READY FOR AMERICAN VISITORS.

Toronto's Hotels Looking for Busy Season This Year-Many Americans Now Here.

rists are coming into Toronto daily

Extensive alterations have been made in nearly all of the large hotels, and everything is being put in shape with a view to doing big business. The managers of Toronto's hotels are wide awake, and are in correspondence with many Americans, individuals and parties, who have signified their intention of spending a few weeks in this city. This is the outcome of the good service rendered in past year.

A fact that the casual observer is apt to overlook is that extensive American tourist traffic means money to all business men in the city. The genial manager of the Arilington is the authority for the statement that his guests spend thousands of dollars every season among the storekeepers of the city.

A glance at a few registers has high revealed the fact that many Americans are resting in the city.

At the Arlington were registered: T P Herbert, Chicago; Mr and Mrs Carl Broune, New York; D F Wright, New York; Mrs Kennedy, Chicago; Max Schirmeister, New York; Mr and Mrs C I Gibson, Sharon, Pa.; J Vrooman, Buffalo; E D Benedict, New York; Mrs and Miss Stewart, New Orleans; J F Knoil and wife, Erie, Pa.; Mr and Mrs C F Issard, Philadelphia, Pa.

At the Rossin were found: G H Sanders, San Francisco; L C Apt, New York; W A Jewitt and wife, Cleveland; C Dear, Willmantic, Conn.; Charles R Hyde, Chicago; H J Chadwick, Lockport; G C Penfield, Hartford; F R Cole, Philadelphia, Pa.; C W Miller, Buffalo; J B C Drew, Charleston, W. Va.

At the Elliott House is a big list, showing that Americans know this first-class hostelry.

This is particularly observable at morning services, particularly in the case of men, old and young. There is little or no recognition of the Lord, who gave this day to man; no attention to His house, no celebration of His worship; consequently, we have empty churches, cold services, poor offerings and discouraged clergy. Efforts are made in some places and by some people to counteract this evil by providing services of a sensational character, freely advertised. I trust the church will never resort to any adventitious aids to secure an attendance not freely and lovingly given and offered as a sacrifice to Aimigury God. [Applause.] If divine service, the preaching of the pure word of God, and the administration of Christ's holy sacrame.its fall to attract congregations to the house of God, the church may not, dare not, trun aside to seek any other method than those day and to neglect the house and worship

Vestries' Committee's Report.

Most of this afternoon's session was taken up in discussing the report of the Committee on Select Vestries, presented by G. E. Bristol. It in effect abolished the present system of wardens. The vestries were to consist of the rector or incumbent, the wardens, and from two to six members of the congregation, their duty being to manage the temporal affairs of the churches. The canon was to be permissive. Bishop DuMoulin and several prominent clergymen and laymen spoke against the report, white carnest addresses were made in its support.

Hamilton, June 7.—(Special.)—The annual meeting of the Niagara Synod opened here this morning. Bishop DuMoulin presided. When the Bishop called the meeting to order, Ven. Archdeacon Dixon of Guelph and Ven. Archdeacon Houston of Niagara Falls, and Rev. G. E. Lloyd of Toronto, took seats with him on the piatform.

The synod went through the necessary form of re-electing its two most efficient hon. secretaries, Canon W. R. Clark (clerical), and Mr. J. J. Mason (lay). Mr. J. J. Mason was also unanimously re-elected secretary and treasurer of the synod. Messrs. R. L. Gunn and C. S. Scott were re-elected auditors.

Peleve DuMoulin dealt with many matters in the suggestion will be made to the various synods in Ontario.

Fire and Water Committee.

At the meeting of the Fire and Water Committee to-night, Aid. McAndrew headed a deputation of bicyclists, who wanted the committee to put the pipe line to the Beach in shape, so that it could be wheeled over. Some time ago it was decided to grade the line for the Waterworks Department, but nothing was done. It was decided to appoint a sub-committee to see that the grading is done.

The sub-committee on the West End Fire Hall could not agree on a recommendation. The Chief declined to have anything more to do with the matter, and nothing was done.

Engineer Barrow recommended that the two filtering basins be enlarged, and another intake pipe put down. In the absence of the Engineer, the matter was laid over. Measuring the Men.

An interesting feature of to-day's proceedings was the measuring of the men. The soldier strips to the waist, and, if ne does not stand over 5 feet 5 in. high in his stocking feet, and measure 33 inches around the chest, he is not allowed to stay in the service, and is sent back to his home at the expense of the commanding officer of his company. There were a few who did not come up to the regulations, and they were accordingly deported.

Inspecting the Cavalry Horses.

Major Hall, P.V.O., inspected the cavalry horses to-night. He had a hard contract to diagnose the physical condition of some of the horses used by the volunteer cavalrymen.
