"KNOCKERS"

No doubt you have met men to whom this term would be quite appropriate.

SYDNEY BASIC SLAG FERTILIZER

has its "knockers." Upon investigation it generally develops that the "knocker" has some interest in the sale of other goods. Remember the old adage, "to locate the tree with the best fruit, find the one that has the most sticks thrown at it." If SYDNEY BASIC SLAG was "no good," as some would have you believe, then it would have "knocked" itself off the market long ago. Instead, the demand is increasing by leaps and bounds. We claim that SYDNEY BASIC SLAG is the best value in Fertilizers obtainable by Ontario farmers, and hundreds of prominent users will bear us out in this.

Could you handle a carload in your district if you were thoroughly satisfied it would be a good thing for the community? We want to hear from reliable farmers who have the confidence of their neighbors. If you will write us at once we will be glad to PAY ALL YOUR TRAVELLING EXPENSES to go and view fields of wheat now growing, where SYDNEY BASIC SLAG was applied last Fall. You can talk with the growers, see for yourself, and if then you are not thoroughly satisfied that it would be a boon to your community not the slightest obligation need rest on you. You will be the sole judge—no strong-arm methods will be put forth to persuade you to buy. It takes time to arrange these matters, so be sure and write at once.

Our interesting and instructive literature is yours for the asking. Let us have your name and address.
