ADVENTURES OF THE TWINS

By Olive Roberts Barton

THIS ONE'S A PERFECT CIRCUS.

Sing a song - fifty cents.

"Why, I'm so surprised to see every body here today!" declared the Riddle Lady, looking around at all the Riddle Land people and Mother Goose people - also Nancy and Nick, the Twins.

But she was only joking, and everybody knew it, for the day before she had offered some bonnetes to a prize, and not a soul would have it.

So, my dears, if anybody goes to give you any sulphur and molasses this spring, or anything dreadful like that, just because it is spring, look hard at the bottle it is in. I don't know what became of it, but it might be the very same one!

But there! I do talk more and say less, don't I! I forgot all about the riddle. Here it is:

"Sing a song of fifty cents, A pocketful of dimes, I went to a big show, Greatest of all times. When the tents were opened, We went crowding in; It's fun to see the animals Before the acts begin."

"Popcorn and peanuts, And tubs of lemonade,

Corns

Never Use a Knife!

It is so easy to get rid of a corn. Blue-jay ends them. Stops the pain instantly. Then the corn loosens and comes out. Does away with dangerous paring. Get Blue-jay at your druggist.

Blue-jay

And clowns all turning somersaults, I'll make your head spin!

"And there are four-horse chariots, And Romans that do a dance, And elephants that do a dance, And march all 'round the place; And last of all the side shows, Fat folks and thin; Now can you tell this wondrous place, Where I have been?"

"A circus!" shouted everybody. "Good!" laughed the Riddle Lady. "And here are tickets for everybody." (To be continued.)

RETREAT IS BEGUN FOR YOUNG MEN

Rev. A. MacDonald, C. S. S. R., of St. Peter's church, opened a three-day retreat for the unmarried men of the Cathedral parish last evening. At the conclusion of Vespers, Father MacDonald preached to the large congregation on the need of the Supernatural in the direction of our lives. Following the sermon there was Benediction of the Blessed Sacrament. Masses in the morning will be at 6, 7 and 8 o'clock and the evening exercises will begin at 7:30. The retreat for the men will end on Wednesday evening. Next Sunday a retreat for the unmarried women will begin and will conclude on the following Wednesday.

W. C. T. U. PARLOR MEETING.

The second parlor meeting of the local W. C. T. U. this season was held on Saturday night at the home of Mrs. E. S. Hennigar, 28 Orange street. In the absence of Mrs. George Caldwell, Mrs. Hope Thomson, the president, was in the chair. Mrs. Axel Berglund read part of the first chapter of John and spoke of the "what," "why" and "when" of prayer.

Mrs. Hennigar spoke of her pleasure in welcoming the members to her home. Her daughter, Miss Julia Hennigar, read a letter she had just received from her son, Rev. E. C. Hennigar, M. A., missionary in Japan. The letter was an appeal from the women of Tokio and told of the work of the W. C. T. U. foreign auxiliary there. A collection taken at the meeting it was decided should be made the nucleus for a Japanese relief fund, to be added to at other parlor meetings.

Miss Gladys Styles and Miss Stella Earle sang a duet. Mrs. Mary Seymour read a paper on temperance. Mrs. W. H. Humphrey read an account of a sermon by Rev. R. P. McKim. Miss Earle gave readings. Refreshments were served and hearty thanks were extended to the hostess and to Miss Styles and Miss Earle.

Your Health

PROTECTIVE FOODS.

In using the term protective foods, I have in mind the foods which are highly useful and necessary in giving children the elements needed for successful development and guarding them against food deficiencies, with body loss in weight and strength.

Just how these protective foods do their work is a dietary fact of great importance. There is always the danger of a one-track diet. The white bread, meat, potato and "home sweet" type of diet, is just as dangerous as it is wholesome.

The real needs of correct body building in all elements are not supplied by this group. They are necessary and healthful, but must be amply supplemented by others which may be termed protective.

They protect against loss in proper bone growth and against early loss of the teeth. In general nutritive qualities these so-called protective foods are of such great value that the body does not and cannot perform its metabolic processes without their assistance.

This list of protective foods includes milk, different kinds of cheese, eggs, cabbage, spinach, cauliflower, collards, lettuce, beet tops and any other green vegetables whose leaves are eaten. Use them throughout the year at proper intervals.

We must have good teeth exercise and proper foods to chew. Faulty teeth are prominent in 90 per cent. of school children.

Protective foods will help remedy this condition.
