sible for Break.

Chicago, April 28.—Excited trading and greatly higher prices were brought bout in the wheat market today largely as a consequence of Washington and London despatches that pointed to increasing need of rushing food supplies to the entente allies. Nearly all commission houses were on the buying side, and there was an extreme searcity of offerings. Despite the rush to purchase, the volume of trade was searcity of offerings Despite the rush to purchase, the volume of trade was far from being commensurate with the sharpness of the advance in values. The fact that the rise in values at Winnipes was even greater than here counted as a bullish factor. Opening prices, which ranged from 1½ to 12½ cents higher, with May at \$2.74 to \$2.75 and July at \$2.29 to \$2.36, were followed by decided further gains in May and September, the latter month ascending for the first time to \$2. Sensational breaks in prices resulted later from drastic action taken by the Wannipes exchange to put a stop to becalations. May wheat at Winnipes exchange to put a stop to becalations, May wheat at Winnipes exchange to put a stop to becalations, May wheat at Winnipes exchange to put a stop to becalations, May wheat at Winnipes exchange to put a stop to becalations, May wheat at Winnipes exchange to put a stop to becalations, May wheat at Winnipes exchange to put a stop to becalations, May wheat at Winnipes exchange to put a stop to operators to break in between with any degree of success. There is insufficient long stock comins out to McKinley.

the next few days, with a view to completing arrangements for a comprehensive kind of development aiready started on that property. A considerable amount of diamond drilling will be done on this property during the coming season. The main vein, showing at the surface, is probably one of the largest in the camp, being fully 100 feet wide. Some very rich ore has been taken from this property and careful sampling of the entire ore body, as exposed, would indicate an average value of about \$6.30 per ton.

Canadian Northern Railway System statement of earnings and expenses for the month of March 1917: Total gross samings—1917, \$3,273,200; 1916, \$2,607,000; ncrease, \$665,200; Operating expenses—1917, \$2,655,400; 1916, \$2,240,600; increase, \$414,400. Net earnings—1917, \$518,100; 1916, \$366,400; increase, \$251,700. Aggretate gross earnings from July 1st, 1917, \$30,095,900; 1916, \$24,134,600; increase, \$5,-961,200. Aggregate net earnings from Aggregate net earnings from 1917, \$7,504,500; 1916, \$6,275,700; \$1,228,800.

Mines in Porcupine, operations were neid up for a week. An additional pump has been put at the service of the staff and it is felt that no further difficulties will be encountered in this

At 99 feet below the 300-foot level the drill entered an erea of highly mineralized quartz and schist and it would seem as if the quartz vein cut would seem as if the quartz vein cut thru was on the hanging wall of an ore body. This hole will probably be continued to a depth of about 500 feet. After it is finished No. 2 drill hole will probably go down from the same set-up at an angle of about 95 degrees. The result of this hole will be watched

New York, April 28.—Bar silver, 74c.

LORRAIN ADVANCED

Up to New High Since January-Ophir Also Strong -Market Steady.

Lorrain Consolidated was again the strong feature in the mining stocks on Saturday morning with transactions, totalling over 36,000 shares and an advance in price to 40 1-2, a new high since January. Buying seemed to be coming in from all over the country on the strength of the reported strike at the property.

The market generally was rather quiet, but closed steady in tone. Dome

The market generally was rather quiet, but closed steady in tone. Dome changed hands at \$15.75, and Hollinger at \$5.05. McIntyre after opening lower at 166 turned stronger, recovering a point. Apex had an active market at 7. The fractional gain brought out a lot of stock. Newray remained unchanged at 148, while Porcupine Crown met a better demand and showed a liftle improvement in consequence advancing in price to 60. Vipond was better, also going up again to 41 and West Dome Consolidated was stronger at 24 1-2.

Apart from Lorrain and Ophir the siver list was just moderately active and steady in tone. Beaver held at 37 and Timiskaming at 46. Hargraves was unchanged at 16 1-4 to 16 1-2.

Ophir encountered renewed buying right from the start, which was responsible for a gain to 11, a high for a couple of weeks. McKinley was firm at 51 1-2 and Bailey at 4.

The Labor Situation.

Editorially The Northern Miner says this week: "The Dominton Government has taken a hand in the labor situation in northern Ontario. All alien enemies have been forced to register and must each month report to the police officials where they are registered. They will not be allowed to 'eave one place for another without a rermit. Neither will they be allowed to remain idle. They must work.

In Porcupine, where a much larger proportion of alien enemies were employed at the mines than at any other camp, the effect was almost spontaneous. Practically all the mines report a much greater efficiency among the alien workmen. The charge made by one of the largest mine managers that the Austrians and Bulgarians were soldiering on the jobs seems to be

COBALT SHIPMENTS.

Copair ore statement for week ended April 27: La Rose mine, 87,513 pounds; O'Brien mine, 64,200 pounds; Beaver mines, 64,831 pounds; Dominion Reduction Co., 173,000 pounds; Aladdin-Cobatt, 149,600 pounds—total, 539,144

VILLAGE OF FLORENCE HAS FIRE EPIDEMIC

Four Separate Fires Discovered About Same Time in Early Morning.

Special to The Toronto World.

Florence, via Bothwell, April 28.—
About 2.10 Sunday morning this village is inferred several fires almost at the same time. When first seen the Logan block at the south end of Main street and Drew & McIntyre's large central stores were both in flames. In a few minutes fire also broke out in the postoffice and Milton's tailor shop, which hes between the other two buildings, and were entirely destroyed. Practically nothing was saved from the start of Drew & McIntyre's. While these three fires were at their height another fire was discovered inside of the Randall block, which lies on the same side of Main street as the other buildings, but a block away. This store was unoccupied. It was necessary to but a block away. This store was unoccupied. It was necessary to break in to get at the fire. How the fire started inside of this biulding is a mystery. After a lot of hard fighting the fire was overcome and saved the village from complete disaster. Drew & McIntyre, only partially insured will be heavy losers. John Webster, postmaster, and owner of the postoffice building, and Drew & McIntyre's block will also be a heavy loser, as he had only small insurance. Incendiarism is suspected.

IN MEMORY OF SENATOR.

Notice is hereby given that a Dividend of two and three-quarters per cent. for the current quarter, being at the rate of eleven per cent. per annum upon the paid-up capital stock of the Bank, has this day been declared, and that the same will be payable at the Bank and its Branches on and after the 1st day of June next, to shareholders of record at the close of business on the 14th day of May next.

By order of the Board.

THOS. F. HOW,
General Manager,
The Bank of Toronto, Toronto.
April 25th, 1917.
