I wo weeke ago council passes a bylaw repeating the hylew for the expropriation of land needed to widening Yonge street to so feet. This repeal included the expropriation of land at the subway. As council wished the work on the subway to go right ahead another bylaw was immediately introduced, previding for the expropriation of land needed for the widening of this small section only, and reached its second reading at the special meeting in the middle of last week. Before an expropriation bylaw can be finally passed it must be advertised for a month, and before it is finally passed the city treasurer cannot pay property holders for the slice the city takes.

committee meeting last decided to request the che fence on its process treet, which blocks the public to the water sjardine Canal. If the take action the city love the fence and make the costs. Must Advertise.

This is the basis of dispute between the city and railways. The railways warther more for the land the city expropriates before they will go ahead with the work, and the city cannot give it to them until the bylaw has been advertised for a month and given a third and final reading.

"Why are the contractors not proceeding with the erection of the east wall of the subway?" the resident engineer for the grand jury yesterday were of a very serious nature, being mostly theft charges.

Saw the Contractors.

Arthur Wells of Wells & Gray, contractors, stated that to date he has not had a pian given to him of the east wall, and that his company was ordered to quit work about a month ago by the C. H. "We took this contract over a year ago," he said, "expecting to start work of it in the fall. We did not get started until this spring, when we did some excavating, and then came the dispute about the headway. We were stopped for some time while this was argued and then we finished the western wall. We were ready to go on with the other wall whan the order came to stop. It looks as if the contract will drag on indefinitely. There have been about a dozen disputes over this subway and the solution seems to be a long way off. The Dominion Railway Board ordered a fourteenfoot headway in the first place, but the city were not content and demanded eighten feet. The Dominion Railway Board said that it was all right if the city would pay the difference. Then the appropriation of the twenty-foot strip for the widening of the street brought the CPR. into the matter. They demanded the widening of the twenty-foot strip for the widening of the street brought the C.P.R. into the matter. They demanded that they be treated as individuals and paid for the land which was to be taken from them. The argument is still in progress as far as I know. The city bylaw, which was repealed the other day, has also stirred up another dispute, so that I do not know when the work will be commenced again."

Seeking the right to exceed the scope of the present provincial legislation regarding good roads, which allows borrowing to the limit of 2 per cent. of the assessment, a Halton County deputation approached the minister of public works yesterday. It was explained that they had several roads which could not be proceeded with until more funds were forthcoming, and these they wished to raise without going to the people. The county council sought the privilege of borrowing up to 5 per cent. of the assessment. In all 150 miles of roads are under construction and \$270,000 have been raised. It will need that much more to complete the work. The minister promised consideration.
