

# ROALTA MAKES A NEW RECORD BEATS THE MILE AND SEVENTY YARDS TIME

### Josie S. and Redwood Secure Unexpected Wins for Owners.

W. G. Jenkin's five-year-old chestnut Roalta was responsible for breaking another record yesterday when he won from Aristotle and Miss Mazzoni in the mile and seventy yards, and lowered Ed. Ball's record of 1.47 by three-fifths. Coburn rode the winner. Roalta holds the six furlong record also, and until Saturday held the record for seven furlongs until Monvina took three-fifths off it. From a good start Roalta yesterday went to the front and held the distance safe all the way. Aristotle and Miss Mazzoni fought out a gallant second, and while it looked as if Aristotle would be beaten, the Olympia stable entry was given the decision by a nose.

The detailed results of Wednesday's events are:

First race—Five furlongs. Selling. Two-year-olds. Value to first \$150. Horse and jockey. Op. Cl. Lady Elizabeth, Vosper (105) .. 4 2 Irma Lee, Archibald (107) .. 3 2 Ketchel, Coburn (105) .. 3 2 Alarmed, Brooks (108) .. 15 20 Two Oaks, Leeds (108) .. 30 100 Swift MacNeil, J. King (108) .. 30 60 Third Chance, Callahan (105) .. 15 20 Knub, Matthews (105) .. 10 20 Time, 1:01 4-5.

Second race—Five furlongs. Selling. Four-year-olds and upward. Value to first \$150. Horse and jockey. Op. Cl. Titus II, Shale (114) .. 2 9-5 Marvel P, Matthews (117) .. 6 9 Nellie Racine, Leeds (117) .. 4 6 Vronsky, Brooks (119) .. 6 9 Geo. Kilborn, Coburn (119) .. 6 9 Toller, Archibald (112) .. 7 5 Sid Silver, Vosper (119) .. 3 4 Time, 1:03.

Third race—Six furlongs. Selling. Three-year-olds and upward. Value to first \$150. Horse and jockey. Op. Cl. Redwood II, Archibald (115) .. 6 10 Traffic, J. King (109) .. 3 2-5 Shk Spring, Brooks (116) .. 2 30 Peggy O'Neal, Shale (109) .. 2 9-5 Spremoelle, J. King (105) .. 6 12 Sadie H, Archibald (107) .. 8 10 Golden, Keogh (107) .. 5 9-2 Little Minister, Brooks (109) .. 8 10 Joe Nelson, Vosper (112) .. 12 7 Black Cloud, McEwen (109) .. 7 10 Time, 1:16 3-5.

Fourth race—One mile and seventy yards. Purse. Three-year-olds and upward. Value to first \$150. Horse and jockey. Op. Cl. Aristotle, Keogh (109) .. 2 9-5 Roalta, Coburn (114) .. 7-10 4-5 Aristotle, Keogh (109) .. 3 8-2 Miss Mazzoni, Brooks (109) .. 8 7-2 Edwin T. Fryer, Callahan (114) .. 6 9 Silver Knight, Vosper (100) .. 8 15 Time, 1:46 2-5.

Fifth race—Seven furlongs. Three-year-olds and upward. Value to first \$150. Horse and jockey. Op. Cl. Redwood II, Archibald (115) .. 6 10 Traffic, J. King (109) .. 3 2-5 Shk Spring, Brooks (116) .. 2 30 Peggy O'Neal, Shale (109) .. 2 9-5 Spremoelle, J. King (105) .. 6 12 Sir Angus, Leeds (114) .. 10 15 Mitre, Vosper (115) .. 5 7 Blue Heron, Coburn (114) .. 8 7 Time, 1:23.

Sixth race—Six furlongs. Selling. Three-year-olds and upward. Value to first \$150. Horse and jockey. Op. Cl. El Paso, Archibald (107) .. 3 2-5 Cheers, Vosper (109) .. 2 9-5 Wambro, Coburn (104) .. 2 8-5 Liddington, Brooks (115) .. 10 15 Lovly Mary, Callahan (110) .. 8 6 Frank Rogers, J. King (109) .. 8 15 Trust, Georgia (112) .. 20 100 Time, 1:16 2-5.

