

THREE MEN KILLED WHEN TRAIN LEAVES RAILS

Crashes Into Elevator Full of Grain, Which Buries the Locomotive, Smothering the Inmates.

Saskatoon, Sask., March 24.—Three men were killed when the engine, baggage and express cars of a Canadian National Railway passenger train, No. 27, Saskatoon to Glendon, left the rails at Ardath, Sask., crashed into a grain elevator, and were buried under several tons of grain, shortly after ten o'clock this morning.

The dead are: W. F. Metcalfe, engineer, Saskatoon; Operator Bishop, returned soldier, Winnipeg, and E. V. Armstrong, fireman, Saskatoon.

None of the passengers on the train were injured.

The wreck was caused by a faulty switch, which turned the train on a side track when it was pulling into Ardath. The engineer was just beginning to apply hand air brakes, when the turn was too sharp for the speed of the train.

The elevator, into which the train crashed, was almost full of grain. It toppled over on top of the engine and buried it, smothering the three men.

MURDERER OF JEAN JAUREZ IS PLACED ON TRIAL

Was Hostile to Jaurez Because Socialist Leader Had Fought the French Three Year Military Law.

Paris, March 24.—Raoul Villain was placed on trial today for the murder, on July 14, 1914, of Jean Jaures, the French Socialist leader.

Jaures was shot while eating an evening meal in a restaurant, near the Bourse in Paris, and the crime created a sensation as it came during the excitement incident to the outbreak of the war. Villain was arrested the night of the murder and has been in jail ever since. At the time of the shooting Villain, who came from the city of Rheims, declared that he was hostile to Jaures because the Socialist leader had fought the French three-year military law.

LIBERAL CONVENTION IN SEPTEMBER

The Party Expected to Gather in Ottawa at That Time to Choose a Leader.

Ottawa, March 24.—In opposition circles it is stated that it has been definitely decided that the National Liberal convention, which will choose a permanent party leader to succeed the late Sir Wilfrid Laurier, will be held at Ottawa. Other places have been mentioned for the gathering, including Toronto and Winnipeg, but the choice will fall to the capital. It is also practically certain that September is the month in which the convention will convene. Nothing very definite appears to have developed here as to the Liberal choice of a new leader, but, within the past few days, there has been considerable mention of the name of Hon. H. B. Hudson, formerly attorney-general of Manitoba.

"GROTESQUELY ILLOGICAL AND UNBLUSHINGLY PARTISAN" WAS THE FAMOUS McQUEEN REPORT

A Fair Sample of What Might be Expected from the Literary Department of An Insane Asylum — Chatham World Reviews the Judicial Gem.

(Chatham World).

The McQueen report on the potato matter is the most grotesquely illogical, unblushingly partisan, and most absurdly regardless of any obligation to derive conclusions from evidence that was ever written outside of a lunatic asylum.

The commissioner finds, entirely out of his own head, that the province sustained a heavy loss, although all the evidence clearly proved that it sustained no loss at all.

Then having settled the whole matter without regard to the facts, the cheap attorney proceeds to earn his salary by denouncing the men he was hired to denounce.

McQueen goes all over the potato transaction, showing where losses were made, and falsely asserting that these losses have never been made good, though every one of the items for which he held Hon. B. F. Smith and others accountable are included in the \$32,861.29 payment to the government. Fancy a man with so little self respect or regard for his reputation to do this.

In referring to the payment of this money McQueen deliberately asserts, in direct violation of the evidence, that the money was taken out of the province—a political lie with no basis of fact. This is really the only practical point at issue, and McQueen cheerfully decides it without any pretence of paying attention to the facts.

The Nova Scotia Construction Co. had been awarded the contract to build the Valley Railway, and had given one of its members or agents, W. B. Tennant, \$100,000 of the expected profits in advance. The company evidently thought the contract had been secured through his influence, though every particle of evidence on that point in all the investigations establishes the fact that he did nothing at all. He was arrested by Premier Clarke for a contribution of \$61,500 to campaign funds, and handed over that much of his easily gained wealth. Out of this contribution all of the potato losses were paid, every cent of the losses.

McQueen glibly asserts that the money belonged to the province. He doesn't appear to have decided that the rest of Tennant's profits belong to the province, but apparently recognizes Tennant's right to the other \$38,500. But why? If a dollar of the money belonged to the province it all did. If the Tennant share of the profits belonged to the province all the profits that have or may be made on the contract, and on every other government contract, belong to the province. This is the logical conclusion of what McQueen seems to think reasoning.

