

## Could Not Sleep in the Dark

HEART AND NERVES WERE RESPONSIBLE, SO THE DOCTOR SAID.

There is many a man and woman tossing night after night upon a sleepless bed.

Some constitutional disturbance, worry or disease has so debilitated and irritated the nervous system that it cannot be quieted.

Mrs. Calvin Stark, Rossmore, Ont., writes:—"About two years ago I began to be troubled with a smothering sensation at night, when I would lie down. I got so bad I could not sleep in the dark, and would have to sit up and rub my limbs, they would become so numb. My doctor said my heart and nerves were responsible. I saw Milburn's Heart and Nerve Pills advertised and got a box to try them. I took three boxes and can now lie down and sleep without the light burning and can rest well. I can recommend them highly to all nervous and run down women.

Milburn's Heart and Nerve Pills are 50c. per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### Boo Spavin

Cure the lameness and remove the bunch without scarring the horse—have the part looking just as it did before the blemish came.

**Fleming's Spavin Cure (Liquid)** is a special remedy for soft and semi-solid blemishes—Boo Spavin, Thoroughpin, Splint, Curb, Capped Hock, etc. It is neither a liniment nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be misused. Easy to use, only a little required, and your money back if it ever fails.

**Fleming's Vest-Pocket Veterinary Adviser** describes and illustrates all kinds of blemishes and gives you the information you ought to have before ordering or buying any kind of a remedy. Mailed free if you write.

**FLEMING BROS., Chemists**  
45 Church St., Toronto, Ontario

### Consumption Book

**200 PAGE MEDICAL BOOK ON CONSUMPTION**

**FREE**

This valuable medical book tells in plain, simple language how Consumption can be cured in your own home. If you know of any one suffering from Consumption, Catarrh, Bronchitis, Asthma or any throat or lung trouble, or are yourself afflicted, this book will help you to a cure. Even if you are in the advanced stage of the disease and feel there is no hope, this book will show you how others have cured themselves after all remedies they had tried failed, and they believed their case hopeless.

Write at once to the Yonkerman Consumption Remedy Co., 1349 Rose Street, Kalamazoo, Mich., and they will send you from their Canadian Depot the book and a generous supply of the New Treatment, absolutely free, for they want every sufferer to have the wonderful cure before it is too late. Don't wait—write today. It may mean the saving of your life.

### INTEREST IN DRY FARMING

There has been organized, and is now maintained, an organization composed entirely of dry-farm operators and students in the semi-arid districts of the world. This organization, known as the Dry Farming Congress, devotes its entire strength to assembling and promulgating information relative to the development of dry farming and to the investigation of conditions and encouragement of the development of these dry-farming districts. A great interest is being manifested in its work. Canada should be well represented at the Congress and Exposition to be held at Billings, Montana, October 26 to 28. George Harcourt is vice-president and corresponding secretary for Alberta.

### THOROUGHBREDS FOR ALBERTA

The five Thoroughbred stallions sent to Alberta by the Canadian National Bureau of Breeding have arrived, and will be kept by different breeders throughout the province. Osborne Brown, Alberta Secretary, received 124 applications from ranchers and breeders in Alberta to have an animal. The aim of the association is to improve the breed of saddle horses, drivers and remounts throughout the Province.

The horses will be distributed as follows:

Baird, a chestnut stallion, sired in 1897, is the oldest of the horses sent to Alberta. Baird is a handsome animal, weighing about 1,050 at present, sound in every sense, sired by Huron, dam Lime Tree. He will be sent to Norman Jacques, of Lamerton, east of Lacombe.

Our Boy, a chestnut stallion foaled 1905, sire My Boy 2nd (Imp.), by Marcion, dam Marchioness, dam Diana, by Kosciusko, dam Id'ewild. Is a well-built, fairly large-boned colt, clean-limbed. He goes to Geo. Armstrong, of Elkwater, near Irvine.

McIlvain, a grand bay horse, sired by Bend Or, dam Sierra Leone. Bend Or is sired by Brockden (imp.), dam Kate Walker; Sierra Leone is by Khartoum, dam Sierra Madra. McIlvain will be kept by Chas. Ridgock, of the Scott stables in Calgary.

Clements is a brown stallion, and has been sent to Harry Robinson, of High River. Clements was foaled in 1901, sire Albert, dam Zetetic. Albert is by Albert Victor, dam Hawthorn Bloom. Zetetic is by Falsette, dam Zephyr.

Samuel H. Harris, foaled in 1902, is a handsome dark bay, sired by Sir Walter, dam Lindula. He will be kept by A. C. Galbraith, of Nanton.

In New York State cattle reacting to the tuberculin test are to be branded with the letter "T," either on the forehead or on the right side of the neck. It has been the practice of some breeders to test their herds and then sell the reacting animals, and the law recently enacted is intended to put a stop to this vicious practice.

### SHOOTING PERMITS

A notice from Charles Barber, Chief Game Guardian, announces that the season opened for wild ducks on September 1st. It is necessary for residents of cities, towns and incorporated villages, who intend hunting, and have not yet provided themselves with a game bird license, to make application forth with and obtain a license from the Department of Agriculture and Immigration, Winnipeg, before going to hunt. See sub-section (e) of section (7) of "The Manitoba Game Protection Act." Non-residents must procure a license from the Department of Agriculture and Immigration, entitling them to hunt, shoot at, wound or destroy any game, animal or bird, or any other animal or bird whether protected by said Act or not, if they wish to avoid unpleasantness or the risk of being prosecuted.

For further information to the public it is imperative that all persons

## Brighten Up for the Winter Months

The next few months will be spent indoors. You should make your house look as attractive as possible inside. Floors should be repainted or revarnished, wainscoting cleaned and painted, stove pipes enameled, cupboards, shelving, furniture, walls, radiators and everything in and about the house "brightened up." Sherwin-Williams Brighten Up Finishes include a paint and varnish and stain and enamel for every purpose. You will find the operation of "brightening up" not laborious, but interesting, and the improved appearance of your house will delight you. Ask your dealer for

## SHERWIN-WILLIAMS Brighten Up Finishes

## What a Gallon of Gasoline Will Do for You

A GALLON of gasoline will run one of the efficient 2-horsepower I. H. C. Gasoline Engines for fully 5 hours.

That is, you will have full 2-horsepower to turn your machines all that time.

It will save you and your family all the hard work of turning the cream separator.

It will pump water and grind feed for all your stock.

It will saw your wood, shell your corn, turn your grindstone.

It will do all these things and many more for you the same day.

And for 5 hours' steady work it will cost you the price of one gallon of gasoline.

Is not that getting your hard work done at a pretty cheap rate?

You will have plenty of other jobs for your

## I. H. C. Gasoline Engine

There is something for it to do all the time. If it is not working it is not costing you anything. When the engine stops, all expense stops. But it is ready to start up again at the same work or any other work at any moment.

There are larger I. H. C. engines that consume more fuel and do more work—you have your choice of a number of styles and many sizes.

**Vertical 2, 3 and 25-horsepower.**

**Horizontal (stationary and portable) 4, 6, 8, 10, 12, 15 and 20-horsepower.**

**Gasoline tractors 12, 15 and 20-horsepower.**

**Famous air-cooled 1 and 2-horsepower.**

**Famous skidded engines 2, 3, 4, 6 and 8-horsepower.**

**Also a complete line of famous mounting engines from 4 to 20-horsepower, and Sawing, Spraying and Pumping Outfits and Jacks.**

If you will look into the matter rightly, and learn to appreciate how much work an I. H. C. engine will do for you and how economically it will do it, you will inevitably come to the conclusion that you must have one of some kind.
