CITY COUNCIL HURRIEDLY CALLED

To Give the Finance Committee Authority to Pay Col. Holmes-The Colonel Importunate.

The city council has been called to meet this afternoon to consider Col. Holmes' account for \$3,400. Ald. Ald. Rumball wrote Major Beattie, M. P., asking him to intercede with the minister of militia for the delay of proceedings, but up till noon had not received a reply. It is probable that the authority to pay the account will be given by the council without discussion. The money will, temporarily at least, come out of the contingent fund, and despite the determination of some of the aldermen early in the year that no overdraft would result, the contrary now seems almost accertainty.

THE GROCERS'

A Fast Run to the Falls and a Pleasant Outing-Attendance Large.

The Grocers' excursion to the Falls yesterday was a decided success. The attendance was large, the weather delightful, and nothing occurred to mar the day's pleasure. Much credit is due the energetic president, Mr. J. C. Trebilcock, and the untiring secretary, Mr. E. Sutton, and the committee for the splendid arrangements for the day's outing. The train left the M. C. R. station at 7 a.m., and returning, reached here at midnight. In addition to the 533 passengers from London, were 125 from St. Thomas. One of the big Klondike engines was attached to the train, and the run from St. Thomas to the Falls was made in 2 hours and 50 minutes.

A NEW CIGAR FACTORY HERE

Auspicious Opening of the McLeod, Nolan & Co. Establishment.

There is a promising future for the firm of McLeod, Nolan & Co., eigar manufacturers, who have just opened a factory at 296 Richmond street. The members of the firm are Messrs. John M. McLeod, for many years connected with Mr. George Kelly's establishment; Donald H. McLeod, salesman for Robinson, Little & Co., and Joseph F. Nolan, tobacconist. All are capable, energetic and popular Londoners, who bring to their new enterprise the practical knowledge and business experience essential to the success of the enterprise. Their factory, fitted up expressly for them, is thoroughly up-todate, and no pains have been spared to make the output a credit. The best stock and workmanship available have been secured, and it is safe to predict that the firm's several brands of cigars when launched on the market will be recognized as being among the leading cigars of the country.
"David Harum" is a ten-cent brand that will be talked of. It is clear Hav-ana-filled. In five-cent lines, the "Unerda," "M. N. C." and Tecumseh are the leaders.

at With a Revolver.

Daring Attempt Was Made at Midday in South London.

Conductor Dodged in Time - Police Hastened to the Scene-Found the Revolver.

Conductor Yerex, an elderly, nonunion man employed by the street railway company, had a thrilling, bloodcurdling experience yesterday, which, but for his wonderful nerve and strong heart might have terminated seriously. Today his friends are congratulating him on his narrow escape from a violent death. Like all great heroes, he does not seem to care to talk much about his recent adventure. He is diffident and modest about it, but he wears unmistakably the peculiar look of a man who has looked grim death in the face and yet lives to shudder and remember.

At about noon yesterday Conductor Yerex was in charge of a belt line car. It was midday, but the car was passing through the South London district, and the river ran between him and the police headquarters. Wolseley Barracks was far away. Keeping a sharp lookout to right and

left for lurking assassins, he clung ner-vously to the trolley rope. The perspiration trickled down his face and tost itself in his flowing beard. Just as the car approached F. A. & F. M. Smith's candy store on the Wort-ley road, between Craig and Bruce

streets, the conductor noticed two desperate-looking youths standing in the doorway. They seemed to be watching for him. The car was immediately opposite the store when the conductor heard one of the boys say excitedly to his comparie. "Now when I say "Let it his comrade: "Now, when I say 'Let it go!' you fire!"

The blood froze around the conductor's heart, although the mercury stood at 98° in the shade. A shining pistolbarrel gleamed in the sunlight, pointed deliberately at the conductor's head by the young desperado. There was a flash and a sharp report. The conductor can scarcely be accused of cowardice because he dodged behind the woodwork of the car. Apparently he had moved in time to escape the bullet. Perhaps

the boy's aim was bad. The car sped on away from the scene of danger. The conductor raised himself to an erect position, thankful that he had escaped with his life. He hastened to the police station and report-ed the attempt on his life. His car had been fired at by a revolver in the hands of a boy!

There was much stir and indignation among the police. Greater indignation among the street railway officials. City Detective Nickle was detailed to apprehend the young desperado. He accompanied Conductor Yerex on the next car to South London. The daring waiting for them. They did not attempt to resist the officer of the law.

They laughed and chatted coolly about their bloodthirsty escapade. Neither their bloodthirsty escapade. Neither boy was over 12 years old. They gave their names as Shaw and Carson. Pistols were found in possession of both of them. Shaw's pistol was of glass. He had bought it full of candies in the candy store. That was the weapon that was pointed at Yerex. Carson had a toy pistol and he had exploded a little paper cap, while Shaw took aim

with the glass pistol. The boys were not arrested, but the police have charge of the glass pistol. The boys had eaten all the candies. ARE NOT ASKING CONTRIBU-

TIONS. Information has been learned of two women who have been collecting money from citizens ostensibly for the Ladies' Home Defense fund of the 4:26%. Street Railway Men's Union. The officers of the Home Defense Club state that they have no representatives so-liciting contributions and that the money collected on that pretext has never reached them.

NOTES. Owing to the delay in procuring the pay of the militia from the city authorities, the officers of the Hussars are advancing the pay of the men of that regiment recently on duty at the barracks. They can receive their play on application, or on Saturday afternoon at the armory.

An observer counted ten cars today with only one passenger in the ten

A citizen who has opportunity of mixing a great deal with the people, says the feeling in favor of the men is today stronger than at any previous time. He says one of the strongest things in the public mind grows out of the knowledge the people have all along privately had of the policy of trying to "nag out," individually, the men who were known to be favorable to union, that had been persistently pursued. In his opinion, if the spirit of the understanding, after the first strike, had been carried out, there would have been no second strike. Being asked what effect the calling in of the outside militia had had on public opinion, he replied that at first it had caused a little reaction; but as soon as the absurdity of the whole business came into view, the company had ceased to reap any advantage, as to public opinion, from their move. It

had rather proved a boomerang. Car No. 68 struck a buggy at the corner of Mount Pleasant avenue and Wharncliffe road, at about 6 o'clock last evening. The occupants were thrown out, but beyond a shalling up were not hurt.

The street railway company had only ten cars running last night. Two cars made a trip to Springbank. One of them carried a party of bowlers to Springbank Park. The street railway company have im-

whom arrived yesterday. One street car was derailed at the corner of Dundas and Ridout streets last night, and another at the C. P. R. crossing on Richmond street.

The Senate Reform Resolutions Likely To Be Dropped

[Special to The Advertiser per C.P.R.] Ottawa, July 27.-It is understood that the senate reform resolutions will

be dropped. There was another profitless discussion on preferential trade in the house today on a motion for supply. It was started by Mr. McNeill, who refused to accept the resolution which Sir Wilfrid had given him, and which was along the lines of the present tariff matter. Mr. McNeill wanted the resolution confined to tariff preferences only, and Sir Wilfrid Laurier included other concessions. Mr. McNeill moved his own resolution, and finally Sir Charles Tupper got him to withdraw it, to see if one which could be unanimously agreed upon would not be

put through. Mr. Edwards made a free trade