And now see how McQueen returns.

"DOWN WITH ENGLAND" CRY IN BERLIN

Demonstration Against Violation of German Territory Under Peace Treaty.

Amsterdam, March 24.—A demonstration against the violation of German territory under the Peace Treaty was held in Berlin on Sunday, in front of the residence of President Ebert. After the meeting the crowd went to the Hotel Adlon, where most of the Entente commission in Berlin are quartered. Seeing American officers they mistook them for British and shouted "Down with England."

The Austrian Central Workmen's union has decided not to join the Hungarian movement in introducing a Soviet Government in Austria, a dispatch from Vienna says. The Council, it is declared, pointed out that such a course was impossible for Austria, because it is dependent on the Entente powers for food.

MARINE OFFICER CHARGED WITH FALSEHOOD

Scandalous Conduct Tending to the Destruction of Good Morals Under Investigation.

London, March 24.—The court martial in the case of Captain Edmund G. Chamberlain, of San Antonio, Texas, an officer of the United States Marine Corps, the story of whose exploits in bringing down a number of German machines in an air battle, while he was on a visit to the British front last July, which have been under investigation for some time, was begun at American navy headquarters this morning. Captain Chamberlain was formally charged with "scandalous conduct tending to the destruction of good morals," and with "falsehood."

Captain Chamberlain pleaded not guilty to the charges and specifications in each case.

Her Reason.

Jill—No, I could never love a sailor. I don't suppose you will come in again for years.

Jack—Why, we'll be back quite soon.

Jill—I don't mean in the harbor. I mean into fashion.—Judge.

FORMER EMPEROR APPARENTLY SAFE IN HIS RETREAT

Nothing Developed Yesterday to Show That There Was a Menace of Some Sort Hanging Over Him.

Amerongen, March 23. (By the A. P.)—Nothing developed yesterday to show that there was any substance to reports that a menace of some sort was hanging over former Emperor William in his retreat in the von Bentzke castle here. At seven o'clock this evening, the latest hour when a telegraphic message could be despatched, nothing had occurred to call for the services of the strong guard which had been established about the castle. The guards continued, however, to perform their duties, although their watchfulness had been somewhat relaxed after the ex-emperor had stepped back across the draw bridge from his morning's trick at log sawing.

It seems doubtful if Herr Hohenzollern himself knew anything about the menace said to be threatening him as letters received from the castle had declared, but it seems that he must have noticed that there were more armed men among the grounds than usual. The reinforcements were brought to the castle in motor cars. Every non-resident of the village was closely scrutinized if he approached the neighborhood of the von Bentzke residence.

The mere falsification of the evidence before him was not enough, and he resorted to his imagination.

That is a sample of his methods and shows how utterly worthless the report is.

The most of this wonderful document is a mere mass of verbiage, going over and over the potato transactions and frequently asserting that the money advanced by Tennant and paid to the province had come out of the province and should be repaid.

If the old government had acknowledged the potato loss, and shown that it was largely due to the spoiling of the potatoes on shipboard, the government would have been blamed, of course. But, in that case, all the money obtained from Tennant would have been available for campaign purposes, and no one would have ever suggested that the money received from the contractor had come out of the province. If Tennant had kept all of his wad it would have been all right, but the great crime of using part of it to repay the public treasury for losses sustained in the handling of potatoes on public account merits hanging at the very least. The great grievance of the commissioner and his paymaster is that part of the money went into the public treasury instead of into the pocket of the contractor.

If the government will appoint another commission, a commission to examine and report on the financial side of the matter, making any reputable firm of chartered accountants such commission, the report will be that the treasury has received \$32,861.29 to which is not entitled and which should be given back to the persons from whom it was received.

SIBERIAN TROOPS PUSH BACK THE BOLSHEVIK

Successful Offensive West of the Urals from Perm to the Trans-Siberian Railway.

Paris, March 24.—(French Wireless Press.)—Siberian troops of the Kolchak Government have successfully begun an offensive west of the Urals, on a line from Perm to the trans-Siberian railway, advancing from Omsk say. At certain points the Bolsheviks have been driven back more than thirty miles. The Siberians have captured Olenok, fifty miles south-west of Perm.

On a fifty mile front between Olenok and Osa, along the Kama river, the Bolsheviks have been driven back twenty miles.

The Kolchak forces are also reported to have obtained marked success in the region of Bisk, northwest of Ufa.