## ST. DENIS BRINGS SALMON FROM NORTH

### Reports of Rich Ore at Goose Bay Brought by Steamer.

Five thousand cases of new pack salmon were brought down from the north, arriving here early Wednesday on the steamer St. Denis. These were put up on the Skeena, mostly at the Claxton and Carlyle canneries. The run in those waters has been about the same as last year so far, but the owners of the canneries are expecting that it will be a better year than last.

The steamer also brought a few boats from the north which were left at the Fraser river, the people there still having hope that the big run will arrive in good time.

A few miners and prospectors came down from Goose Bay, where they claim they have found something rich. Strawberries were purchased by the steamer at Bella Coola of excellent quality. These were later than usual on account of the severe winter and lateness of the spring. Three large parcels of the delicious berries were consumed by the people on the St. Denis.

Several passengers were taken to Shuscharie, the vessel calling there both ways. The Vado passed the St. Denis at that point as she was going north. She took six passengers to Shuscharie.

The St. Denis does not leave again until tomorrow evening, meanwhile the Furser Keeling, of that steamer, has taken a run over to Seattle.

The death of George F. Giles occurred Tuesday at St. Joseph's hospital. The deceased was a native of Ottawa. For the past four years he has been a resident of Victoria, coming here from Kamloops. He leaves a wife and three young children. The deceased was a member of the S. O. E. and of the I. O. O. F.

## SOCCER MEN INVITED TO TOUR CALIFORNIA

### Asked to Participate in Big Portola Festival Next October.

An invitation has been received by the California Football Association by Mr. Will Ellis to send a British Columbia team there next October, their mission to be one of the features of a Portola being promoted. The committee organizing the festival will contribute a sum of \$500 towards travelling expenses and their hotel accommodation down there will be provided by the committee. The California Football Association will also arrange a series which will cover the expenses of the tour. A meeting of the Pacific Coast Football League will be called to consider the project.

## MILKY WHITENESS OF WEST COAST WATER

### Plankton May Be Responsible for Delay in Annual Run of Salmon.

Arrivals from the west coast of Vancouver Island on the steamer Tees, which made port Tuesday afternoon, tell of a wonderful phenomenon which was observed in the waters along the coast. The water all the way from Cape Beale to Nootka Sound is of a peculiar milky whiteness, which gives a most odd effect. One man describes it as appearing as if it were a mixture consisting of half milk and half water. The people up the coast have no explanation to offer, but the Indians say that it interferes with the fishing. This year so far they are catching no fish, and they ascribe it to the peculiar whiteness of the water which they say keeps the fish away. The whalers say it extends out into the ocean for a distance of 30 miles in some places.

Speaking of the appearance this morning to Dr. Newcombe, that gentleman said the phenomenon had been noticed before in past years. Professor McBride, of McGill university, was here a few years ago investigating the matter, and he ascribed it to minute animal and vegetable forms known as "plankton." This consists largely of spores of certain minute vegetable forms, and the young of animal forms. They were pursued by larger forms, and the whole formed a food for seals and salmon.

Discussing the matter with others, the theory has been propounded that the presence of the plankton on the coast has been responsible for the lateness of the run of fish. If they are found in the waters they may have been delayed in their arrival in taking an extra feed of the delicacy before leaving for the rivers to spawn. This is of course only speculation, but the Indians on the coast who have seen the phenomena for years say that it stops the fish, and it seems quite likely that it may be true.

## LARGE CONSIGNMENT OF WHALE OIL

### Steamer Tees Arrived Yesterday With Passengers and Freight.

Eleven hundred barrels of whale oil was brought from the West Coast on Tuesday by the steamer Tees valued at about \$20,000. This was distributed in a temporary deadlock as a circum cannot be secured until the return of Aldermen Marshall and Cook.

## NEW BAPTIST CHURCH FOR VANCOUVER

### Work Is Commenced on Structure Which Will Cost \$75,000.

## NOTICE TO MARINERS.

A list of all lights and fog signals on the Pacific coast of the Dominion of Canada, corrected to the 1st April, 1909, has just been published. Copies will be supplied to mariners free on application.

Gabriola Reefs.

With further reference to a notice to mariners No. 86 (219) of 1908, a careful survey of the locality by H. M. surveying vessel Egeria having failed to find any trace of the two-fathom rock reef, it is hereby notified that the two-fathom rock beacon, Gabriola reefs, it has been expunged from the charts.

