Protection For Motorists.

The motorist whose car has not been more than a few miles from home but nevertheless gets a polite invitation to appear before a magistrate several hundred miles away in the other end of the province, can in future afford to smile at it. An inconspicuous amendment of the last session to which the Highway Department is drawing the attention of the motoring public removes the necessity for a motorist traveling to answer a speeding charge of which he is not guilty. In future where the defence of the motorist is that his car was not in the municipality from which the summons came, and that there is evidently an error in taking the number, he may appear before a local justice of the peace with two witnesses and prove his contention. If the local J. P. is satisfied he must issue a certificate which, when sent to the J. P. or magistrate issuing the summons will be that official's justification for dismissing the charge, provided he has no reason to doubt the truth of the testimony on which the certificate was based. The certificate will cost the motorist \$1.25.

Canada Food Board.

Canada's new wheat crop will not reach the consuming public as flour for three months at least and in the meantime this country will be very short of wheat flour. We have, as has also the U. S., shipped as much wheat as possible to the Allies, giving them a considerable share of our own normal supply to help carry them over until the new harvest has come onto the market and the corner has been turned. The use of substitutes, therefore, becomes a comparative necessity in this country and our people should familiarize themselves with methods successfully used in baking these substitute flours.

On the 1st of July the Canada Food Board Order became effective requiring all public bakeries, and private households also, to use 10% substitute flour. On the 15th of July this percentage is to be increased to 20%, in all of Canada east of Port Arthur. The question then will arise in each housekeeper's mind, what are substitutes for wheat flour, where can they be had and how are they to be used. Substitutes as defined by the new law, include bran, shorts, corn flour, corn meal, edible cornstarch, hominy, corn grits, barley flour, rolled oats, oatmeal, rice, rice flour, buckwheat flour, potato flour, tapioca flour, rye flour and rye meal. Potatoes are also classed as a substitute for wheat flour, in proportion of four pounds of potatoes to one of the other substitutes mentioned, on account of the higher percentage of water in potatoes. A large number of millers are ready with these different flours and as soon as the public demand calls for them they will be distributed throughout the trade, and are now procurable by dealers.

There has been some talk about the price of substitutes being high in proportion to flour but it is expected that this condition will remedy itself as the new flours get into general circulation throughout the trade. In the case of corn meal the price has advanced for corn in Chicago on account of market conditions. Canadian millers were depending on American corn and advanced the price of corn meal accordingly on all new contracts. It is not expected that this market condition will continue, however, as there has been plenty of corn in the U. S. since last harvest, although difficulty of distribution arose through lack of sufficient transportation facilities and similar causes. With the 1918 crop in prospect, it is expected that there will be a still more plentiful supply for the coming season.

It may be necessary to experiment with these substitute flours a few times before succeeding in producing a satisfactory loaf and opportunity should be taken to study the effect of these substitutes and the different methods of mixing, handling, fermenting and "proofing" of the doughs. As most of the wheat flour substitutes accelerate the fermentation, it will be better not to work the dough as long as usual. About four

hours for mentation will be sufficient in a room of moderate temperature, divided as follows:—2 hours 45 minutes for the first punch; 45 minutes for the second punch; 30 minutes is allowed before the dough is finally taken out, kneaded and cut into loaves. After being set in the pan; 45 minutes is enough for "proofing," when it is ready for the oven.

Advertising a Town.

A town is judged largely by its newspapers. Businessmen seeking a location usually turn their attention first to the local papers in starting an investigation of a scene for proposed investment. One has to get away from his home town to realize this. In a city office recently where a large number of local papers are received it was interesting to hear the comments made by "those who know," and it was significant to note the number of times the expression occurred: "That's a live town—the merchants are good advertisers."

The writer ventured the suggestion that the merchants might be sufficiently alive to be good advertisers and yet the town not be in the same class. To this we received the answer we expected: "No chance. Wherever you see a paper carrying a good volume of local advertising you will find a live town. The advertising will make the town live. It can't help it."

Thinking he was doing his mother a kindness, Willie Schmidt, a 10 year-old lad of Stratford sold a sack of rags to a Jew for five cents, which later were sold to a wholesale junk dealer for six cents. Hidden in the sack of rags was the family bank roll, containing \$40, and all efforts to find it have proved fruitless. The rags became mixed at the warehouse.

"Did any of your ancestors do anything to cause posterity to remember them?" asked the haughty woman.

"I reckon they did," replied the old farmer. "My grandfather put a mortgage on this place that ain't paid off yet."

A 15 year-old lad, son of a widowed mother, was fined \$200 in the Dundas police court Wednesday afternoon for a breach of the Ontario Temperance Act. He said he got liquor through an order from a doctor. There was a dramatic scene when a well-dressed, respectable resident of the town, and father of three children, asked permission to speak. He said he went home recently and found his wife lying dead drunk on the floor. "She is a good woman except for liquor, and I thought her safe," said the man, addressing the doctor. "And then you, with the scratch of a pen, for a dirty dollar, broke up my home and make all my works and hopes a failure." Magistrate Fry severely censured the physicians who dispensed prescriptions indiscriminately.

In an effort to avoid military service, Arthur and William Webb, brothers, spent every day of the last two years in a bedroom in their home. The brothers went out for exercise only at night.

Charles W. Shosenberg, manager of the Caldwell Milling and Feed Co. of Dundas, Ont. was fined \$100 and costs by Magistrate Fry, in the Dundas Police Court, for buying a quantity of milling wheat to be used to make poultry or horse feed, this use of milling wheat being prohibited by order-in-council. During the trial, Magistrate Fry said: "The hand-writing on the wall is becoming plainer and plainer every day as to the great need of food, and any man who deliberately and in cold blood violates the order-in-council regarding food stuffs is an enemy to the country."

It is made an offence by a recent order-in-council: "To print or give public expression or circulation to any false statement or report respecting the work or activities of any department, branch or office of the public service, or the service or activities of Canada's military or naval forces, which may tend to inflame public opinion and thereby hamper the Government of Canada or prejudicially affect its military or naval forces in the prosecution of the war."

The month of June was cold and considerably below the average temperature. From June 19 to June 22, taking it down to the nearest minute, there is no difference in the length of the days; it is just the matter of a few seconds. Sunday, June 22nd, was the first day with an appreciable difference in length, and it was two minutes shorter.

Two bears were trapped near Golden Valley in Amabel twp. during the past month. Recently bears have become numerous in the township and farmers have suffered severely through their flocks of sheep being attacked. The township council of Amabel offered a bonus of \$10 for each bear trapped and there is likely to be a grand round-up of the bears. Messrs. Jos. Barclay of Mar, and John Rogers of Golden Valley are the first to claim the bonus, having captured two recently.
