The Reliability of Testimonials Guaranteed

The testimonials published by the Lydia E. Pinkham Medi-

cine Company come to them unsolicited. Never knowingly

have they published an untruthful letter, never is a letter

published without the written consent of the writer. The

reason that thousands of women from all parts of the coun-

try write such grateful letters is that Lydia E. Pinkham's

Vegetable Compound has brought health and happiness into

their lives, once burdened with pain and illness. It is easy

to realize how these poor, suffering women feel when

restored to health; and their keen desire to help other

This great hand-written Bible is the largest volume in the world. It is being compiled of written testimonials from 12,000 contributors, from the highest to the lowest rank. The King and Queen of England are to contribute. The purpose is to concentrate attention affesh upon the Bible. It will be exhibited in Canada, America and Australia. The size of the Bible is 5 feet 2 inches by 3 feet 6 inches.

farm and Country Life in Canada

ARMING is a basic industry in Canada. From the first days of its publication. The Globe has also cated the development of scientific agriculture.

When the breeding of pure-bred stock in Canada was first deemed necessary, The Globe, by example and precept, showed what could be

The late George Brown was a leader in experiment. At Bow Park Farm, near Brantford, he bred from imported cattle so as to place purebred stock at the disposal of his neighbors.

From those days to the present, the furthering of the interests of the Farm and Country Life of Canada has been an important feature of The Globe.

The Weekly Farm Department has always been a source of inspiration to the farmers to improve their knowledge of agriculture.

The Globe believes that one of the best ways of teaching a man is to show him what his neighbor is doing. This is the policy The Globe adopts in its Farm Department. Two members of The Globe staff devote their whole time to the collection of material for this Department and in so doing spend several days each week in the country. They visit good farms all over Ontario and attend Fairs and Conventions. They report all develop-ments in rural life as reflected in these gatherings as well as in the personal experience of successful farmers. Through its "Farm and Country Life" Section, The Globe has identified itself with every movement calculated to improve

the conditions under which farmers and their families do their daily

This is the service thousands of Farmers in Ontario and elsewhere receive and appreciate, and one of the reasons why many thousands of them read The Globe.

But that is not all. Keen competition, and the continued fluctuation of prices make it necessary for the farmer and his ramily to keep in touch with current produce and other commodity prices even from day to day.

The Globe has a well-merited reputation for accuracy, because in nothing is it more dependable than in its market reports. All prices guoted in The Globe are verified by the highest authorities SIX TIMES EVERY WEEK.

But besides all this, The Globe is a Great Family Newspaper. It is as much a necessity and convenience in the Farm Home as anywhere else. The coming of the daily paper to the Farm Home ranks in importance with the rural mail delivery, the telephone, electricity and the good road.

It broadens the outlook of those who live on the farm. It keeps them informed on current events the world over. Not only does The Globe do this, but it serves the agriculturists of Canada in a peculiar and appropriate way.

The service The Globe has already rendered three generations of Farm Life is a guarantee of what it will do in the days to come.

This is why The Globe should have a place in every Farm Home in Ontario.
