

Save the surface and you save all Paint & Varnish

Add years to the life of your house

TIME was when the "appearance" of a freshly painted house was the only thing that counted, but now we must also realize the importance of the protection good paint affords against wear and tear. Any paint will give some protection, but if you want paint protection for years — not merely months—use

B-H PAINT
"English" 70% Pure White Lead (Standard's Grade E.L.)
30% Pure White Zinc
100% Pure Paint

A 100% formula (70% of which is Brandram's Genuine B. B. White Lead) providing a coat of such body, brilliance and "toughness" as to defy rain, sun or snow, where cheaper paints will chip, peel and crack.

If your house is painted this Spring with B-H it actually has a surface-protection which renders it impervious to the decay of passing years.

You have the choice of 36 attractive colours as shown on color card which is supplied on application.

Gasoline sold for 6 cents a gallon in 1908.

There were only four automobiles in the United States in 1896.

Mary Pickford has accumulated a fortune estimated at between \$2,000,000 and \$3,000,000.

"Pave the road and double the load" is a good slogan which is rapidly gaining popularity.

The Government of India has issued an order prohibiting the entrance of Germans into India for a period of five years from the signing of the Versailles Treaty.

At least one testy old bachelor is with the teachers in their requests for better compensation. "Anybody," he says, "who takes the kids off the streets, for six hours a day is entitled to all she can get."

An American paper incidentally refers to a society woman who made an evening gown out of a pair of silk stockings but was at a loss to know how to work up what was left over. Why not make a bathing suit?

It is a strange fact that eggs of sea fowl are almost conical in form, so that they will only roll in a circle. As many of them are laid on the bare edges of high rocks this provision of nature prevents them from rolling off.

An imperial bureau of statistics in which Canada will be represented is in process of formation. The headquarters of the bureau will be to act as a center where statistics from every part of the empire will be available more readily than is now possible.

The current of commerce gets its name by a corruption of the word Corinth. The port of Corinth, Greece, was originally the point from which these goods were shipped. They were produced in the Ionian Islands. It is really a small variety of grape.

Butter is being sent through the post offices in fairly large quantities to England. This traffic has grown throughout Canada in a surprising manner, and has taken such a place in the parcel post business that the postal authorities in Ottawa have issued regulations instructing the public how butter must be packed.

If you think there is little news in your local paper, take a pencil and several sheets of paper and attempt to re-write all the news the local paper contains. Do this for fifty weeks and at the end of that time let the editor know if one dollar and a half which has about the purchasing power that twenty-five cents had twenty years ago, is sufficient pay for your work.

"Good citizens do not happen. They are the product of training. Citizenship must be as definitely taught as any other subject on the school curriculum, and the theoretical teaching must be supplemented by practice. Later these children will be responsible for the welfare of the state. Why not train them for that duty by allowing them now to assume the responsibility of the school? They will learn that the state is bigger than the individual—in other words, they will become social-minded and will develop a social conscience. Out of such stuff comes loyal citizens."

A good many things make it pleasant to shop here; they're all included in our general principle of real service.

Its part of our service to only sell shoes of the finest quality—that's why we feature Hartt Footwear for Ladies and Gentlemen.

It's part of our service also to think more of pleasing you than of "selling" you; to see that you are properly and carefully fitted and get intelligent attention.

We always consider that any money you pay us for shoes is still your money until you've satisfied yourself that you like the shoes you've bought.

Show Your Goods
Don't advertise unless you have something worth buying, says a printers' trade paper. A great many persons suppose advertising alone is sufficient. This is nearly as bad an error as to suppose that having the goods is sufficient alone.

This reminds us of a little story we once heard of a boy who was sent out in the summer with a bag of green corn to sell. The boy was gone all day, and returned with the bag unopened, which he dumped on the floor, saying: "There is your corn, go and sell it yourself—I can't." "Sold any?" "No," said the boy; "I've been all over the city with it and nobody said anything about green corn. Two or three fellows asked me what I'd got in the bag and I told them it was none of their business." The boy reminds us of some business men we know of who do not recognize the benefits of advertising.

Why The Editor Left Town

It was because the following items appeared in his paper.

"Mrs. T. W. Blank read an article for the Women's Club entitled, 'Personal Devils.' Seventeen were present."

"Mr. J. Crouse shipped a car-load of hogs to Kansas City one day last week, three of his neighbors went in with him to make up the load."
