ASSURANCE OF SUCCESS

TY/ITHOUT fear of disappointment we invite you to visit our warehouse.

We have important information to give you, without cost.

Goods to sell that have been gleaned, for cash, in the markets of the world by experienced buyers, five of whom have lately returned and given to us in detail, up to the minute, the present state and future outlook in the business world.

Theory has its place in the present state of affairs—stocks, stock markets and realty, controlled by the minority of mankind, have without doubt a considerable influence.

Business is buying and selling and should be wholly governed by supply and demand, to which every living creature, to some extent, is a contributor.

We are in business, doing business without any side issue.

We are still growing notwithstanding the fact that we commenced business in the city of Toronto

September, 1849=

There is only one Aspirin—There is only one Aspirin which
contains proper directions for Colds,
Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritia, Joint Pains, and Pain generally.
The boxes of 12 tablets cost but
a few cents. Larger Bayer Packages
Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Moneaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer
ranufacture, to assist the public assinst imitations, the Tablets of Bayer Company
Will be stamped with their general trade mark the "Bayer Cross."

OBJECT TO ELECTION FUND PARTICULARS

U. F. O. Money Only for Political Propaganda and Meetings, Morrison Says.

Particulars have been filed at Dagoode Hall in the protest against the election of Hon. G. Howard Ferfor the county of Grenville. The trial will take place at Prescott before Justices Magee and Sutherland on Oct. 13. Particulars have also been filed in a cross-petition by Mr. Ferguson against cross-petition by Mr. Ferguson against G. A. Payne, the U.F.O. candidate in Grenville at the last election, many charges being made by both sides. Gordon Waldron stated yesterday that it was contempt of court to make the particulars public. He objected to the statement which referred to the "election fund," which, it was alleged,

was in the Mands of the farmers prior to the 1919 election. F. O. had a "fund." Also that it was in a Toronto bank. He gave out an interview from J. J. Morrison, the cus-

odian of the U.F.O. finances Mr. Morrison told Mr. Waldron over the telephone that for some five years or so the U.F.O. had been collecting a or so the U.F.O. had been collecting a Spadina road, found his home had dollar per member from the various been ransacked, and the gas burning

ings, etc.

Mr. Waldren asked Mr. Morrison if lish sovereigns. he knew of any large private subscriptions made to the "election fund," and Mr. Waldron passed on Mr. Morrison's

reply, which was in the negative
Mr. Morrison further said that the election fund was now intact, with the exception of about \$400, because levies had been made against the clubs in the various constituencies where this money had been spent for election pured to the Toronto bank account. The amounts spent in the various constituencies, as sent out from Toronto, would run all the way from less than \$200 to less than \$1000 per riding.

THE CANADIAN NATIONAL RAIL-

The largest panorama ever attempted in Canada is shown at the Canadian National Exhibition, in the railway building, forming part of the Canadian National-Grand Trunk exhibit, and depicting the magnificent scenery in Jasper Park. With water falls and the cascade of the Maligne river emptying into the Athabasca, it occupies a length of 125 feet by a depth of 40 feet. It is attracting many visitors, and everyone who has seen this realistic reproduction of the Athabasca Valley and Yellowhead Pass considers it one of the finest features ever shown at the Canadian Nationa

In the foreground is shown Mount Cavell, dedicated by Canada to the memory of the martyred nurse; in the distance is shown Mount Robson, and, sweeping to the east, various snow-capped peaks, with Roche Miette at the entrance to the park, while nestling in the valley, with Pyramid mounain towering above it, is shown the village of Jasper. By a method of in-direct lighting, the effect of moon-light, dawn and sunlight is given to this most realistic and striking dis-

SCHOOLS REOPEN

Many of Usual Teachers Delayed on Tour Thru Battlefields of Europe.

The Toronto public schools reopen today. Every one of the old schools will resume as per schedule, but the two new ones, which had been hoped would be ready, will not now be com-pleted before late this fall. According to Chief Inspector Cow-ley, there are few changes in the teaching staff, altho the schools will

open minus forty-one of the usual in-structors, delayed on their way from a tour thru the battlefields of Europe. DRUNK IN CHARGE OF AUTO.

Sundays only, for Toronto and intermediate stations, will not run on Sunday, Sept. 5, but will be run on Monday, Sept. 6, after which date it will be canceled.

In yesterday's police court, seftence of one week in jail was imposed on Herbert Archer for being drunk while in charge of an auto,

Checking Up!

WE checked up yesterday, and found that we put through sixty telephone calls," says one business man.

"We can get along on about three outgoing calls a day," says another.

Should these two pay the same for telephone service? Surely it is apparent that some basis of payment in direct ratio to use of the service is necessary.

The message rate plan fixes a charge in exact proportion to use of the service-so much for each effective outgoing message.

The Bell Telephone Company of Canada
