Among the rural visitors to the fair yesterday thousands of them flocked around the Buck Stove exhibit in the stove building and spoke of their many trade marks of stoves and furnaces as old friends.

Some stated that they had used a Buck Stove for over forty years and it was still in action and giving good service. Many of them had used the first products of the Buck Stove such as wood stoves and wood heaters, and have since replaced them with Happy Thought Ranges and Radiant Home hail and parlor heaters and Leader and Garnet warm air furnaces. cashier; she's a peach.
