Philip Gesse and Charlie St. John were both of a literary turn of mind. Philip became the celebrated Naturalist, particulars of which any of my readers can ascertain in the British Encyclopedia. Charlie St. John became Editor and Proprietor of the "Conception Bayman" newspaper of Harbor Grace, wrote a short history of Newfoundland, dedicated to my old schoolmaster, John I. Roddick, and eventually settled in Boston, where he became a close friend of Henry W. Longfellow, the author of Evangeline, etc., and many other celebrities of the Hub. His son, Henry St. John, now over 30 years of age, still lives in Boston, and, like his father, has written many beautiful poems, published in book form, describing his old home in Newfoundland and its beautiful scenery. There are many interesting facts mentioned about Carbonear, one hundred years ago, that I must keep for anather time. ndred years ago, that I must keep another time.
