CHAS. DOUGLAS, *Treasurer.*

Young People's Mission Band.

In submitting the report of our Young People's Missionary Band for the past year, we have reason for gratitude for any degree of success which has attended our efforts in the cause of Missions. During the year we have had a number of excellent addresses on the subject of Missions and we regret exceedingly that more of our congregation did not attend them for they were a source of great instruction and profit to those who were present. Our success for the past year has not been as marked as usual. In the amount of the contributions for Missions we are considerably short of the two previous years. There are many reasons for the shrinking in the amount contributed. We have not had the subject properly placed before the congregation from the pulpit owing to our being without a settled pastor. To become properly interested in the Mission work of our church we must become thoroughly acquainted with the needs of brothers and sisters who sit in heathen darkness. When we have a better knowledge of their condition we will more readily extend to them the helping hand. Again our congregation have been called upon from many sources to contribute toward the church improvement and during this year have contributed very liberally toward the many schemes of the church.

We trust that during the coming year we shall be able to show better results and we ask the hearty co-operation and support of the congregation.

Respectfully Yours,

WM. MADILL, *President.*
