Two Very Sad Deaths."

Two peculiar and sudden deaths happened at Bethesda in Whitchurch Township early in the week. Herbert Atkinson, son of Mr. Atkinson, a carpenter in that village, took suddenly ill while digging post ho'es, and two doctors were called in to see him. They decided that nothing could be done to save his life, and his mother was so informed. She imploringly enquired if there was no means of saving her son's life, and, on receiving a reply in the negative, fell into a fit, from which she failed to recover. The sympathy of the community is expressed for the husband and family in the sudden and sad bereavement.

The Demon Dyspepsia—In olden times it was a popular belief that demons moved invisibly through the ambient air seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. He that finds himself so disposed should know that a valiant friend to do battle for him with the unseen foe isParmelee's Vegetable Pills, which are ever ready for the trial.

## Perfection" SAD IRON BUSINESS.

and under the advice of my physician. I have decided to retire from the active management of the Edwards Sad Iron Company's business in and for the Dominion of Canada, and will sell all my interests in the "Perfection" Self-Heating, Reversible Sad Iron together with the business pertaining thereto, the franchises and all the recent letters patent in and for the Dominion of Canada, by which the said business is monopolized and protected.

This business is thoroughly monopolized, having the ground so broadly covered by the claims in a number of letters patent that it stands to-day without a peer as a money maker, and is in a beautiful shape to be handled successfully and very profitably as an individual business, or it may be operated very successfully as a stock company.

The demand for these particular irons is enormous, and owing to the monopoly of the market the profits are immense, and from present indications the yearly profits, based upon the actual demand for these irons for Canada and the export trade, will not be less than \$50,000 per year over and above all expenses.

I will sell this entire business for the Dominion of Canada on either of the fol-owing propositions:

First—All cash at the time of purchase, or part cash and the balance on as long time as necessary, payable out of the business.

Second—(ash payment to be agreed up and the balance on royalty, on all the lro made during the life of the patents, amou of royalties and payments to be comput from the showing of the business and may be agreed upon. For further information call on or T. C. EDWARDS.
