

## ST. JOHN MAN GLAD NOW HE TOOK THE ADVICE OF FRIENDS

After Being Urged to Take  
Tanlac He Does so and  
Troubles of Three Years  
Standing Have Been Over-  
come.

Hundreds of St. John people, both men and women, are now taking Tanlac with the most surprising and gratifying results. Numbers have called at the Drug Store in the past few days to purchase the medicine and to tell of the benefits they have derived from its use. Among the number who called is Henry McGee, of 15 St. Patrick street. Mr. McGee seemed profoundly grateful for his wonderful improvement and in relating his experience, said:

"I have not finished my first bottle of Tanlac before I began to straighten up. Honestly, I believe it's the best medicine in the world and while I have just finished my second bottle I have improved so much that I am ready right now to tell everybody about it.

"During the past three years, that is until I got Tanlac, I have suffered almost continually from indigestion. My food just seemed to lay in my stomach like lead and I couldn't eat anything without feeling miserable for hours afterwards. Then came the 'flu epidemic and I was taken down with this trouble, which left me in a much worse run-down condition than ever. There was an awful pain in my side, so bad at times that I could hardly get my breath, and had that tired, no account feeling all the time. I could neither eat nor sleep to do any good and got so weak and played-out that I couldn't work and was forced to quit my job.

"I had read numbers of statements in the papers from people who claimed Tanlac had relieved them of such troubles, but I never thought much about being good for me until some of my friends urged me to try it. Now I can cheerfully say that I am mighty glad I took their advice, for I commenced to feel a big change in my condition with my first bottle. My appetite is so big now that I can hardly eat enough to satisfy me and my food seems to agree with me perfectly. The pains have disappeared from my side, my tired, worn-out feelings are gone and I am now in shape to go back to work. In fact, Tanlac has put me on my feet and I don't hesitate to recommend it as the best medicine I have ever run across. I would spend my last dollar for it rather than be without it."

"There is not a single portion of the body that is not benefited by the helpful action of Tanlac, which begins its work by stimulating the digestive and assimilative organs, thereby enriching the blood and invigorating the whole system. Next, it enables the weak, worn-out stomach to thoroughly digest its food, permitting the nourishing elements to be converted into blood, bone and muscle.

"It overcomes, it is said, that great exciting cause of disease weakness. It restores the body vigorous and elastic, keeps the mind clear and energetic, and throws off the symptoms of nervousness and indigestion. It builds up the constitution weakened by disease and mental and physical overexertion, and is an unfailing source of comfort to all suffering from such troubles.

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro under the personal direction of a special Tanlac representative. (Adv.)

## Eyes Sore?

If your eyes or lids are sore; if they itch, burn or feel dry; if your vision is blurred, your eyesight dim, if you are obliged to wear glasses, go to your druggist and get a bottle of Bon-Opto tablets. Dissolve one in a fourth of a glass of water and bathe the eyes from two to four times a day. Sound, comfortable eyes and improved eyesight will make the world look brighter.

Note: Doctors say Bon-Opto strengthens eyesight and is a week's time in many instances. Watson's Drug Store and other druggists.

## The Intelligent Way To End Corns

Not by paring. That's a risky makeshift, and results are brief. Not by harsh, haphazard methods made by non-scientific men.

Not by padding. Pads are unsightly, and they simply coddle corns.

### Expert Methods

Blue-jay was invented by a scientific expert. It is made by a house famed for its surgical dressings.

It embodies the up-to-date method, the right method of corn treatment. Apply it and the pain stops instantly. Forget it for two days. Remove it, and the corn is gone for good. One corn in ten may need a second application, but that's all.

Millions of corns have been ended in this way. Aching corns are unknown to its users. These are facts known to your own friends and neighbors. It is time that you knew them. Try Blue-jay tonight.

## Crerar and Calder on The Tariff

Ottawa, June 11.—Members of the commons who anticipated a lively up of the budget debate because Hon. T. A. Crerar and Hon. J. A. Calder were billed to speak were not disappointed today.

Mr. Crerar told the house why he felt impelled to leave the government, while the minister of immigration and colonization explained why he supported the budget proposals of the finance minister.

Mr. Crerar explained that he had dropped out of the government because he found himself in sharp opposition to his colleagues on the fiscal policy and the only honorable course to pursue was to tender his resignation.

Mr. Calder, on the other hand, maintained that until demobilization is complete the tariff is not an issue.

## DR. STEWART OF HALIFAX CHOSEN BY THE ASSEMBLY

Succeeds Late Dr. Somerville  
Presbyterian Parliament Express  
Sympathy With Cause of Organ-  
ized Labor

Hamilton, June 11.—In view of the action of the general assembly, which he believed to be injurious to the fund of which he is convener, J. K. McDonald, of Toronto, this morning tendered his resignation as convener of the finance board. The matter was referred to the committee for striking standing committees.

James Rogers, of Montreal, brought in the report concerning the appointment of a convener of statistics and joint clerk of the assembly, left vacant by the death of Rev. Dr. Somerville, Toronto.