Grassy Point.

Grassy point beacon, Baynes sound, which was destroyed by a storm, has been replaced by a steel can buoy, painted black, moored in 12 fathoms of water. Lat. north 49 deg. 33 min. 53 sec. long. west 124 deg. 54 min. 32 sec. From the buoy, Goose spit beacon bears north 45 degrees west, distant eight and one-half cables, and the "highest tree" on Sandy island bears south 82 degrees east.

Prince Rupert Harbor.

The red conical buoy, which heretofore marked Elliot rock, Prince Rupert harbor approach, Chatham sound, has been replaced by a steel can buoy, painted in red and black horizontal bands, moored close to the rock.

The British postoffice is the guardian of over \$1,000,000 placed in the savings bank by depositors.

## TRAIL LEAD REFINERY.

### Capacity of the Plant Is Being Increased.

The refinery plant of the Consolidated Co., at Trail, goes steadily in motion, under the supervision of J. F. Miller, says the Rossland Miner. A representative recently visited the plant and found it in an extremely busy condition. The ground dimensions of the main building are 311 feet in length by 55 feet in width. When the plant first began operations, ten tons a day was the daily output, but it has lately been turning out 70 tons a day, and the capacity has been enlarged to 100 tons a day. Within a reasonable period the capacity will be enlarged to 200 tons a day, and this quantity later on will be still further augmented.

The plant is fitted up with many modern labor-saving conveniences. Another improvement is the molten lead when it is being cast is pumped from the pots in which it is melted by means of centrifugal pumps. Formerly steam syphons were used, but this produced a superabundance of slag which with the centrifugal pumps the slag is reduced to a minimum. Besides pure lead, silver-lead and sulphite of copper, a new material has been added, the output of the refinery in the shape of an electroplating metal which is equal to the best babbitt or bronze bearings. It is fine lead, tempered electrically, and is selling at a price which has caused it to be in demand in orders for additional quantities, so well does it answer the intended purpose.

## TEMPORARY DEADLOCK IN PHOENIX COUNCIL

### Three of the Aldermen Object to Action of Licensing Commissioners.

Phoenix, July 20.—The action of the police and licensing commissioners in granting only seven renewals out of the fourteen licenses held in the city was a lively topic of discussion at a special meeting of the city council. Mayor Rumberger and Aldermen Rogers, McKenzie and Deane only were present at the meeting, Aldermen Marshall and Cook being absent from the city and Alderman Hillier not attending.

The council chamber was crowded with license holders and others interested in the recent action of the commissioners. The cancelling of seven licenses would mean a loss of \$150,000 in revenue to the city during the next six months and the aldermen present were of the opinion that the city's finances could not stand the shock.

A motion of Aldermen Rogers and McKenzie was then introduced, embodying instructions to the city clerk to issue liquor licenses to all license holders on that date, upon the license fees being tendered.

The mayor ruled the motion out of order, as being illegal, and suggested that an adjournment should be made and legal advice secured.

A resolution censuring the board of commissioners for alleged discrimination in the renewals, was then introduced on motion, but the mayor refused to put the motion.

The council adjourned until the following morning, the clerk being instructed to secure legal advice on the issue in question.

At the next meeting the clerk informed the council of the city solicitor's advice, which was to the effect that the council would be taking grave responsibility in passing such a motion.

Both motions which were submitted on the previous evening had been introduced, but the mayor refused to allow them to go to a vote.

Alderman Rogers then informed the mayor that he would refuse to sign a resolution censuring the board of Aldermen Marshall and Cook.

## PROFIT MADE BY CANNERS' ASSOCIATION

### British Columbia Packers Present Report for Last Year.

The report of W. H. Barker, general manager of the British Columbia Packers' Association, submitted at the annual meeting at Vancouver, indicated that the affairs of the association are in good condition. The output of the company was 151,678 cases of canned salmon and about 150 tons of mild cured salmon, ten canneries being operated and one cold storage plant. The usual quantity of salmon, halibut and other fish were frozen, while about 750,000 pounds of fresh halibut were shipped, showing that a fair business is being done along this line. The company made a profit of \$90,000, paying a dividend of 3 1/2 per cent. Adding the balance of the profits to the working capital. This year 22 canneries will be operated.

