PRICE \$8-PAYABLE ON DELIVERY. PROSPECTUS.

N the last edition it was announced that the Directory would be re-issued in September 1859. The time has now arrived for taking steps for such e-issue which the publisher would at once without any prelimmary, were it not fer the loss has sustained by the Canada Directory for 1857-5.

—a loss of so serious a nature, that he is compelle

—a loss of so serious a nature, that he is compelled as a precautionary measure to ascertain what degree of support a new edition of the Directory would receive, before embarking more capital and involving himself in more anxiety in an undertaking that has already proved extremely arduous.

Many of those who have appreciated the value of the last edition are urgent for the re-publication. Impelled by the representations of these parties as well as by the pledge given in the former edition and by the knowledge of the constant changes taking place in this country, the Publisher has resolved to make public his intention of re-issuing the Directory if he can obtain, by the lat of January next such a number of Subscribers as will justify him in proceeding with the undertaking.

number of Subscribers as will justify him in proceeding with the undertaking.

The Publisher regards the failure which attended the last edition as indeed in a great measure by the severe monetary depression which existed at the time of publication.

The universal interest manifested in the work when first prospected, was such as to induce him carefully to organize a large establishment, with the immediate view of carrying on this work as a regular periodical, every two years. This he is most anxious to do notwithstanding the loss he has sustained. The experience acquired in the course of compiling the last edition, will not only assist him in the matter, but will enable him to place before the public a considerably improved publication.

as hitherto so liberally accorded.

The CANADA DIRECTORY for 1859-60 will con about 1400 pages containing complete Directories Montreal Toronto Quebec Kingston Hamilton ondon Ottawa &c., and the names of the Business of professional People in over 1300 different localies. In the Miscellaneous Contents will be

MOFFAT'S LIFE PILLS.

And Phoenix bitters free from all mineral Polace effected by their use, renders it unnecessary for the proprietor to enter into a particular analysis of their medicinal virtues or properties. Having been more than twenty years before the public, and having the united testimony of more than Three Millions of persons who have been restored to the enjoyment of perfect health by them, it is believed that their reers for Sale his ing the south west ine in the eighth in the eighth in the eighth in the eighth in the best vegetable medicine now before putation as the best vegetable medicine now before the public, admits of no dispute. In atmost every city and village in the United States there are many who are ready to testify to their efficacy in removing disease and giving to the whole system renewed vigor and best the control of th

In cases of Scrofula, Ulcera, Scurvey or Eraption of the skin, the operation of the Life Medicines is truly astonishing, often removing in a few days every vestige of these loathesome diseases by their purifying effects on the blood. Fever and Ague, Dyspep

Morse—the inventor of Morse's Indian Roof Pills. This philanthrophist has spent the greate part of his life in travelling, having visited Europe Asia, and Africa, and North America—has spen three years among the Indians of our Western country—it was in this way that the Indian Roof Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our atrength health, and life depended upon the vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action becomes thick, corrupted and diseased; thus causing all pains, sickness and distresss of every name; our health we are deprived of, and if nature is not functions of the body, the blood loses its action becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our health we are deprived of, and if nature is not assisted in throwing of the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body iree and open. And how pleasant to us that we have it in our power to put a medicine in your reach namely, Morse's Indian Root Pills, manufactured from plants and roots which grow among the mountannous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sadorific, which opens the pores the pores of the skin, and assists nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passage to the lungs by copious spitting. The third is a Diuretic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out bountfully by the urinary of water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills which engaged in puritying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in greater quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely root out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system from all impurity, and the life of the body, which throws the corrupted matter through every vein and artery until life is taken from the body by disease.
