

## De Laval Cream Separators

are in use in a vast majority of dairies throughout the world, and many users of inferior machines, who would like to change for a De Laval do not understand that while such second-hand machines possess no saleable value, the De Laval Company makes very fair "trade" allowances for them. This is simply to get them out of the way, and by means of practical illustration of the difference between good and poor separators, stop the sale of others like them in the neighborhood. Nobody is injured by the resale of these old machines, as they are "scrapped" for their old metal value.
