

ments of the times, and the necessities of their several neighborhoods, are in course of erection at Hampton, Peterboro' and Palmerston, and others in the Exeter and Usborne circuits; while other erections have been improved, or are in course of improvement. Some of these enterprises have largely increased our Connexional liabilities; but we hope that certain plans for the working of our Church property will be adopted before the close of the Conference, as will yearly lessen our responsibility in regard to this.

Our Printing Establishment and Book Room, work so well as to be of considerable financial help to us in sustaining and carrying on our connexional enterprises; and we have reason to suppose that from this source we shall annually receive such aid.

Our Connexional Organ is becoming increasingly a power for good in the land; and we

doubt not, that a continuation of the careful management that has instrumentally made it what it is, will, with the divine blessing, make it a still more effective instrumentality for good to mankind.

Upon the whole, we have reason to thank God and take courage; for He is with us, and He is our guide. May we more and more honor Him by an implicit confidence in Him; and a full consecration to His glory.

During our sittings, despite diversity of sentiment, and in certain respects, despite a conflict of interests, we have proved 'How good it is for brethren to dwell together in unity.'

"Now our Lord Jesus Christ Himself, and God, even our Father, which hath loved us, and hath given us everlasting consolation, and good hope through grace, comfort your hearts, and stablish you in every good word and work."

W. HOOPER, *President*.
W. S. PASCOE, *Secretary*.
