Drowning Men Catch at Straws.

A notable instance of this occurred this morning in the editorial of the Daily News, wherein the discerning eye sees that the paper observes shoals ahead and that political shipwreck for the Tory party is imminent. They contend that in our report of the Legislative proceedings yesterday we stated that the Premier successfully defended the Estimates, whereas as a matter of fact we had given half a page showing that the increases were absolutely incapable of being defended. Quibbling over the application of a word in a hurriedly written article will, however, deceive no one. The Premier could not, nor did he, defend successfully the actions of the Government. The general tenor of the report showed that the word was used in the sense of "defending," one of the meanings given by Webster, without entering upon the question of the success or failure of the attempt. Moreover, it is on record that Satan quoted scriptures for his own purposes and not for those for which they were inspired.

Prominent Family Moving to St. John's.

The E-M-F family consisting of four brothers will leave New York for "Roseland" next Saturday for here. They are a strong good-looking quartette and are very popular. They will be in active service here for the next ten years. One will be employed by Mr. Tasker Cook, who is now building a new house for him on Forest Road; another will be looked after by Mr. Fred Rioux, with headquarters at the Reid Brothers' garage; the third will be taken good care of by Dr. McLaughlin; while the fourth will take up his residence with Mr. E. Collishaw, Waterford Bridge Road. It is expected that within the next few months many more of this large and well connected good-looking family will move to St. John's.
