Haig's Forces Advance Beyond Newly Constructed Switch Line East of Drocourt—Teutons Throw in Crack Regiments in Effort to Break Allied Offensive.

London, Sept. 3.—Carrying their attack to the northeast of Arras, the British today captured the village of Hamblain-les-Pres, just to the south of the Scarpe, in the direction of Doual. Southeast of Lagnicourt, the southernmost point at which the British have a hold on the Hindenburg line, the Germans today fruitlessly threw in what is believed to be reserve availables. Most of the reserve troops, however, have been worn out in the recent fighting, and put up a weak resistance. The Second Prussian Division, considered one of the enemy's best, was rushed up from Cambrai, but the men were so worn that they were easily pushed back.

Hundreds of prisoners were taken today but purple believed to which the Germans

Cambrai, but the men were so worn that they were easily pushed back. Hundreds of prisoners were taken today, but probably not so many as yesterday.

Opinion here is that the Germans have few, if any, fresh reserves available on this front. It is not believed the line of the Sensee Canal can be strongly defended. If this is taken it will be possible effectually to shell Cambrai.

Two-Mile Advance.

A new switch line, behind the Droduction of which the Germans were believed to be retiring to make a new stand, has been passed by the British forces. This line was recently completed. It runs from Brebieres, five miles southeast of Drocourt, southward to Moeuvres, and joins the Hindenburg line in the vicinity of Graincourt, three and a half miles northwest of Marcoing.

Two-Mile Advance.