Thomas Stewart, of Halifax, will receive the appointment and G. Tower Ferguson, of Toronto, will be appointed treasurer for one year. The salaries will be fixed later.

The assembly endorsed overture received from the synod of Hamilton and London recommending that the government be asked to make the date of Thanksgiving the same as in the United States.

The overture asking the government to appoint in future days other than Sunday as days of national prayer was also endorsed.

The resolution of the assembly on social unrest was presented by Rev. W. B. Ross, of Halifax.

The resolution stated that the assembly recognized the present social unrest as a sign of the vital effort of the nation to adjust itself to new and changing conditions. They also recognized that this unrest is a belated protest against injustices that have been tolerated in the social system—the alienation of our natural resources—the tying up of land for the unearned increment in values, profiting especially during the war, the public indifference towards the conditions in which many people live and work, the wrong they suffer and the call for extensive reform by parliamentary legislation of the abuses complained of.

Industry, the resolution pointed out, exists primarily to serve. In order to serve it, the rights to secure and the emphasis of the hour should be on the service rather than the reward.

The assembly warmly recommends movements now afoot in many districts towards the following ends:

Leaving the workers a voice in determining the conditions under which they shall work.

Co-operating with the state in providing insurance against unemployment, accident, sickness and insurance for old age.

Securing for workers such hours of labor as afford time for self-improvement, for service to their families and communities.

All parties are urged to be conciliatory in spirit in adjusting their disputes, in view of the tension at the present time.

Profound sympathy is expressed with the aims and objects of organized labor on the whole, but organized labor is also reminded that it is now and must continue to be only a small part of the world's workers and that the success of their cause depends upon winning public confidence. Organized labor should stand for each man rendering the fullest service. The involuntarily of agreements must be insisted upon.

The assembly affirms its conviction of the rights of workers to organize, and the rights of the members of each craft to elect their own representatives in the management of the industries in which they are working. This should be recognized at once by the employers and the state.

Mrs. David Pines said Mrs. Mann had seemed much agitated, fearing something had happened to her mother. She had been called to attend her about two weeks ago and found her suffering mentally and very much depressed. It was his intention to have her taken to a sanatorium so soon as permission was obtained from her husband, who was not at home.

G. O. Spencer, druggist, said Mrs. Mann was a customer of his store. He told of an order over the telephone to one of the clerks. It included a receipt for prescription for boric acid for an eye wash. Along with this she wanted a small amount of chloroform to put her fur away in the fur chest. The witness did not know Mrs. Mann was mentally deranged. About an hour or so after sending the order Mrs. Mann's mother, called and paid for the purchase. In his store they were always very careful to whom they sold chloroform. The bottles contained only two drams each and were not sufficient to cause death without the use of the gas mask.

**SURPLUS WAR LEATHER  
IS SOLD AT AUCTION**  
Philadelphia, Pa., June 9.—More than \$2,000,000 worth of surplus leather purchased for war purposes was sold by the government at public auction. The sale will continue until the entire stock, valued at approximately \$4,000,000, is disposed of. Representatives of leather firms from many sections are attending the sale.

The stock includes various grades of strap, harness, sole and bag leather and rawhide cutlins.

**Federation Wants Beer**  
Atlantic City, June 11.—Organized labor today went on record against war-time prohibition and in favor of the exemption of 2-4 per cent. beer from both the war-time prohibition act and the federal prohibition amendment in a resolution adopted by the American Federation of Labor.

When germs attack the lining of the nose, make you sneeze and gag—when later on they infect the bronchial tubes—how can you follow them with a cough syrup?

You can't do it—that's all. Cough syrups go to the stomach—that's why they fail.

But Catarrhazone goes everywhere—gets right after the germs—kills them—beats the soreness—cures the inflammation—makes Catarrh disappear. Not difficult for Catarrhazone to cure, because it contains the essence of pine balsam and other antiseptics that simply mean death to catarrh. Large size costs \$1 and contains two months' treatment; smaller sizes 50c and 25c, all druggists and stockholders.

"BUT, my dear, you know I must go to my work."

"What ever shall I do?"

"But I thought you liked to be alone."

"I did used to, but I cannot bear to be alone any more. I am afraid something terrible will happen to me."

"Did you sleep well?"

"No, indeed I did not. I am afraid to sleep for I had such terrible dreams."

"You never used to be like that."

"Until I had that operation I was all right. But since then I have always been so nervous and irritable, and never seem to feel like I did before."

"I guess the shock was too much for the nervous system."

"I suppose it was, for my nerves have all gone to pieces. I get so discouraged and downhearted sometimes that I cannot help but cry. Oh, if I could only get something to make me well."

"Well, I am going to get you some of Dr. Chase's Nerve Food and we shall see what that will do for you."

"You get the Nerve Food on your way home at noon and I must try to control my nerves in the meantime."

"I will bring the Nerve Food all right and it will be a great blessing to us if it only makes you well."
