TRANSACTIONS OF THE LOWER CANADA BOARD OF AGRICULTURE

Vol. 11. No. 4. MONTREAL, AUGUST, 1854. PRICE 2s. PER ANNUM, IN ADVANCE.

The Farmer's Journal.
PROVINCIAL AGRICULTURAL AND INDUSTRIAL EXHIBITION, AT QUEBEC.

Some crops of barley have got shrivelled up, and the yield will be next to nothing, while the yield of wheat is very good. We have heard of a good deal of injury being inflicted by the grasshopper. Near Montreal, potatoes generally look well—and peas and oats appear to be heavy crops. We regret much that our friends throughout the Province do not keep us well advised of the state of the crops in their several localities. By frequent communications along an omnibus line, we could be formed with any certainty of the general condition of the crops. We earnestly invite our readers, and particularly the Secretaries of Agricultural Societies, to furnish us during the months of September and October, with all the information they can collect, as to the yield and quality of crops in their different districts.

The rule adopted by the Board of Agriculture, in reference to the entry of Live Stock, and other Products intended for exhibition, was judged necessary, in order to afford an opportunity for having correct lists made out for the judges, &c., before the opening of the Exhibition, as is customary on similar occasions in Britain. It, however, has been found that the attention of Agriculturists is so much occupied by the general election now in progress throughout the Province, the Board has determined upon extending the time for making entries to Friday the 1st of September. The advertisement to this effect appears in another column.

Animals and other products cannot be arranged in their proper classes and sections, and in the places assigned to each, unless it is known some time previously what numbers are to be brought forward for competition in each class and section. We cannot receive any reasonable objection that can be urged against conforming to this rule when the necessity for making early entries on such an occasion is so manifest.
