VANCOUVER.

VANCOUVER, April 20.—In considering the estimates the Council decided to knock off \$1,000 for new books for the library. Ald. Salbury, chairman of finance, stated that the total revenue would not exceed \$383,102.15, while the fixed expenditure was \$371,928.84. The board of works had exceeded this amount some \$30,000. After a long discussion the following resolution was passed: "That the company be notified to take up their track on Powell street, having forfeited their franchise."

No conclusion has been arrived at in reference to the tramway double tracking of Granville street. The street must be double tracked before it is paved, and the city is trying to induce the tramway company to make the necessary outlay, as they allege according to agreement heretofore entered into between the city and the tramway company, that the company should double track so as to be able to operate on both sides of the street.

The city debentures have been finally sold at the high figure of 102.50, payable in Vancouver. CAPITAL NOTES.

Readjustment of Rice Duties—Sir C. H. Tupper's Cable Regarding Sealing Matters.

Proposed Further Tariff Changes—Colonial Conference at Ottawa—Additional Invitations.

(From our Ottawa Correspondent.)

OTTAWA, April 21.—The House of Commons discussed the tariff all yesterday on the rice duties. Hon. Mr. Foster moved that the new tariff be changed from five-tenths to three-tenths of a cent per lb. on uncleaned, unhulled or paddy rice, and a return to the old duty of 12 cents per lb. on cleaned rice. This was done, he said, in order to preserve the milling industry. Rice had to be cleaned somewhere, and it might just as well be cleaned in Canada, where labor could be employed. The Opposition strongly objected to the change.

Mr. Haslam did not want the duty on rice reduced because it was the only way in which the Chinese could be taxed. The Chinese were the largest consumers of rice in Canada. It would not be fair play in the interests of white men to lower the duty.

Hon. Mr. Patterson pointed out that if the rice were merely cleaned in Canada the country would get \$200,000 more revenue.

Mr. Mara upheld Mr. Haslam's statements regarding the Chinese.

The item passed.

Hon. Mr. Foster has given notice of the following additional tariff changes: Wall paper, not including borders printed on plain unground paper, and colored with any material except bronze, gilt or flitter, 55 per cent. All other paper hangings and borders per roll of eight yards and under, and proportionately for greater lengths, 1 1/2 cents per roll and 25 per cent. ad valorem; tarred paper, 25 per cent. Tomatoes and other vegetables, including corn and baked beans, in cans or other packages, not elsewhere specified, 1 1/2 cents per pound, the weight of the cans or other packages to be included in the weight for duty.

Tea and green coffee imported direct from the country of growth and production free. This item shall include tea and coffee purchased in bond in any country where tea and coffee are subject to customs duties, provided there be satisfactory proof that the tea or coffee so purchased in bond, such as might be entered for home consumption in the country where the same is purchased. The latter clause practically retains the discrimination in favor of Great Britain, and is against the United States, but will shut out importations of Chinese or Lams of Tibet. The grounds usually given for a grant of this sort were not applicable to a foreign sovereign. The usual argument for a royal grant was that the English princes were expected to make a certain display and fulfill certain social functions. Any reason of this kind could hardly be made to bolster the claim of a prince who lived and ruled in a foreign land.

Lord Randolph Churchill attacked Mr. Morton's motion warmly.

Sir William Harcourt, Chancellor of the Exchequer, defended the grant.

Mr. Morton's motion was defeated on a division by a vote of 238 to 67.

The debate was very exciting and created a great deal of confusion.

Lord Randolph Churchill, in opposing the motion, made an savage attack upon the Radicals in general, and Mr. Labouchere in particular. Though he looked ill, he spoke with a great deal of vigor and earnestness. He enlisted Mr. Gladstone and declared that if he were in the House he would administer to Mr. Labouchere and his fellow Radicals a drubbing from the effects of which they would not recover for many a day.

It is stated Dagama will be landed at Buenos Ayres to-day. It is reported General Saravia, with 5,000 of his insurgents, is on the northwestern frontier of Rio Grande do Sul.

done. The towns of Volo and Larissa were also badly damaged. Reports from all parts of the country are to the effect that everywhere the earthquakes were less and more or less damage was done. Athens escaped without damage.

THE LARGEST IN HISTORY.

