

THE UNTOWARD EFFECT OF SUBSTITUTES.—A. M. Collins, A.M., M.D., of Shelbyville, Ill., writes, under date of November 2nd, 1896: "I never realized the vast difference between genuine antikamnia and the various substitutes that are being palmed off, until within the past few days; and the realization was all the more pronounced because I myself was the patient. "For four weeks I had been suffering with neuralgia of a very severe type and attended with considerable febrile movement. I tried the various compounds and other preparations, lauded as 'just as good,' but with no real advantage and with no little heart disturbance. On Saturday, I went to Arcola, and while there was taken very sick with one of my neuralgic attacks. I sent to the drug store for some genuine antikamnia, and to be certain about it, procured an unbroken original package. I took it in eight to ten-grain doses at inter-

vals of two hours. The effect was magical. The first dose relieved the severity of the pain, while the second quieted it entirely; and I went to bed, sleeping all night with one awakening of a few moments only, a thing I had not done in four weeks. This experience on my own person has thoroughly convinced me of the superiority of the genuine antikamnia."

SAVINE IN THE TREATMENT OF VEGETATIONS OF THE VULVA.—Dr. Lutaud uses for small vegetations the following formula:

R. Powdered savine,
Desiccated alum. .āā 25 parts.
Corrosive sublimate, 1 part.—M.

A more active application is the following:

R. Powdered savine,
Iodoform,
Salicylic acid, āā equal parts.—M.