In this report Mr. Barker said further: "Prices for canned salmon were fairly good, but were not maintained, particularly in the lower grades, which were in over-supply."

All our canneries, wharves, steamers, scows, etc., have been kept in good repair and renewed where necessary.

"Acheson's new Nimpkish hatchery, turning out about 5,000,000 sockeye fry. The natural spawning grounds were also well seeded. We had every reason to expect some considerable returns this year as the output of 1904, but so far we are disappointed as the pack at Alert Bay is very small. There is time yet, however, to make a fair pack, and trust we will do so. The two hatcheries on the Skeena did very well, the natural spawning grounds plentifully supplied. The hatchery at Rivers Inlet did not do as well as last year, but turned out a good quantity; the natural spawning grounds were also well seeded. The Fraser river hatcheries turned out quite a large quantity of sockeye fry, taking into consideration the late season of the year. The output of 1908 was one of the poor years.

"The new salmon cannery at Alert Bay has proved very satisfactory; we have sufficient room for more business when it comes. Our fresh halibut shipments are not increased owing to the supply of other fish in Eastern Canada being abundant."

The writer has visited them recently, and found them in good shape; the Lowe Inlet cannery has been damaged by a fire, and the foundation of the Eastmorland (on the Skeena) by ice; they have been put in first class condition; all have made a fair start.

"As this year we expect the big run on the coast canneries there and seven north. We thought best to be conservative, and have prepared for a pack of 400,000 cases, and the foundation of the Eastmorland in 1908—476 big season's pack."

Very few fish have shown on the Fraser, but as the season is a backward one, we are not alarmed, feeling sure that the run will be good.

Our books show that we had on hand on the 30th June, 30,448 cases of salmon, part of which was consigned to England, and in which we have some quantity of frozen fish in cold storage on the 26th June was \$45,569.52, and sundry accounts \$22,348.06. We owed the banks, 30th June, \$250,495.65; outstanding accounts same date, \$47,267.68.

Your directors thought best to only pay a 3 1/2 per cent. dividend last year, adding balance profit earned to working capital.

The board of directors was re-elected as follows: Aemilius Jarvis, vice-president, Toronto; E. W. Rollins, Boston; W. H. Barker, C. Sweeney, Wm. Murray, Wm. J. E. Van, Robert Kelly, Vancouver; K. K. McLaren, New Jersey.

## WORK ON LIGHTING PLANT AT LADYSMITH

### Site Is Being Graded—Light Will Be Ready for Consumers by October 1st.

Ladysmith, July 20.—Work has commenced on the installation of the electric lighting plant. Already the agents have begun to collect the material for the plant, and C. R. Yull is here making preparations for the delivery of the poles.

The city engineer has started grading at the siding where the plant will be located. He has several men with him, and he will have everything in readiness for the building contractors in a short time. There will be considerable levelling required, but generally speaking, the site is regarded as an ideal one.

The first big piece of machinery to arrive here will be the boiler. The contractors expect to have it on the ground in four weeks. The other parts are being collected, and they will be shipped here as required.

The work will be rushed to completion, and it is quite possible that the light will be ready for consumers on October 1st. It will not take long to install the machinery when it is once on the ground, and in the meantime the pole line will be completed.

## POLICE COURT PROSECUTION.

### Cost of Work Discussed at Meeting of Vancouver City Council.

Vancouver, July 20.—Quite a protest was raised at last night's meeting of the city council, when a supplementary report of the finance committee was presented recommending that the police court prosecution work be taken over by the city from the city solicitor's department, and that J. K. Kennedy, of the city solicitor's office, be appointed to conduct the work at a salary of \$200 per month. The old question of the city solicitor's resignation was again dragged out. Ald. Kirkpatrick and Morton opposed the report on the grounds that it practically meant that \$200 extra a month was being paid to the city solicitor's office. Ald. MacMillan pointed out that Mr. Cowan claimed that the disbursements in his office exceeded his salary from the city. He was ready to step out at any time, and only remained at the council's urgent request. Ald. MacMillan thought that it would be unwise to part with Mr. Cowan until the twelve suits now against the city were disposed of and the new bridge by-laws completed. After further discussion the report was adopted.

