THE subscriber, in thanking the public for their liberal support, would again bring before their notice the
TOTMAN SAWING MACHINE.
Which is now well-known, and is acknowledged to be the best two-horse sawing machine made. This machine is greatly improved. There is now no platform for the horses to walk over. To prove the above statement, Mr. Moses Harvey, Treasurer of the Township of Elton, in 1873, with one span of horses, 60 cords—no guess work—the wood was split, piled and measured. I could give many such instances would space permit. The price of machine complete is \$80.

BEING determined to sell goods at the very lowest possible advance on cost, and allow the public to get the benefit of the change, has resolved, after this date, to credit only those who are prompt payers, and permanent settlers of the neighborhood. Hereafter no single wholesale purchase will be made by him unless cash can be paid when the goods are ordered. As he will therefore be able to buy cheaper than others, it is a natural consequence that he will be enabled in the future to offer such inducements to his customers as they cannot get elsewhere in the county of Perth.
