New Chwang, May 19. - A courier of the Associated Press, who arrived here shortly before midnight, reports that the Japanese fleet was sighted from Tower Hill, ten miles north of Kai Chou, on Monday. The bombardment of the coast was extensive, covering a distance of 25 miles. Only it was reported were landed. This, however, is not

confirmable. The Japanese force marched several miles inland, destroyed four miles of railroad and other property, captured Russian commissary train, and returned with a number of carts, animals and native drivers. The Japanese then re-embarked and left the vicinity of their landing place. transports shortly afterwards could not be seen from Tower Hill, but their course was southward. It is believed now that the landing was a feint to cover movements elsewhere.

## RUSS OFFICERS DISHEARTENED First Ordered Out of New Chwang

and Then Ordered Back. New Chwang, May 19. - A regiment of Russian infantry returned here yesterday/afternoon. It was reported at 1 o'clock last night that batteries of artillery will reach here today. The Russians seem to be bewildered and disheartened and unable to form lasting plans. Officers, who left here, after oidding touching farewells to friends in New Chwang, returned a few hours later and began directing the work of building entrenchments a mile south of here. But this task was abandoned in a few hours. It is believed here that the Russian authorities at Mukden are responsible for this vacillation. In addition to the recrudescence of military activity, the sailors are refitting the Russian gunboat Sivouch, which had been dismantled and loaded with wood and oil in order to destroy

ber, as well as two small river boats in the mud dock. JAPS EVERYWHERE.
