Annapolis Division Grange No. 49. AFTERNOON SESSION.

Report of Committee on Officers Report.

To the Officers and Members of Dominion Grange.

We are also of the opinion that if there is a class of men in this country that require a sound education and well developed intellect to enable them to successfully

and grammatical in their expression—so which we ought to occupy.

logical in their conclusions and so well arranged as to order of subjects.

It is of inst inventence.

It is of just importance to every institution, especially, when young, to have leading minds in directing thought, taking MENT AND ON LADIES DITIES action or effecting results for the general good. In these respects, we claim the reports presented to day, justify us in complimenting this Division Grange upon the very creditable character of all the literary of the Annapolis Division Grange.

Your Committee on 'Social entertain and the standard of the Annapolis Division Grange.' action or effecting results for the general

works, presented by its officers for our consideration.

The report of the Worthy Master, who has been bred in the school of hardship and honest labor, with only a spare moment now and then to cull from the archives of knowledge, and gather from the store-house of nature, marks him a man, not of vulgar mould, but one of nature's men in whom is the leaven of ability and worth. It is not necessary that we should amplify upon the various points presented in his addres, such as contains.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the appliest prothers and exemplify their willingness to aid in every good work.

The health sleep by the duty and pleasure

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the appliest on the knife; pointing out a mode of cure at one simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

The health sleep by the duty and pleasure we should amplify upon the various points presented in his addres, such as contain information are clearly expressed; those offering suggestion require our consideration and action. To one or two points only would we recall your attention. This letter and exemplify their willingness to aid in every good work.

It should also be the duty and pleasure of the ladies to assist very materially in literary and social entertainment—as we consider them peculiarly adapted to this work, and as they have more time at their more heavily taxed than other professions. consider them peculiarly adapted to this work, and as they have more time at their disposal.

Here exists an injustice and we trust our order will be alive to its interest, and will take such measures as will ultimately remove the wrong. With his remarks in reference to the secretary being his ideal in that official capacity, we fully agree, and hope this Division Grange will also show their estimate of his ability in that capacity by his re-election. With this brief reference to his particular address, permit us to call your attention to the report of the Worth Secy. our chronicler and historian.

In the first place, we would desire to reciprocate his congratulation upon the marked success made in the last five years in the development of agricultural interests in Nova Scotia, and trust he will pardon us for so publicly thanking him for

ests in Nova Scotia, and trust he will pardon us for so publicly thanking him for the great interest he has taken in the introduction of thoroughbred stock into our County, which has brought it so prominently to the front in Provincial Exhibitions.

Submitted on behalf of the Committee.

We heartily endorse his remarks upon the establishment of district, county and provincial exhibitions, and trust our general farming population will not hastily pronounce, as some have done, upon one

We also wish to remind you of the ne-cessity set forth by him, of study and re. Overseer, Shippy Spurr, Melvern Square

sity of education and general reading, by which alone we can receive honor, as he uniquely expresses it, should command our

continual attention. The closing paragraph, setting forth the we feel assured, met with a hearty response we feel our report has already grown be joind its proper bounds, and we will now close by complimenting you upon our creditable financial report, which, with the there are the remore a label removes the sum of the remove and the re

HENRY MUNRO,) SHIPPY SPURR, Committee.

Report of Committee on Education beg leave for report that they fully appriciate the magnitude and inportance of the subject committed to their care, but of necessity are mable to do justice to the matter with the short time at their disposal. We can only make a few observations, and possibly offer a few suggestions that may flad to a general discussion of the subject. At the present day it seems to be the general discussion of the subject. At the present day it seems to be the general official the socially morally and intellectrain; but on the social three socially morally and intellectrain; but on the social typically morally and estate will please make in the social typical social typical to the moral of the subject. At the present day it seems to be the general official the social typical social typical typical social typical opinion that all men should be educated to fit them socially morally and intellectually. Wife, you may be sure that he has pick for the duties of life and for good citizenship. But unfortunately the farmers of this ccuntry have not felt this so deeply as some others, and have not given the matter the same practical consideration as those of different occupations and professions. They seem to believe that a very those of different occupations and professions. They seem to believe that a very little education or brains will suffice for the farm, and when, as very often occurs, a lad of more than ordinary ability is discovered among farmers' sons, he is immediately assigned to some of the learned professions, and, in consequence of his put aside, and a live man got under a superior mind and vigorous intellect, considered wholly unfit for a life upon the farm. Now, your committee are of the sat up and shouted. The joke was so successful that the woman went into real canvulsions.

a comfortable assurance' that the in occulation has taken effect. Religion is like vaccination, it does not always take' the first time.

wrong. We cannot allow this plucking to continue if we expect to flourish. It is sapping our life-blood—it aims a direct

(Concluded.)

Worthy Master in the Chair.

Financial report of secretary and treasurer was read in detail and passed into the hands of the Auditing Committee.

Suggestions for good of the order were received from sub-Granges and referred to their appropriate Committees, without debate.

sapping our life-blood—it aims a direct blow at all progress and advancement, and ogether with the practice so often followed of taking boys away from school—in many cases before they can grasp oven the rudiments of the most useful branches to keep us, as a body, in a subordinate position, and largely interferes with an enlightened and intelligent cultivation of the bottom.

We, the Committee appointed to take into consideration the Worthy Master's address, and report of the Officers, beg respectfully class is composed of the farmers. How In reviewing the Official reports, presented to-day, we are of the opinion that they exhibited an ability, both in thought and mode of expression, which is rarely found in reports of organizations of a more literary character, char found in reports of organizations of a more literary character.

This should be a subject of congratulation and pride to all true lovers of husbandry, who have hitherto been considered by some as belonging to a class incapacitated by nature and lack of education for any intellectual thought or literary production. Helots, in short, of a modern age. When we see men whose employments are not deemed of a character to develop mental activity or literary researches, forging ahead by the price of natural talent and intellectual vigor, aided by scholastic activity of a motor of the price of natural talent and intellectual vigor, aided by scholastic activity of literary researches, forging ahead by the price of natural talent and intellectual vigor, aided by scholastic activity of literary researches, forging ahead by the price of natural talent and intellectual vigor, aided by scholastic activity of literary researches, forging ahead by the price of natural talent and intellectual vigor, aided by scholastic activity of literary researches, forging ahead by the price of natural talent and intellectual development which was not expected from men in like positions but a short time ago. Stupidity and ignorance are no longer tolerated in we expect to keep pace with the times; if we expect to stand in the front rank, we must charge our views and our practice in anead by the price of natural talent and intellectual vigor, aided by scholastic accurate and authorized the properties of the front rank, we describe the scholar accurate and the front rank, we describe the first of the true metal—men in whom is that spark of nature's fire—the in whom is that spark of nature's fire—the source of all learning and greatness; and will be a spressed by the Worthy Secretary. we feel proud of this institution of Patrons will compensate for a sound education ob-of Husbandry—this Division Grange whose cained in early years. Nothing less will officers can present such well written reports, so comprehensive in their scope, pete with the other professions, and take so penetrating in their researches—so tuse that position in life, public and private,
