TWO PERTH SUICIDES.

ALFRED HUGGINS, OR MONKTON SHOOTING HIMSELF.

Mrs. Winteringham of Logan Township, Aged 80 Years, Takes Paris Green With Fatal Effect.

Stratford, Aug. 25.—Alfred Huggins, Postkeeper of Monkton, took his life by shooting himself on Saturday. He left home in the morning, and was seen entering a bush by a man ploughing in a field. Shortly afterwards the ploughman heard a shot, but paid no attention to it. Afterwards a party was organized to find Mr. Huggins, and they were directed to the point where the shot was fired, and Huggins was found dead, with a revolver in his hand. The suicide was a most deliberate one, as it is reported he had a bottle of carbolic acid in his pocket and he had drunk a portion before shooting himself. The general opinion is that he became despondent over selling his hotel property, which he wished to get back, but could not.

Mrs. Winteringham of Logan township died Sunday from the effects of a dose of Paris green she had taken with suicidal intent that morning. The woman was eighty years of age, and had swallowed enough poison to kill half a dozen persons. It is believed the deceased had become despondent owing to trouble. Physicians were promptly called, and the patient, had she been younger, might have recovered as a result of their efforts. She leaves a family of seven, of whom four sons live in Manitoba.

The three-year-old son of Harry Packham of Downie township was Sunday kicked by a horse so severely that his skull was crushed in, causing paralysis. The child is in a critical condition at the Stratford hospital.

## BASKET BALL

BUGLE BAND OPENS SEASON.

The bugle band of the 24th has opened the basketball season, the first work-out being held last evening. The band expects to have a good team this coming season. They have purchased a full outfit and will keep up their practices in the drill shed. The band has also fitted up the band room in the shed with punching bag, whitely exercisers and gloves. They have also ordered indoor baseball uniforms and will play indoor baseball this winter.

## CRICKET.

OFFICERS PLAY CRICKET.

Lieutenants Max D. Fraser, H. D. Smith, A. E. Jewett and J. S. Turner, of the 24th Regiment of this city,

got mixed up in a cricket game at London on Saturday last. Chathamites were not aware of the fact that these military gentlemen were cricketers, but there is no doubt from the records they made that they will secure places on the local eleven. The massive scores run up by Crown Attorney H. D. Smith and M. D. Fraser will ever live in their cricket memories. A. E. Jewett and J. S. Turner both captured two runs according to this morning's Free Press, but whether they bought the newspaper over or not it is not known. Max Fraser is given credit for bowling the best man on the opposing team out. The game was—oh, how I wait and hear it directly when the "conquering heroes come."

## TURKS COMMIT EXCESSES.

## CONSULS CONFIRM THE STORIES OF CRUELTY.

Situation in Vilayet of Monastir Hopeless—Insurgents Said to Be Over Twenty Thousand Strong and Well Armed.

Sofia, Aug. 25.—With the rumors of massacres, atrocities and the murder of prisoners in Monastir now authenticated, the general situation is considered here as fast becoming intolerable. Official and diplomatic circles are alike concerned, fearing that many horrors enacted have yet to come to light. The revolutionary committees are doing their utmost to force the hands of the Bulgarian Government, and the immediate outlook is exceedingly serious. It appears that the Turks have obtained the upper hand in the vilayet of Monastir, and the insurgents are planning to remove the centre of their activity to near the Bulgarian frontier. Despatches to-day from the disturbed area are exceedingly gloomy. From Adrianople comes the news of a Turkish defeat, and the extension of the revolutionary outbreak; from Monastir, the news of the Turkish victories are accompanied by barbarous excesses. According to The Sofia Dnevnik, the Turks committed unspeakable atrocities at Krushevo. The mutilated corpses of 90 women and children were found in one building. Fifteen of the principal merchants of the town were killed and their heads exhibited on poles at Monastir. The churches were demolished, the houses sacked, and the town is now a heap of ashes. The remainder of the populace fled to the hills, where they are in a starving condition. The Dnevnik also asserts that a general massacre has occurred in the whole vilayet of Monastir, and that nearly all the villages have been destroyed. The treacherous murder of 80 insurgent prisoners by their guards near Monastir has made an especially bad impression here.

Insurgent bands have occupied the strategic points around Malkotergovo, Anarchy exists at Losengrad. Eight villages in the north of Losengrad have been burned by bashi-bazouks, while the insurgents attacked two Turkish posts in the vicinity of the same town and killed their entire garrisons, consisting of sixty soldiers and one officer. The town of Bunar-Hisar has been burned and a part of the Bulgarian population was massacred. At Burgas, Majura, after eighteen hours' fighting, the garrison was killed by rebels, who also destroyed the garrisons of Silikhor and Kelovo. At Karacnovo the insurgents killed 57 Turks, while the other fifteen were destroyed at Kurkolih. New outbreaks are reported near Kresna.

The Macedonian leaders admit that the insurrection in the vilayet of Monastir is practically at an end, and they appear to pin their hopes to the transfer of active operations to the territory near the Bulgarian frontier. Within three weeks, they assert, eastern Macedonia will be in full revolt, and then the Bulgarian Government will be forced to take action.

## TOUR THROUGH CANADA

Empire's Merchant Princes at Toronto to Last Night.

Toronto, Aug. 25.—The special Grand Trunk train bearing delegates to the Congress of Chambers of Commerce of the Empire, with in many instances, their families, to the number of two hundred and fifty arrived in the city last evening promptly at 7 o'clock, the time scheduled. There was no attempt at any formal reception, the civic reception being reserved for Friday night, when the delegates return from their tour through western Ontario. A number of the members of the Toronto Board of Trade were, however, on hand to welcome the delegates, and they accompanied them to the King Edward Hotel, which is the headquarters of the delegates during their stay here.

Dinner was served the delegates immediately upon their arrival at the hotel, under some slight difficulty, it must be admitted, owing to a disarrangement of the engines which supply the electrical power. For a while candles had to be brought into requisition, and the delegates ate their dinner by candle instead of electric light.

The lights were all right later in the evening, however, and none of the delegates, under the circumstances, were disposed to make any complaint. After dinner the delegates amused themselves according to their individual taste, and some of them started for a drive around the city. The rain, however, kept most of the delegates within the hotel.

PURITY.  
LAGER BEER

The Beer That is Brewed in Glass

Ours is the only plant in Western Ontario having a glass-lined, closed tank system, which is the only system affording absolute security against pollution of the beer.

Wood rots, green wood rots faster than dry, quickly seasoned wood rots quick of all, and when exposed to air and water in brewers' cellars, rot comes rapidly, and the beer brewed in open tanks is injuriously affected by it.

Our tanks are like a bottle inside, clean, no mould, no slime, no chance for rot.

Which is better, beer made in a closed, glass lined, steel tank, or in an old mouldy wooden one?

Color is no indication of strength as producers of thin, watery beer resort to coloring matter and other materials to conceal its weakness. A good beer gives "full mouth" feeling when drank.

A heavy foam is no indication of good quality, in fact in many localities the demand less foam and more solid beer. Brewers of weak beer often try to tempt the consumer by furnishing a beer charged with Kreusens (beer 24 hours old) and having a beautiful cream, but if used to any extent is sure to produce sickness.

Poor goods are nasty competition and the public should sustain them producing the better goods.

A pure beer is a pleasant beverage and very healthful and should always give off a delicate aroma of hops and malt only. Any other smell or taste is also POSITIVE EVIDENCE OF AN INFECTED AND IMPURE BEER.
