Forest News and Photos

The Editor of the Journal requests members of the Association to send in interesting items or short articles dealing with any phase of forest conservation. Good pictures are also of importance.

The Journal is the common property of the membership and aims to represent all sections of Canada and to discuss a wide variety of topics. The practical co-operation of the members in the work of securing good material is growing rapidly.

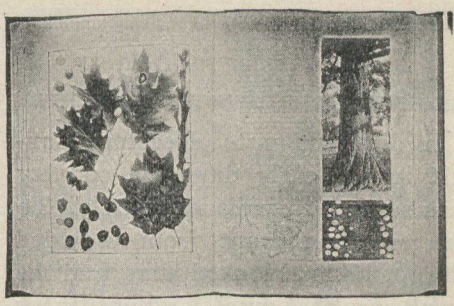
Dry Matches

After all day in a boat, rainstorm, or wet snow. Ask your dealer for

MARBLE'S Waterproof Match Box

If he can't supply you, we will send prepaid for his name and 50 cents. Dry matches may save your life.

Marble Arms & Mfg. Co., Dept. 5160, Gladstone, Mich., U.S.A.



HANDBOOK OF TREES OF THE NORTHERN STATES AND CANADA

By Romeyn B. Hough.

Is photo-descriptive of the leaves, fruits, barks, branchlets, etc., and shows them all with the vividness of reality. Natural sizes ingeniously indicated. Distributions shown by maps. Wood-structures by photo-micrographs.

"With it one wholly unfamiliar with botany can easily identify the trees."—Melvil Dewey, Pres. Library Institute.

"The most ideal Handbook I have seen."—C. Hart Merriam.

"The most valuable guide to the subjects ever written."—Springfield Republican.

AMERICAN WOODS

By Romeyn B. Hough.

Illustrated by actual specimens, showing three distinct views of the grain of each species. Contains 897 specimens of 325 species. Of such exceptional value that its author has been awarded by a learned society a special gold medal on account of its production.

Write for information and sample illustrative specimens.
