LOCAL BOXER SCORES KNOCKOUT IN WOODSTOCK

Woodstock, N B, July 30 — O'Neil Soucy of Edmundston, 144, scored a technical knockout over Reuben Johnston, 145. Woodstock colored flash, at the Vogue Theatre last evening in the main bout of the best boxing card shown here in some time. The end came in the fourth round after the local man had balled at slightly better than even terms for the first three sessions.

Just before the third round ended Soucy, dropped the colored boy with a heavy right to the jaw. Johnston was up at the count of eight but immediately went down and apparently out from another hard right. He was saved by the bell.

As the fourth round opened Soucy in the service of the same date, the regular passenger service daily exempt of the continued falling off in rail-work of the continued falling off in rail-working of th

CRAFTSMANSHIP WINNERS
SHOW REAL DETERMINATION

Perseverance is the outstanding charasteristic revealed by winners of awards in the Pisher Body Craftsman's Guild competition. Canadian boys who came through with top honor and have earned a free trip to attend the international Guild convention in Detroit in August, in addition to \$100 in cash, can owe their success to a determined pursuit of a craftsmanship ideal which found fruition in a completed miniature model Napoleonic coach. In severa instances, the boys worked under severe handicaps but never once permitted conditions to interfere with the detailed and arduous ask assigned them. Herman Rompain, first Senior winner for the province of Alberta, declares he spent more than 1500 actual working hours on his model, which modified mean that, day and night, he pondered over specifications and followed plans and instructions to the most minute detail to complete his coach. The coach itself testifies to the expertness of its builder. It is a near masterpiece and should go far in the international competition for University scholarships next month. Wilbrod Côté, Laporte Avenue, Ed mundston, N. B., was another youngster to find himself topping the list of contestants and who apparenly worked under trying handicaps. All the tools employed in his coach—building work were modelled and built by his own hands and his coach, and gem of craftsmanship', im pressively reflects the skill of its creator.
