Railway Commission and with Mr. Wallace Nesbitt, to assist E. F. Clarke, M.P., Closing quotations yesterday were: ince Nesbitt, to assist E. F. Ciarke, M.P., in protecting the Charter Bill during its passage through the hands of the Railway Committee on Thursday. Opposition is expected from the C.P.R. and William McKenzie to the incorporation of the James Bay road, while the Toronto members and especially Mr. Bertram are either openly opposed to it or lukewarm in its favor. It is probable that at some future date Mr. McKenzie will be asking this city to subsidize his projected and surveyed Sudbury route. Should his anticipated opposition develop fiself, therefore, the Mayor trusts to be able to hit back. It is feared that the bill will be mangled.

While down there His Worship will also interview Mr. Tarte with reference to repairing the Island groynes preliminary to the visit of City Eugineer Rust and Assetsment Commissioner Fleming, who will leave, by instruction of Council, to urge this matter, as well as that of improving the breakwater, before the Minister Thursday night. This deputation will also suggest, at Ald. Hanlan's request, the advisability of using gas at the Island lighthouse.

The Mayor had another and longer conference with Manager Hays in the latter's private car at the Union Station Monday night. There were a number of other Grond Trunk officials present. Mr. Hays was candid about the matter and left the impression upon the Mayor that there were influences working contrary, which would be too strong to permit of the removal of the head offices of the company from Montrens to Toronto. But there is no doubt that the manager is not satisfied with St. Anne's-square, the site offered them by the eastern city. Mayor Shaw, however, will return to Toronto via Montreal Friday and when he arrives he expects to be able to say definitely what the outcome will be. He states that he has talked with neen who ought to know and that their views of the prospects are much brighter than his own. Ald. Hubbard meantime is Acting-Mayor.

GRAND TRUNK BALLYAY REACHES MUSKOKA LAKES In the Highlands of Ontario.

The Muskoka region, with its many hundreds of lakes and streams, is undoubtedly the best place on the continent for Fishing. Shooting or Camping. The fishing, consisting of brook and salmon trout, black bass, maskalonge and, pickerel, is unequalled; partridge (ruffled grouse) abound, and deer are plentiful. As a health resort it cannot be surpassed. These lakes are among the highest on the continent, being about 500 feet above Lake Ontario, 150 feet above Lake Superior. There can be no Hay Fever in so pure an atmosphere. A glance at our map will show how easy of access they are, and the fine equipment of the GRAND TRUNK RAILWAY and the Muskoka Steamers ensures comfort in the highest degree. Steamers ensures comfort in the ingless degree.

One of the most noteworthy characteristics of this region is the entire freedom from Hay Fever experienced even by the most acute sufferers from this malady. This is due to many causes—its great elevation above the level of Lake Ontario, the balsamic odor of the surrounding forests of pine, cedar and balsam, and freedom from damp, owing to the rocky nature of the country. Write for an illustrated copy of extract from "Outing," regarding this region, or M. C. Dickson, D.P.A., Toronto.
