—T. B. Allen, a prominent citizen of Galt, died at his residence Wednesday morning, aged 63 years. He was an extensive property owner; was on the Galt public school board until he retired two years ago, and was for a time an elder of Knox Church, of which he was always a leading member. He leaves a wife and family of four sons and three daughters, Wm. Allen, of this city; Daniel Allen, Malton; Thomas Allen, Toronto; Joseph Allen, Galt; Mrs. F. Walker, Toronto; Miss Allen and Mrs. (Dr.) Frank Buchanan, Galt.

—On Wednesday, at the residence of the bride's parents, Warwick, the council will be recommended to allow Mr. Thomas \$1,000 for the property expropriated if he will insure the city against any claim for damages the club may make.

The purchase of property for section B of the new sewer system was considered, and left to the engineer and chairman, Ald. Cooper, to secure that their decision necessary. The sewer runs from the foot of the hill on Evergreen avenue across the Grand Trunk Railway bridge, and the street railway crossing to the cove, and will be through the property of Messrs. Coveny, John Taylor and the Kent estate.

The engineer would have had the matter entirely in his own hands had not the chairman protested vigorously, and referred to precedents to show that the chairman for the past two years had always been on such committees. The committee is willing to pay \$150 an acre for the property required in the Kent estate, and \$200 for Mr. John Taylor's land.

The matter of saving Mr. Chipman's salary was brought up by the mayor, who said that as the council had seen fit to postpone the completion of the sewer system, it would be well to disperse with the services of Consulting Engineer Chipman.

Mr. Chipman's salary was about \$100 a month, and that amount should be saved to the city.

Ald. Carrothers asked about the balance upon which Mr. Chipman was paid. The mayor said that so far as the city clerk could find there was no agreement. There had been one framed, but not signed. A resolution of the council had been passed, though, to pay Mr. Chipman a certain sum every three months.

Ald. Carrothers thought the resolution was that Mr. Chipman was to get \$750 a year for 45 days' work and pay his own expenses. He was paid extra if he employed more than 45 days in the year.

The motion of the mayor to disperse with Mr. Chipman's services carried.

BOARD OF WORKS

Decide That Residents of a Ward Should Do the Work—Sewer Dispute.

The board of works met last night, with all the members present, and dealt with some matters of minor importance.

Mr. Frank Gibson wanted permission to lay a small sewer on the north side of South street, to drain the cellars of his houses. Only three of the ratepayers were willing to sign a petition for the sewer, said Mr. Gibson; but a remedy had to be brought about, as water was lying in the cellars, and tenants were being ordered by their physicians to leave. Mr. Gibson was willing to construct the sewer at his own expense. The matter was left to the engineer and Ald. Belton, with power.

Ald. Dreaney objected to a citizen living outside of the ward being engaged to spread gravel in ward 5, and moved to remedy the matter. His motion carried, and Mr. Wm. Legg will be succeeded by a fifth ward resident. The pay sheet for the week amounted to \$449 72.

Mr. and Mrs. Gould have a daughter, Mrs. S. Hanford, in Manitoba, and Mrs. J. Stevenson, and son, of Detroit, who were unable to be present to help swell the gathering. They also have nine grandchildren in Manitoba.

SETTLING LAND DISPUTES

The Dunnett and Thomas Properties Again Considered.

Sewer Committee Will Buy Land for Section B—Services Consulting Engineer Chipman To Be Dispersed With.

After the meeting of the board of works last night the sewer committee held a session, and again reached a conclusion concerning the Dunnett and Thomas properties. It was also decided to recommend the council to disperse with the services of Consulting Engineer Chipman. All the members were present.

Mr. P. Mulken, representing Miss Dunnett, said his client had asked \$3,000 for the property, but sooner than go to the expense of arbitration she was willing to accept of offer of \$2,500. Miss Dunnett pointed out the nature and extent of damage to her property by the construction of the bridge.

Ald. Belton thought Miss Dunnett should accept \$2,500 for all the property on King street, 250 feet, by 50 feet frontage on Thames street.

Ald. Douglas said the engineer held that the city did not need the property, and asked how much would be accepted as damages. Mr. Mulken replied \$1,500.

Ald. Carrothers believed it necessary to purchase the property so that the London foundry could be given a right of way.

After further discussion Miss Dunnett said she was willing to give 100 feet frontage on Thames street by the depth to the water's edge on King street for the sum of \$2,500, on the condition that public swimming baths be put up on the property to interfere with the business of the Sulphur Springs baths. Ald. Belton changed his motion to accept with this, and the recommendation carried.

The city solicitor wrote that the London foundry announced that it was willing to accept \$300 as compensation for damages to their right of way, caused by the erection of the King street bridge.

The right of way is on property belonging to Mr. J. A. Thomas and which the city expropriated.

It was held that the rowing club should deal with Mr. Thomas, and the council will be recommended to allow Mr. Thomas \$1,000 for the property expropriated if he will insure the city against any claim for damages the club may make.

Price.

Kingsmill's family believe that they can sell you good goods at a lower price than any other merchants in Western Ontario. If Kingsmill's didn't firmly believe that Kingsmill's wouldn't be in business. We're in business to lead—not to follow.

And how comes it that we can give you better goods at a lower price than any other store can afford? A large question, that—requiring a large answer. But here's the answer in outline: We have far and away the largest stores in Western Ontario, and so buy in far larger quantities than other merchants of Western Ontario. Besides we have the shrewdest buyer in America, and further more we have an enviable financial record and so buy on the closest possible terms. That's why you save money by buying at Kingsmill's.
