## What is a double acting baking powder?

A double-acting baking powder is one that starts its action in the mixing bowl and finishes it in the oven.

Ordinary baking powders develop their full strength in the mixing bowl and you have to hurry your cakes into the oven. Then, you are always afraid that the oven is not just hot enough, or that a door will slam or something else happen to cause the cakes to fall.

You don't have to hurry or worry when Egg-O Baking Powder is used. Egg-O rises only partly in the bowl. You may let the dough stand 15 or 20 minutes or longer—doing so will give better results. When put into the oven, Egg-O continues its action—this second action being so steady and strong that a cake is not likely to fall even if it does get an unexpected jar.

## JOY IN THE ADRIATIC What Victory Means to the Italians

Oh, to be in Italy, now that peace is there, says a writer in the Manchester Guardian.

What days Italy must now be living through! To have taken a momentous decision and staked everything on it and to have succeeded beyond her dreams; to have succeeded too, after a disaster that made faint hearts feel that all was lost. To know that by the end of the war in the East not only does she redeem her lost provinces, but gains what she had so long desired on the Eastern Adriatic coast—to be secure at last in Tripoli.

What must it mean to Venice? The red and blue lights giving direction and telling of air raid shelters—built up, sandbagged shelters, for Venice has no cellars—that gave so sinister a look to the dark canals and callous, a touch which Loughi the Venetian master of the macabre, would like to have face the light of day.

The lights will go up in front of the Doge's Palace, and once again people will see it at night across the canal standing out against the soft night skies of Venice like a palace of coral in an Arabian tale.

The gondoliers will be singing again after two years' silence. The merceria shops will begin to open, and the factory girls will soon be able to have a choice of hairdressers to do justice again to their elaborate bronze tresses. The piazza will be a mass of soldiers and Venetians, and the three great flags in front of St. Mark's—the Italian flag, the flag of Venice and the Italian flag again—will be the centre of the cheers.

After all not very much harm was done to Venice and her lovely lagoons again. All she wants now, and all that Italy wants now, is fuel for the winter.

All down the Adriatic coast through the walled, semi-monastic towns and scattered villages, the people will look out to sea and know that nothing will come over the sea or through the skies to harm them again. Ravenna had almost forgotten that she was one of the famous cities of the world, for no pilgrim had come to worship her for years. Her great churches were like muffled theatres waiting for the new play. Dante lies in his tomb so deeply overlaid with sandbags that no sign of war can penetrate, although he of all poets would have been most at home in it, for did he not give a pale foreboding of all its dolorous horrors in his "Inferno?"

The furies in the sky did no harm to Ravenna although there are bomb holes not far away. It looked more ancient than ever with no strangers about, and the crowd gathered on the Piazza to read the notices on the wall telling how this or that most amiable and respected citizen had died after sustaining with fortitude the ravages of this or that malady. Very soon the Sister Annes of Ravenna will be seen in the Campagna looking in the distance to see if the foreigners are coming. The armored trains the admiration of all the people in the coast towns have ended their watch of the 400 miles of coast without having had to fire a dozen shots in earnest. The fishing boats will be going out against and there will be more food in these very poor villages.

OFFER STILL OPEN

Paris, March 20—Heuter's Limited understands that the offer of the British ambassadorship at Washington to Sir Robert Borden the Canadian prime minister is still open. Sir Robert has not yet made a decision, but it is said it is by no means improbable that he will accept.

All four had brilliant records in the war and are all in their early twenties. Col. Collishaw, "O.C." of the trip, is but 24 himself and is second only to Lieut. Col. W.A. CANADA'S CLAIM.

## Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription.

One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me. A lady who used it says: 'The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses.' It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eye two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Notes Another prominent physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any food chemist and is one of the very few preparations I feel should be kept on hand for repair use in almost every family." It is sold in this city by

## We couldn't make the Maxwell any better; so we made it better looking

AN artist never frames his masterpiece until he finishes it.

So the new Maxwell, a completed work, is now robed in new garments.

They do not make it run any better. They make it look better.

Mr. Whistler, the famous artist, were he here today and saw a new Maxwell pass on the street, would probably himself give it a second look.

A little touch here, the straightening of a line there, the bringing of a fender a little closer to the wheel, a circassian walnut dash before you as you sit at the wheel, the strength lent by putting the gas tank in the rear, the multiplication of bonnet vents, the adding of three more painting coats, the increased thickness of the seat cushions—these, though but a few of the many changes made,—show the tendency of the new beauty.

It is in the sum of many little things that the full story is told.

The car was first checked off in squares, as a doctor sometimes marks off a man's chest and back to test every square inch of the lungs.

And there was an improvement made in nearly every square.

When the task was done it looked like a different Maxwell.

But it wasn't.

It was the same, sound, go-get-there
