Bonaventure Loads Fish FOR BRAZIL.

The S. S. Bonaventure sailed last night for Sydney to load coal. Returning she will go to Fogo to load a part cargo of fish. She will take the balance of her cargo here and then leave for Macao, Bahia and Pernambuco. The Bonaventure takes about 20,000 quintals of fish and should get away about the end of the present week.

An Interesting Spectacle.

Crowds of people passing along Water Street nightly and daily are attracted to the window of the store of J. J. Burton and Co. by an interesting spectacle. Here one of the Ferro Engines, for which the firm are agents, is fitted up and runs at full speed demonstrating its capabilities as one of the most powerful, easily directed and complete marine engines now in use in this country. The Ferro Motor is well known and highly appreciated by hundreds of fishermen who use them, and those who have not seen them work should call at the store to view this excellent machine.

City of Sydney Sailed To-day Will Make Another Trip.

The S. S. City of Sydney, Capt. Fraser, which was delayed in unloading her cargo by the disagreeable weather, left this morning for Sydney and Montreal, taking the following passengers:—Miss Edna Bishop, J. J. Channings, Mrs. H. T. LeMessurier and 5 children, Mrs. J. B. Hirst, Mrs. T. Fogwell, J. B. and Mrs. McLea and 10 in steerage.

HAS LARGEST CATCH.

The season at Hawke's Harbor, Labrador, will likely cease operations the latter part of the week. The Cachelot captured fifty five whales which is the largest catch of any one whaler for the season.

BUILDING NEW STATION.

A number of men yesterday morning began work on the new railway station at Renew's. The grading of the railway is now nearing Trepassey and the rails are laid to Renew's up to which construction trains run.

Had a Very Narrow Escape

A couple of days ago Mr. Samuel Chafe, of Petty Harbor, had an experience which he would not like to duplicate. With his team laden with fish he was coming up over the steep hill just above Pynn's mill, when another team coming in the opposite direction came on the narrow way. The latter hauled one side to let Mr. Chafe pass, but the way was not broad enough, and Mr. Chafe's horse, cart and load toppled over and went to the foot of the steep embankment, 25 feet below. Mr. Chafe barely escaped by jumping across the other cart. Had he gone over with the team he would have met a sad and violent death. The fish was scattered in all directions and the cart smashed, but strange to say the horse escaped with only a few cuts. Unless a good stout railing is put in this place a fatal accident must some day occur.

EIGHTY RESERVISTS.

There are now eighty Naval Reservists on the Calypso and daily others are coming along from the various outports to put in their drill. In another few weeks there will be over 100 men on board.

High-Speed Eating and Wrong Food Lead to Indigestion

A little thought should convince anyone that right habits of eating are of first importance.

Five important points should guide the wise selection of food:

- Must be nourishing,
- Must be easily digested,
- Must taste good,
- Must make work for the teeth,
- Must be economical—

Grape-Nuts meets every requirement.

After all the argument for and against any particular food, the question can best be solved for the individual, by personal test—then you'll know

"There's a Reason" for GRAPE-NUTS.

McGrath Whitewashes Premier Morris.

IN THE OUTPORT PUBLIC MESSAGE.

Editor Evening Telegram.
Dear Sir.—The Outport public news despatch of the 14th inst. contained the following:—
"Premier Morris in letter to city newspapers replying to Evening Telegram articles respecting his holding shares in St. George's Lumber Co., publishes a letter from Manager Prince of that company, showing that these shares were given Sir Edward Morris in 1908 as payment for legal services and cash disbursements on account of incorporating that company, two years previously, the company having no funds when Sir Edward Morris presented his bill for party and EVENING TELEGRAM PRACTICALLY ADMITS COLLAPSE OF CHARGES AGAINST PREMIER MORRIS IN VIEW OF HIS EXPLANATION."

Here the whitewashing process is being carried by Sir Edward's quick philosopher and friend, except P. T. McGrath, but Sir Edward's published explanation is much belated. So far as the collapse of the Telegram charges are concerned they appear to be making the case against Sir Edward all the more strong. It will need a heavier coat of whitewash than either of those administered by Manager Prince or P. T. McGrath, to reconcile Sir Edward's statement in the House of Assembly with the possession of these shares.

Yours truly,
DEMOS.
West Coast, Nov. 16th, 1912.

Daily Message Prostituted.

Another correspondent writes from a northern outport on November 15th, as follows:—

"I am sending you a portion of the public news distributed throughout the Colony yesterday. You will know better than I do, for I do not know the facts, whether the public telegraph service is from time to time through the daily message prostituted or not to party purposes."

"I cannot help feeling that an impartial person should be appointed to write the public message. I do not know who writes it, but it is surely a party man who likes Bond less than he likes Morris."

Hr. Grace Notes.

The funeral of the late Mrs. Joseph Sparkes took place on Saturday afternoon and was largely attended.

The ladies of St. Paul's Church held their sale last week which was a most successful affair. In the two nights the total amount of \$335.00 was realized. Christ Church ladies are holding their annual sale this week, and possibly St. Andrew's next week.

The ladies of the Cathedral Parish are preparing for their Christmas Tree which promises to be a great success financially.

Mr. John Callahan, of Riverhead, who was injured at Bell Island, on Wednesday, is said to be in a very precarious condition. His friends are hopeful that he will pull through.

Mr. Charles Webber left town on Wednesday last for Sydney. His friends regret his departure.

Mr. John Walker took passage by this morning's train for St. John's; he expects to return again to-night.

All our townspeople are pleased to hear that no operation was found necessary in the case of His Lordship Bishop March, and that he is now probably on his way home. One and all wish him a pleasant and safe passage home to his beloved people.

Mr. Richard Whelan, of Carbonsar Road, is gradually getting weaker and there is now little or no hope of his recovery. Mr. Whelan was at the Labrador the past summer, and came home very sick. Cancer of the stomach is the cause of his illness.

It is bad enough, yes, too bad, to see young lads on our streets smoking cigarettes, but a young girl seen indulging in a whiff on one of our principal streets yesterday. Of course, the boys say that Mr. So-and-So and others, mentioning prominent citizens, smoke them and it cannot be wrong, but the girls can find no such excuse as no woman we feel sure would be guilty of setting such a pattern before the future men and women of the town. Prominent men, men that the boys are likely to look up to as a pattern should think deeply and well before appearing on the street with a cigarette in mouth.

Yesterday was observed in the Kirk here as Thanksgiving Day, and suitable discourses were delivered by the Pastor, Rev. F. S. Coffin. Both services were very hearty and were much enjoyed by the congregation. At the evening service a Thank Offering was taken up which we understand will be devoted to the Missionary cause.

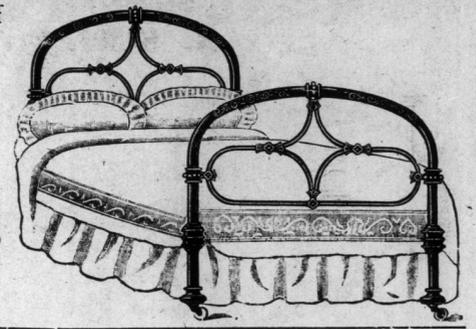

The Supreme Court opens here on Monday next, and it is likely the several days here this year will be busy ones although no very serious cases are to be brought before the presiding Judge.

Marine Notes.

The schr. Nellie M. has arrived at Arcane with a load of molasses from Barbados. After unloading she will proceed to Charlottetown, P. E. I., to load produce for Geo. Neal.
The S.S. Durango leaves London tomorrow for this port.
The S.S. M. S. Saratoga will leave Liverpool on Saturday next for here.