## INVESTIGATING THE DEATH OF LIEUTENANT

### Witness Firm in Declaring That Officer Committed Suicide.

Annapolis, Md., July 21.—Under cross-examination yesterday Lieut. E. E. Adams, stuck to his story that Lieut. Sutton, the officer of the marine corps whose death on October 12, 1907, is being investigated by a court of inquiry, committed suicide. Henry E. Davis, counsel for Sutton's mother, shot questions at Adams with great rapidity, but the lieutenant, who witnessed his class mate's death, remained firm in his declaration that it was a case of suicide.

Despite the fact that Davis has managed to pick flaws in the story told by Adams at various times regarding the death of Sutton, the witness remained calm under the cross-examination, and answered questions without a show of hesitancy.

Mrs. Sutton, mother of the dead lieutenant, and her daughter were present at the hearing and watched the proceedings with closest attention. Both were pale and showed plainly that they were undergoing a terrible ordeal while they listened to testimony tending to show that the lieutenant was of a quarrelsome disposition and was heartily disliked by many of his classmates.

While denying that he made admissions to Mrs. Parker involving himself in the tragedy, Lieut. Adams became very vehement and he flushed a deep red.

"What is the use of all these little details when I told you that I made no admissions at all?" angrily queried the lieutenant.

"Did you not tell Mrs. Parker you were so infuriated that you did not know what you were doing and did not care, and that some one had to pull you off his (Sutton's) prostrate body, and that you were beating him and had your hand on his throat?" asked Davis.

Adams replied that he did not remember.

Second Lieut. Osterman resumed and was cross-examined by Attorney Davis. There was little difference in Osterman's testimony and that he gave at the former inquiry into the death of Sutton. Osterman said he could not recall the number of times he knocked Sutton down when they were fighting, after leaving the automobile. He said when Sutton ran toward camp he and the others discussed the lieutenant's threat to shoot them. He said that Adams afterwards told him that Sutton committed suicide and that he had no other knowledge of the affair, as Adams' statement was his only source of information.

First Lieut. Balvan, nephew of Senator Grayson of Maryland, the medical witness called, gave the strongest testimony yet introduced in support of the suicide theory.

## AIRSHIP FOR THE FAIR IN SEPTEMBER

### Two Ascensions Made Daily—Guided Pacer Coming.

Two attractions of special interest have been secured by contract for the B. C. Agricultural Society's fair in September next, to be held at the Williams fair grounds. Secretary E. Smart has signed up with J. S. M. Ely for two ascensions daily of the Mars dirigible airship, by J. C. Mars, and for exhibitions by the guided pacer College Maid.

Mr. Mars agrees to give two ascents daily, and three if required. The Mars airship has just completed an engagement at the Seattle A.-P.-F. fair, and the flights have been successful. The airship is constructed of pongee silk varnished. It is 62 feet by 17 feet. It is driven by a 15 horse-power, four-cylinder, air-cooled gasoline engine weighing 30 pounds, and can develop a speed of eighteen miles an hour.

College Maid, the guided pacer, was to have come here last year for the annual fair, but missed connections between here and Portland. The contract this year, however, makes its appearance a certainty, and those who lost the chance to witness the exhibition of the guided pacer last year will be afforded an opportunity this September.

—There will be a meeting of the Victoria Poultry and Pet Stock Association in Labor hall, room 3, at 8 o'clock to-night.

—The funeral of the late Herbert F. Sweetzer took place Tuesday afternoon from the Hanna chapel, Rev. T. E. Helling conducted the services.

## MUSIC RESULTS.

### Those Who Have Been Successful in Recent Examinations.

Toronto university has issued the following results of local examinations in music at Victoria, B. C.: Junior theory—Class I.—Miss A. M. Edie. Intermediate theory—Class II.—Miss N. W. Spencer. Primary piano—Class I.—Miss M. Nelson. Class III.—Miss W. B. Robinson; 2. Miss A. C. Tait. Junior piano—Class II.—Miss A. M. Edie. Class III.—1. Miss M. E. Moir; 2. Miss H. E. Tait. Senior piano—Class II.—Miss N. W. Spencer.

