VOCATIONAL SCHOOL NOTES

The good woman is a good housekeeper. Whatever other accomplishments a young woman may attain, she must become a good home maker or fail in her real mission. No matter how many exceptions be taken to the rule, no matter in what form you put the case, the precept was so stated long ago in sacred writ, and it remains true to this day. The good woman "looketh well to the ways of her house hold, and eateth not of the bread of idleness."

The mother who allows a daughter to come to maturity without adequate knowledge of domestic science, and measure of explicit training in practical housekeeping, commits a most egregious blunder that cannot be well repaired.

The tendency of all educational and industrial thought today is towards equal rights, equal opportunities, equality in all things for mankind. At the same time that other wise precept holds good: "Whatsoever thy hand findeth to do, do it with thy might." And it applies also to the artisan, the bread-winner and the housekeeper. Domestic Science, home-making and household arts were never more in evidence, never were given a more prominent place in the economic welfare of mankind than they hold today. Food and its conservation, ever regarded the chief factor in the development of the races, has now swiftly become of paramount importance. The occupation of the housekeeper is secondary to no other.

Family and food are the chief products of a farm, and while the world can not endure without food we must also remember that civilization can not endure without sound, well-moulded character. We do not think, therefore, that any farm can be said to be truly successful unless it can show efficient children and character among its prize crops.

There is offered at the Carleton County Vocational School, free to young ladies, residents of the county, between the ages of 14 and 25, starting on Sept. 20 and ending June 30, 1921, a course in Home Making, embodying the following phases of Domestic Science: Cooking, laundrying, household chemistry, foods and food values, sewing and dressmaking, invalid cookery, home nursing, home management and house planning. Applications for enrolment should be made immediately. Address all correspondence to R. W. Maxwell, Director, Woodstock, N. B.

To the Electors of the County of Carleton:

Ladies and Gentlemen:—We have sent a petition to the Provincial Government asking to have a by-election at once to allow a returned soldier to be elected to fill the vacancy for this county in the provincial house, and we have chosen S. G. Barter of Avondale, a returned soldier who served at the front in the 26th Batt., as our candidate.
