Decay of The Teeth

Arises from various causes, but principally it may be attributed to early neglect or the indiscriminate use of tooth powders and pastes which give a momentary whiteness to the teeth while they corrode the enamel. The timely use of that delicate, aromatic tooth wash—

ODONTINE

(Cairncross & Lawrence) will speedily arrest the progress of decay, harden the gums and impart a delightful fragrance to the breath. The formula of Odontine includes only botanical ingredients, and it contains only the purest and most salutary of these. Price 25c.

WARD NO. 4.