PITTSBURGH, April 21.—Of the 17,000 miners employed in the river and railway coal pits of the Pittsburgh district, at least 15,000 quit work at noon to-day, in compliance with the general strike order, and by Monday it is confidently expected that work throughout the entire district will be at a standstill. The strike is the largest in the history of the largest bituminous coal district in the country. With one or two exceptions the several night mines along the Monongahela Valley are idle to-night, and 6,000 men who have been employed in them are among the strikers.

BELLAIR, Ohio, April 21.—At noon three thousand coal miners in this district went out.

CHICAGO, April 21.—Reports from the different States where the miners' union is organized indicate that the great strike has so far tended toward success.

It is probable that already (2:30 p.m.) more than 75,000 have struck, and before night, if the men continue loyal to the union, 100,000 men will have struck.

SPRINGFIELD, Ill., April 21.—At noon to-day 3,000 miners in this district joined in the general strike. Reports received from Bradford district state that all the miners, to the number of 5,000, went out on strike at noon. It is expected that by Monday 20,000 miners will be out in the State.

MORGAN, Ill., April 21.—Three thousand miners of Coal City, Braesboro, Gardner, Carbonhill, and other places, and of Clarke City and Brainbow, of the same coal fields, laid down their tools to-day in pursuance of a decision made in convention on Thursday.

BY A BIG MAJORITY.

LONDON, April 21.—Mr. Morton, Liberal member for Peterborough, moved in the House of Commons last evening that the annuity of £10,000, drawn by the Duke of Saxe-Coburg-Gotha in his capacity of Duke of Edinburgh, be abolished.

Mr. Labouchere seconded the motion.

From Coburg, a rich princely, he said, the Prince drew £30,000 yearly. By his marriage he had obtained £15,000 yearly. The Duke, moreover, was a foreign sovereign. As such he might at any time find his obligations opposed to the interests of Great Britain. There was no valid reason why England should support the Duke of Saxe-Coburg-Gotha. She might just as well pay the expenses of the Emperor of China or the Lams of Tibet. The grounds usually given for a grant of this sort were not applicable to a foreign sovereign. The usual argument for a royal grant was that the English princes were expected to make a certain display and fulfill certain social functions. Any reason of this kind could hardly be made to bolster the claim of a prince who lived and ruled in a foreign land.

MR. GLADSTONE'S ILLNESS.

It is reported to be a slight cold, but it is really an affection of the bowels, which has been so prevalent that it is not so easily checked as formerly. It is attended with slight pain, but is necessarily weakened by the illness. Mr. Gladstone has chosen as his attendant Dr. S. H. Habershon, who is formerly an assistant to Sir Andrew Clark.

GILBERT AND SULLIVAN.

Mr. W. S. Gilbert has written a letter in which he says that the dispute between him and Sir Arthur Sullivan arose over the insistence of Sir Arthur upon an unreasonable condition in the matter of supplying music for a libretto which he (Mr. Gilbert) had written. The condition was that D'Oyley Carte should have absolutely the sole right to produce in London the fourteen pieces upon which they (Gilbert and Sullivan) had collaborated. This condition Gilbert would not comply with, hence the rupture.

MELLO'S SURRENDER.

Buenos Ayres, April 20.—The following is a translation of the message sent by the Brazilian rebel Mello to the President of Argentina when he brought his remaining ships into the harbor of Buenos Ayres and offered to surrender them:

"ABOUT THE BRAZILIAN REPUBLICAN CRUISE REPUBLICA, HARBOR OF BUENOS AYRES, April 16, 1894.

"Senor Pena, President.—As I am unable to continue, on account of an absolute lack of resources, the naval revolt inaugurated eight months ago for the purpose of changing the constitution of Brazil against the military despotism of President Peixoto, I now enter Argentine waters in order to solicit the protection of the flag of a generous sister republic in behalf of myself, my officers, my marines, my troops and my fleet, consisting of the Republica, Uruguay, Iria, Hietore and Repetencia. ARCHBISHOP CORRIGAN.

NEW YORK, April 20.—The Herald says: The trouble which began in this diocese of the Roman Catholic church several years ago, and which originated in Dr. McGlynn's disobedience, is not yet ended. It is to be revived in a new and startling form. In fact, the Herald has been informed that Archbishop Corrigan is to be arraigned in Rome on a most serious charge. The substance of the charge is conspiring to destroy the influence of Mgr. Satolli. In fact, the Herald has been informed that Archbishop Corrigan is to be arraigned in Rome on a most serious charge.
