institutions may be looked for.
