Subsidy Act. He fully expected that all manner of men who "deal at my store" would assist him in his endeavours to prevent the Company from building the road.

What a paper! and what a lot of Directors! You see, this was the way to do it. He knew there were some of his neighbors—men who, themselves, or their fathers, were not in great debt to him 20 years ago—who were in debt to or depending on him to some extent, and the bread and butter of these men and their families might be threatened, in order that they might be induced to say or do just what the king required.

He put it, so that, in their terror, they would make "a solemn declaration" that they were induced by false representations, to sign the petitions for the Railway! "Talk of your criminals," said Mr. W. "Why, gentlemen, I would sooner be a prisoner in your jail than stand in the shoes of the man who carried those petitions around!"

He carried the changes on such terms as "secondhand" and "blackguards" to the other there to take down his speech. One man informs us that he said he would give ten dollars to have a report made upon the petition which would show it to have been "a hoaxer!"

Mr. Wilson as "his falsehood." What an exalted idea such a person must have of the ordinary courtesies of life! We hope the writer referred to does not speak for Mr. Wilson, but even if he does, we cannot do more than we have already done and what we hope will always be ready to do—never knowingly permit a mistake to be made in these columns concerning any one, or not to be ready to make the amends when we are satisfied that one has appeared.

It is a little more than a year ago that the late Surveyor General endeavored to create prejudice in the County of Northumberland against a "stranger," an abettor who had criticised his political course adversely. The writer of the communicated articles on the Railway question in the Advocate is repeating the cry. Do the Advocate and its friends who oppose the Railway Company's views on route, object to strangers coming into the County to do business and discharge the duties of citizenship?

And are we to understand that they imagine the people are shrews in such sentiments? Does Northumberland owe nothing to the thousands not born on soil, but who have as many like them in the past did—deserted the best days of their lives, their intelligence, their energies and their means to the development of the County? Who are the men who raise this cry and what are their claims on the County that they should set up the "stranger" cry? Who is the ex-Surveyor-General that he should have led in such an unworthy business? Immigration to the County is responsible for his being here.

Immigration is answerable for more than half the people of the County, but it is not we say to the business papers—an overwhelming majority—asking for the required change which the Council desired should not be made. Half a dozen men, whose nobility of character may be judged by their conduct, are employing themselves in denouncing the three or four hundred ratepayers of Newcastle who signed the petition in favor of the legislation necessary to enable the Company to build the road; and this half dozen are particularly harsh in their abuse of certain gentlemen among themselves who took an active interest in circulating the petition. In fact, the majority of the ratepayers of Newcastle is so entirely unopposed to the first item, that relating to the administration of justice, exceeded the estimate by \$106.63. This over-expenditure, however, is not a serious matter, beyond the credit of the Government. The agricultural part was exceeded by \$2,489.11. The Government had asked the House to grant them \$2000 to the extent of \$10,000. The University of N. B. shows \$4000 undrawn which is usually kept back until 3 years accumulate. Since then the amount, together with the \$80 previously due, has been drawn for the purpose of procuring the Douglas Medal. The grant for school houses in parishes was not all drawn, there being left at end of year a balance of \$182.50. The election item shows an expenditure of \$1,189.65 more than the estimate, caused by the elections in Westmorland, St. John and Sunbury. It was not possible for the Government to anticipate that the over expenditure on accounts of the Executive Government was \$1,242.13, principally owing to extra travelling expenses and an amount due to the late Mr. Crawford. The travelling expenses were \$4,378 for the 14 months, of which amount the late Government incurred \$1,225 for about 4 months, leaving \$3,153 for the 10 months service. The estimate, but of this amount \$250 has since been drawn to pay for books for the library. The saving made is due to the fact that the session was a shorter one than usual. The

World does not appear to be satisfied with our commendation of its article favoring the Valley Railway. It may be "awfully clever" in the Advocate to quote The World's articles as those of Messrs. Call, Whitney and others, but the fact is that they are not his. It has been announced in these columns, more than once, that the late Mr. Call, Whitney and others, had signed the petition. Neither of the gentlemen referred to ever sought to interfere with the management of the paper or influence its policy, nor was any one of the right or power to do so.