The following are the results of the recent examinations in pedagogy: B. Paed.—E. W. Jennings has passed in section A; D. A. Gilchrist and R. H. Roberts have passed in section B.

D. Paed.—H. G. Amoss has passed in section A; R. A. Little and J. McCall have passed in section B.

## IRRIGATION WORKS ON THOMPSON RIVER

### B. C. Development Company Is Carrying Out Valuable Work at Penny's.

Glowing accounts of the success of the irrigation works at Penny's is brought back by Ernest E. Billingham of the B. C. Development Co., who has just returned from a visit to the company's property at that point.

The works have been carried out under the direction of Engineer Hunter, an expert in irrigation work, a graduate of Pullman college, Washington, and a man of great experience. There are already three hundred acres of irrigated lands, set out with peaches, apples and other fruits, to the south of the Thompson river. The plans include the reclamation of some four thousand acres of bench lands on the north and south of bench lands are selling well and several purchasers from Great Britain are taking them up. The company intends to advertise its lands extensively in the Old Land and will not doubt be instrumental in bringing out a fine class of settler with ample means.

The company contemplates putting up a first-class hotel at Penny's. A post office is being established there, and the name will be changed to an Indian one.

## PRIVATE SUBSCRIPTIONS FOR ENTERTAINMENT

### Proposition Made by Which British Scientists May Be Brought Here.

The decision of the city council not to make a grant for the entertainment of the members of the British Association for the Advancement of Science, has called forth a generous offer from R. H. Chapman, of the Dominion Geological Survey, who is making his headquarters here this summer in connection with the survey for a topographical map of Vancouver Island. It is probable that others will follow his lead, and that the association may be invited to pay a visit to Victoria after the convention in Winnipeg.

Mr. Chapman writes to the Times the following letter which is self-explanatory:

Sir.—In to-day's Times I note the headline "No Grant for Entertainment" and have read the article. It seems to me a pity that a gathering of such eminent persons should not visit this city and be provided with some special attention.

Though I am a temporary resident only of this vicinity I will be very glad to be one of twenty persons to give ten dollars each to defray the expenses of entertaining such members of the British Association for the Advancement of Science as will come to Victoria.

The total will be the sum asked of the city.

ROBERT H. CHAPMAN.  
Victoria, July 20, 1909.

## ISLAND EXHIBIT AT SEATTLE FAIR

Ernest McGaffey, secretary of the league, was appointed to conclude the arrangements for the exhibit which will be stationed at the agricultural building next to the C. P. R. exhibit. The exhibit will take the shape of bulk examples of the products of Vancouver Island. There will be iron, coal and copper ore, marble, wood, oil paintings of Vancouver Island game birds, photographs of the island and fish and big game.

L. H. Solly, of the E. & N. Railway Company, has been working in conjunction with the secretary of the league in the matter, and will continue to do so.

—Last Monday evening the young people of the First Congregational church enjoyed a treat in the form of an address by Mr. Short of the James Bay Methodist church, on the subject of "The Power of the Cross." The sermon for the evening was by J. Ferris, The Y. P. S. of W. of the Congregational church is steadily increasing in numbers and extends a hearty welcome to all visitors and strangers in the city to attend the meetings held every Monday evening at 8 o'clock.

## THE CITY OF BRASS

BY RUDYARD KIPLING.  
(London Morning Post.)

Here was a people whom, after their works, thou shalt see went over for their lost dominion; and in this palace is the last information respecting lords collected in the dust.—"The Arabian Nights."

In a land that the sand overlays—the ways to her gates are untraced—A multitude ended their days whose fate were made splendid by God. Till they grew drunk and were smitten—who madness and weep to their fall. And of these is a story written; and Allah alone knoweth all!

When the wine stirred in their heart their bosoms dilated. They arose to suppose themselves kings over all things created—To decree a new carol at a birth without labor or sorrow. To declare: "We prepare it to-day and to-morrow." They chose themselves prophets and priests of minute understanding. Men swift to see done—and outrun—their farthest commanding. Of the tribe which describe with a jibe the perversions of Justice—Panderers to the crowd whatsoever its lust is.

