New Export Tax on Gold Is in Successful Operation.

Miners and Other Residents of Territory Satisfied With Present Conditions.

Mr. W. G. Harrison private secretary of Governor Ross, of the Yukon Territory, was in the city today, the guest of his friend, Mr. J. H. Brownlee. Mr. Harrison has been spending a week at his home in Glencoe, He left Dawson City on Aug. 7, spent ten days at White Horse, left there Aug. 20, and reached Victoria on Aug. 24. After spending a week at Victoria, he came east. He left this afternoon for Toronto, where tomorrow he takes the C. P. R. for Victoria, en route for his post

n the far north. To an Advertiser reporter Mr. Harrison stated that Governor Ross was slowly improving in health. He is now able to walk a little and drives out daily. He will shortly leave Dawson City to visit his sisters in Los Angeles. Cal., where he will spent a month or two in resting.

ent juncture, as he must hold himself aloof from the excitement of the election campaign in which he is the principal figure. Governor Ross is the Liberal candidate for the honor of being the Yukon Territory's first member in the Dominion Parliament. No Conservative candidate is likely to be brought forward. Governor Ross's op-ponent is Joseph A. Clark, a former employe of the Dominion gold commissioner's office, but for some time past the editor of the Klondike Miner, a labor paper. Mr. Harrison says that there is little doubt of the result, but at the same time Governor Ross' friends would feel safer were he able

to step into the campaign himself.
Things have been quieter than usual at Dawson City during the past summer. The projected construction of a railway from the city to some of the principal mining properties brought an influx of labor from the coast, but the scheme fell through and left the labor market overstocked.

Little gold had been brought out before Mr. Harrison left Dawson, but the heavy accumulations in the banks are now being shipped in a hurry, as navigation is unsafe after Oct. 1. By the operation of the new export tax the production of gold is ascertained more easily than under the royalty system. Any detected attempt to smuggle gold out is punished by the confiscation of the entire amount of the precious metal, and few care to take chances on losing all their store for the sake of escaping the tax.

Mr. Harrison says that there seems to be general satisfaction with existing conditions among the miners of the district. All admire Gov. Ross and his administration has been generally ac-Governor Ross's weak condition is ceptable to all classes.

Toronto, Ont., Sept. 15.-William Carey, who has just returned to his home in this city, after having served from the beginning to the end of the South African compaign, declares that there is no truth whatever in the statement that General Buller ever advised General White to surrender Ladysmith. Carey says he knows this because he was a signalist on the heliographs on the day the advice of surrender was said to have been transmitted. Gen. White signaled that he thought it would be impossible for him to hold out, Gen. Buller, according to Carey, heliographed:

"If your must surrender, get the best conditions possible for your men."
This, says Carey, is the only connection in which Gen. Buller used the word "surrender," and every one of us "commended him for good advice."

It will be remembered Rents increase every month and have that when the Leyand Line was sold to the American combine Mr. Ellerman retained the Antwerp-Montreal service, together with the Mediterranean and Lisbon and Oporto trades.

BRITISH POLITICAL CAMPAIGN. The autumn political campaign will be initiated before the end of the present month. The Liberal party leaders are organizing a vigorous attack on the Government's education bill, and unless Mr. Balfour can see his way to grant a concession on the vital question of popular control there will be some difficulty in forcing the bill through Parliament this year. autumn session is ostensibly to be devoted to the education scheme, but in all probability Ireland will again block the way, as it is not to be expected that the Nationalists will miss such an opportunity of drawing attention to the coercion policy of the Government and the recent wholesale proclamations under the crimes act.

The German army maneuvers have been more spectacular than usual, owing to two cavalry charges led by the Emperor, but they have not revealed any marked changes in tactics and methods. The English press does not attempt to conceal its contempt for the military authorities on the continent who disregarded the practical lessons of the Boer war and carried out artificial and theatrical maneuvers without reference to the altered conditions of modern warfare. This is a fair ac of retaliatory criticism. The British staff throughout the Boer war was ridiculed by the military critics abroad for lack of flexibility in dealing with the exceptonal conditions of warfare. It can now retort that while continental nations are playing at war in maneuvers, Britain has a quarter of a million of veterans who have learned to use rifles and fight in a practical

DISCUSSION ON TRUSTS. The British Association has promptly taken up the question of trusts. Prof. Graham was purely speculative in discussing the beneficial effect and profit, but Prof. Ginsbury was definite enough in condemning the policy of the Morgan combination in buying costly ships and attempting to earn enough to pay dividends on vastly inflated capital. Sir Bosdin Leech waved his plumes as a sturdy free trader against trusts on either side of the Atlantic, and Prof. Clarke, Sydney Young and other debaters took a similar line, and forecasted the economic results of capitalist combinations which would be detrimental to the interests of the working classes. There has been a complete recovery maneuvers, when the infantry deployed in England from the alarm over the in open order and advanced regardless shipping combination. Murderer on the Spot.

Newaygo, Mich., Sept. 13. - E. O. Shaw, publisher of the Newaygo Republican, says it is rumored there that while a gang of threshers was at work on a farm in Otia, this county, the band cutter accidentally cut the feeder's hand, and that the feeder instantly grabbed the cutter, a boy, and threw him into the machine, and that he was

ground to pieces. The gang immediately stopped the machine, and seizing the murderer, fastened a rope around his neck and hanged him on the spot. Mr. Shaw could give no names and says he has made every effort to verify the rumor, but cannot. He doubts the veracity of it. It is impossible to verify the story.

A Mean Grate Fire Makes A Man "Hot."

Sometimes it's the fault of the grate, more times it's the fault of the coal. If your grate is out of order, we can't help you; but we will sell you something new in

coal from the famous Blue Grass State called "Kentucky Cannel" provided you pay a little more for it, that will please you. Kentucky Cannel is

AMERICAN MISSIONS Receipts for Working the Foreign

Field for Past Year \$742,764 47. Boston, Mass., Sept. 15 .- The American board of commissioners for foreign missions has balanced its books for its fiscal year ending Aug. 31, and made

public the following financial statements today. The expenditure for twelve months to Aug. 31, 1902, were \$741,303 35, and the regular receipts for the year were \$742,764 47, leaving a balance on hand Sept. 1, 1902, of \$1,-461 12. The gains of the year have been from legacies and women's boards. The debt of a year ago, amounting to \$102,341 38 has been entirely canceled through the redemption of pledges given at the Hartford meeting last October. The 93rd annual meeting of the board will be held in Oberlin, Ohio, Oct. 14 to 17.