The World is the property of a stock company who established it in Chatham for the purpose, among other things, of advancing the views of its proprietors in reference to local and general public affairs and interests. The Company appointed the gentlemen named, together with Messrs. Robert Swin, R. A. Lawler, John Ferguson, L. J. Tweed, John Sadler and T. Crocker, as their Directors of the affairs of the Company. It is a part of the duty of these Directors, no doubt, to look after financial matters connected with the paper—to declare dividends and see that the expenses of the paper bear a proper relationship to the earnings; and we have no doubt, a most economical policy has been followed in this particular—the appearance and contents of the paper being proof thereof. It is also, however, the duty of the Directors to control the policy of the paper in respect of public questions which exist or arise from time to time. The Valley Railway question is one of these and it was well known to those acquainted with the men and the proposed undertaking that Messrs. Call, Whitney and others held the view of the matter while the other Directors held an opposite one. Consequently, the paper was "on the fence." The fact that it came over to the right side last week could, therefore, only be interpreted by us as evidence that Messrs. Call, Whitney and others had come to their senses on the Rail-

way question. If we were mistaken we are sorry for the gentlemen named, that's all. It only shows that they can't control even their own paper. What a paper! and what a lot of Directors!

THE LEGISLATURE. FREDERICTON, MARCH 4. Hon. Mr. Ryan, in reply to a question, stated that copy of the contract for the Fredericton bridge would be laid on the table. The original plans would be submitted for examination.

After routine business, the House went into committee on the bill providing for the biennial election of Municipal Councilors and made progress.

When the House resolved itself into committee on the whole, Mr. McLaughlin announced his intention of moving on the fact that it was the first time he occupied such a position, he craved the indulgence of honorable members. He was in favor of the bill, and the laborer painted picture that his predecessor in the office had been wont to do, but would make simply a plain statement of the financial condition of the country as it was in the dealing with the question.

He had undertaken that he would avoid, so far as possible, any reference to the acts of the late Government. When he did refer to them it would not be in a spirit of censure, but simply to give a large amount had been expended during the past term. The cause that the speaker had exceeded the estimate, largely owing to the fact that the receipts had been overdrawn \$2,075.47 caused by old claims having to be paid and some advances, as usual, made to counties in 1884 grants. The financial statement submitted to the House on Dec. 31st, 1883, showed that the total amount of the floating debt was \$1,109,531.34, \$1,712.23, expense of discount, making a gross \$945,883.84. Take from that \$652,612.70 for ordinary revenue the balance will be \$293,271.14. The total amount of \$293,271.14, the balance will be \$293,271.14 and there is no way to escape, that is the gross indebtedness of the country. In 14 months the Government presented increase of floating debt of \$293,271.14. The other debt, however, by grant have been contracted so that they have increased indebtedness in round numbers to \$300,700. They seek also to establish a deputy clerk in Equity in St. John. He found in public accounts that some money had been paid professional men for services at Crown prosecutions although the Attorney General and Solicitor General in abolishing the office of Clerk of the Crown said they would attend to it. He regretted that the finance of the country were not in a better state.

Mr. Blair—Twelve months income and 14 months expenditure. Mr. Wadsworth—You fixed your own rate. It was a way for anybody to come down with borrowed money in his pocket. Hon. Mr. Blair—Whose fault was it that money had to be borrowed? Mr. Wadsworth—The country will hold you responsible. In his opinion a floating debt was what a country owed over and above what a country was prepared to pay. The Government was in office more than a month before the estimates were made. If a Government estimated a floating debt as the Provincial Secretary had done they could either pay it down or extend it. They had borrowed more than \$293,271.14. Amount of warrant expenditure \$293,271.14. Total amount of floating debt \$1,109,531.34, \$1,712.23, expense of discount, making a gross \$945,883.84. Take from that \$652,612.70 for ordinary revenue the balance will be \$293,271.14. to borrow money for a Government to borrow money from the Dominion or from a bank without authority of law, was almost a crime. In the past four months they borrowed from the Dominion Government, under the act of 1882, \$225,426.60 and from banks \$241,000. They had borrowed without authority of law, \$216,426.60. They may say it was not borrowed, because it became next day. What is the difference? Is not the money the same if