Swiftly these pulled down the walls that their fathers had made them. The impregnable ramparts around they razed and re-laid them. As playgrounds of pleasure and leisure with limitless entries. And havens of rest for the idle where once walked the sentries: And because there was need of more pay for the shouters and marchers. They disbanded in face of their foemen their slingers and archers.

They replied to their well-wishers' fears—to their enemies' laughter. Saying: "Praised We have fashioned a God which shall save us hereafter. We ascribe all dominion to man in his factions conferring. And we have numbered the Name of the Wisdom unerring." They said: "Who has hate in the soul? He harrid all evil! We have fashioned a God which shall save us hereafter. Let him arise and control both that man and his labor." "Who? Untriffling has destroyed him? He shall levy a tribute from all because none have employed him." They said: "Who has told us? Who hath striven, and gathered possession? Let him be spoiled. He hath given full proof of his aggression." They said: "Who is trifle by the Law? Though we may not remove it. If he lend us his aid in this raid, we will set him above all." So the robber did judgment again on such as displeased him. The slayer, too, boasted his slain, and the judges released him.

As for their kinsmen far off, on the skirts of the nation. They instructed all evil to make sure none escaped reprobation. They awakened unrest for a jest, in their well-wishers' borders. And leered at the blood of their brethren betrayed by their orders. They instructed all evil to rebel, the ruler to add them. And since such as obeyed them not fell, their viceroys obeyed them. When the riotous set them at naught they said: "Praise the upheaval! For the show and the world and the right of the Dominion is evil!" They unbound and flung from them with rage, as a rag that defiled them. The imperial gages of the age which their fore-runners piled them.

They ran panting in haste to lay waste and smelter for ever. The wellspring of Wisdom and Strength which are Faith and Endeavor. They nosed out and digged up and dragged forth and exposed to derision. All doctrine of purpose and worth and restraint and prevision: And it ceased, and God granted them all their evil for which they had striven. And the heart of a beast in the place of a man's heart was given.

When they were fullest of wine and most flagrant in error. Out of the Sea rose a sign—out of Heaven came a word. Then they saw, then they heard, then they knew—for none troubled to hide it. That an host had prepared their destruction: but still they denied it. They denied what they dared not abide if it came to the trial. But the sword that was forged while they lied did not heed their denial. It drove home, and no time was allowed the crowd that was driven. The preposterous-minded were cowed—they thought time would be given. They had no need of a steed nor a lance to pursue them: It was decreed their own deed, and not chance, should undo them. The tares they had laughingly sown were ripe to the reaping. The trust they had leagued to disown was emptied from hardship. The eaters of other men's bread, the exempted from hardship. For the hate they had taught through the State brought the State no defender, and the host came from the roll of the nations in headlong surrender.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

## THE CITY OF BRASS

BY RUDYARD KIPLING.  
(London Morning Post.)

Here was a people whom, after their works, thou shalt see went over for their lost dominion; and in this palace is the last information respecting lords collected in the dust.—"The Arabian Nights."

In a land that the sand overlays—the ways to her gates are untraced—A multitude ended their days whose fate were made splendid by God. Till they grew drunk and were smitten—who madness and weep to their fall. And of these is a story written; and Allah alone knoweth all!

When the wine stirred in their heart their bosoms dilated. They arose to suppose themselves kings over all things created—To decree a new carol at a birth without labor or sorrow. To declare: "We prepare it to-day and to-morrow." They chose themselves prophets and priests of minute understanding. Men swift to see done—and outrun—their farthest commanding. Of the tribe which describe with a jibe the perversions of Justice—Panderers to the crowd whatsoever its lust is.

Swiftly these pulled down the walls that their fathers had made them. The impregnable ramparts around they razed and re-laid them. As playgrounds of pleasure and leisure with limitless entries. And havens of rest for the idle where once walked the sentries: And because there was need of more pay for the shouters and marchers. They disbanded in face of their foemen their slingers and archers.

They replied to their well-wishers' fears—to their enemies' laughter. Saying: "Praised We have fashioned a God which shall save us hereafter. We ascribe all dominion to man in his factions conferring. And we have numbered the Name of the Wisdom unerring." They said: "Who has hate in the soul? He harrid all evil! We have fashioned a God which shall save us hereafter. Let him arise and control both that man and his labor." "Who? Untriffling has destroyed him? He shall levy a
