THE roof, exposed as it is to nature's various moods, should receive the greatest consideration—a little extra thought spent on the roof more than pays in years to come.

NEPONSET PARDIO

plays an important role in "roofing Canada." Thousands of roofs throughout the Dominion are covered with this long-lasting material.

Any person who has used Neponset Paroid will tell you that it is the premier roofing material in Canada. It combines durability with hard wear; is not affected by weather; and compared with the cost of wood and metal shingles, or slate, it is by far the most economical roof you can lay.

The base of Neponset Paroid is a high-grade rag felt, thoroughly impregnated with asphalt, making it positively water-proof and fire-resisting.

Easy to lay—With every roll of Neponset Paroid is supplied sufficient nails and cement with full

The feature of the flour market was the weaker feeling that developed in the market for winter wheat flour, with reduced prices. Altho wholesale jobbers have advanced prices for bran and shorts by \$1 a ton, the millers have made no change as yet. The rolled oats market is very firm. An easier feeling prevails in the egg market, with prices scoring another decline. Fotato trade is fair.
