Thought She'd Have To Give Up

Mrs. Kenny Had Suffered Eight Years Before Taking Tanlac—Is now Well and Happy

"I'll never stop praising Tanlac since it helped me so much and I just feel like going out and telling everybody about it," said Mrs. O. R. Kenny of 75 Dredon Row, Halifax, N. S.

"For the past eight years I suffered dreadfully with stomach trouble and chronic indigestion. My appetite was poor, and for years I didn't think I ate a good hearty meal. The little I ate soured on my stomach and caused gas to press up into my chest and throat until I could hardly breathe. I had awful headaches that kept me confined to my bed for days at a time and left me in a terrible weakened condition. At night I was so nervous and restless I could scarcely sleep. I had no energy to do my housework, and I thought I would have to give up altogether, as I was getting worse all the time.

"I got a bottle of Tanlac one day and it gave me so much relief I kept on taking it until I had finished my seventh bottle and all my troubles had disappeared. My appetite is just splendid and I no longer suffer from indigestion or gas in my stomach. My breathing is free and easy and I never have a sign of a headache. I sleep like a child and have regained all my strength and energy so that my housework is a real pleasure. I've also gained ten pounds in weight and am feeling just fine in every way."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Sullivan and in Doaktown by O. Hildebrand.

BE SANE IN POLITICS

An exceedingly strong reason why we should maintain a stable government in Canada is that the burden of taxation is too heavy for a young nation to bear and should be minimized as quickly as possible. One of the best ways to bring about a reduction is to increase the population and thereby minimize the per head load of taxes. Enlarged population of course means necessity for increased capital to assimilate it. If sensible policies are continued there is little difficulty about getting population. Every ship leaving the Old Country for months has been loaded with people from the Mother Country anxious to make new homes for themselves in the new country, and there has been a great influx of people from the United States into our Western country. The biggest difficulty is to get additional capital from outside. And the question on then is—how best can we attract outside capital? Can we do it if we have a country distracted politically, with class striving against class? No, assuredly not! Capital always shies away from conditions of that kind; always steers clear of countries where political conditions are unstable. It requires as an essential a sane, sensible government, representative of all classes under which reasonable security of fair and decent treatment is assured.

No country ever had a greater opportunity than Canada to make wonderful progress. The cards are all in our hands if we only play them right. If we only keep our heads we will have a large flow of population and capital from other countries. The war has changed the life outlook and perspective of millions of peoples of the Old Lands, and nowhere better than in Canada can they find scope for their energies and activities. The United States is rapidly falling up, and we are also doing wonderfully well and should do so in increasing measure each year. Moreover, our cheap Western lands, which are rendered still more cheap by the premium in Canada on United States money, are proving a great attraction to the western and mid-western United States farmers.

The financiers of the world are just beginning to realize the tremendous extent of our natural resources, and the splendid advantages we have for manufacturing development by reason of our magnificent water powers; and, unless checked by immature statesmanship we should see a great development of Canada, which will be of untold benefit to the whole people. All we have to do is to keep steady, and to be sane in our politics. We should not let the extremists and class agitators carry us away with their half-baked, half-digested theories. In these troublesome times, with such a splendid prospect ahead of us, we should cling fast to that which we know, cling fast to sane, orderly, stable government for all classes, a government based upon the best Anglo-Saxon practice, and not allow ourselves to get tangled up in class movements based upon class consciousness, with selfishness as their motive, which can only lead to chaos, if not disaster.

Guide Attacked By Bull Moose

Mr. George Hinton of Doaktown Attacked by Bull Moose and Badly Beaten

Fredericton Gleaner: George Hinton, of Doaktown one of the best known hunters guides on the Miramichi, had a remarkable experience with an infuriated bull moose on the closing day of the hunting season, news of the thrilling incident being relayed here only today.

Mr. Hinton, it appears, had shot a very large bull moose, a veritable monarch of the forest, and, believing it was about dead, turned away to look at six other moose a short distance away when suddenly the huge animal, wounded and helpless as he believed sprang to its feet and charged the lone hunter.

The infuriated bull tried every way to lay him with his horns, at the same time kicking at him with both his forward and hind feet. However, with wonderful presence of mind, Mr. Hinton grabbed the antlers and thereby held himself close to the animal's head that it could not go on him with its horns nor kick him with its feet. In that position Mr. Hinton was rushed through the thicket until the woods became so thick that the moose because of the great size of its antlers, could penetrate no further.

Then, freeing its assailant, who was only too pleased to part company with it, the animal turned and fled leaving Mr. Hinton much bruised and with two ribs broken, but able to make his camp that night, thankful for his miraculous escape from death.
