SUNDAY RUMORS AGAIN.

Considerable uneasiness caused last evenings by a rumor around many of the churches that the Canadian forces had met with a re-verse, having been trapped and badly cut up. Several clergymen found if necessary to attempt to allay the fears of their congregations. How the news got around is not known, as no word, official or otherwise, had been received. Such Sunday rumors as these have already received the attention of the police, but no success has attended their efforts to discover

TORONTO RUSSELLITES STEER CLEAR OF WAR

Detectives and Others Who Visited Their Meeting Expecting Comment Were Disappointed.

the meeting of Toronto's Russellites, in their hall at 404 Bathurst street, yesterday afternoon, to hear C. A. Dann expound the principles of Russellism, were sorely disappointed. During the whole hour Dann spoke, the words, "war," "Royal Alexandra," or "Judge Rutherford" were not once mentioned.

It was a most peaceful meeting, and was a fine exhibition of an orderly retreat from a more or less difficult sit-

in which he expressed strong ents on the right of Christians to take up arms in defence of their country. Following this outburst, a wave of indignation passed over the city, against Russellism, and its exhorters, to the extent that the Royal Alexandra was forbidden them, and Judge Rutherford and his ilk were refused entrance into Canada.
Two detectives of the police depart-

ment who heard Dann speak yesterday, were also cheated out of a "sensational arrest," and the two policemen who patiently waited outside for a "break" were likewise disappointed.

Church Where Impressive Service Is Held.

In memory of those Canadian en-gineers who have given their lives while on active service during the war an impressive memorial service was held yesterday morning in St. Stephen's Church, corner of College street and Bellevue avenue, at which the Canadian Engineers' chaplain, canadian Engineers chapiain, Capt. Rev. T. G. Wallace, preached, and who is also rector of St. Stephen's. The parade of about 200 engineers was in command of Lieut.-Col. S. P. Biggs. The parade included a number of returned men. The chaplain, in speaking of the honor roll of Toronto engineers, which included 48 names, urged that their sacrifices be not in vain, and that Canada must not lay down the sword until certain victory is achieved. In his address, Capt. Wallace con-

mned those who would point the finger at the irreligion of the soldier, whom he claimed to have a bigger right in this world than those so-called religious people. He likened them to the Scribes and Pharisees. The chaplain referred to the cleavage between the soldier and the organized church, and blamed the latter because of its artificiality. Soldiers have a standard just as well as the church but the soldier has a loyalty, a generosity and a chivalry not found in the church these days. At the close of the service, part of which was taken from the Anglican burial iservice, the Last Post was sounded by a bugler of the engineers

SAYS NO ENEMY ALIENS WORK FOR RUSSELL CO.

Statement By Secretary Shows Men Suspected By Soldiers Prove to Be Allies.

In accordance with his promise of Saturday evening, H. D. Scully, secretary of the Russell Motor Car Company, has furnished a statement regarding employment conditions in the company's plant, and offered an opportunity of investigation. It appears upon examination of the facts that the six workmen with foreign names who were suspected and taken out of the works by returned soldiers on Saturday night have all produced their passports which certify that they are citizens of our allies, Russia and Serbia. The company further state that so far as they are aware, no alien enemies are in their employ. With regard to the smployment of returned soldiers, the company's records show that since February 8th, 1917, 98 A.R. men—that is men who have applied for enlistment and been refused owing to physical defects, have applied for enlistment and been refused owing to physical defects, have been taken into the employ of the company. Since the same date, 167 returned or discharged men of the Canadian Expeditionary Force have been taken on the company's pay roll. As indicating the difficulty of reaching a just conclusion in particular cases, it is pointed out that among the 167 returned or discharged men, of the Canadian Expeditionary Force, the following names appear: A. Kruppa, Humm, H. Bimistov, T. Haluzka, G. Sahle, Eneskie, Keneller, W. Klick, C. Elinitsky, D. Klziel.

G. Sahle, Eneskle, Keneller, W. Klick, C. Elinitsky, D. Klziel.

The company re-affirm its policy of employing returned soldiers wherever possible, and has today communicated with the Great War Vetearns' Association, requesting that officials of that association may meet officials of the Russell Motor Car Company in order that a specific of the specif

It was stated that the light wooden cars now being used for mail cars, and usually placed like a "buffer" between the engine and a train of ponderous vehicles of a modern type, constitute a death trap in the case of a collision. To bear out this statement the case of the recent collision on the G.T.R. near Utterson, was brought up, when the car No. 27 was absolutely demolished, resulting in the death of one of the clerks on duty and seriously injuring the other.

This complaint on the part of the clerks is not a new one, and it was stated that despite this fact nothing has been done. It was decided that if the department cannot or will not grant the clerks reasonable safegrant the clerks reasonable safe-guards they will openly appeal thru the public press for protection.
