

Gourlay Pianos
THE PRIDE OF OWNERSHIP
 To own a Gourlay Piano is to be proud of your piano. If you are a musician, the sympathetic bond between you will be strong indeed, for a Gourlay piano responds to every mood of the player. There is a crispness and delicacy of tone for the dearest improvisation and a richness and volume for the most exacting bravura passages.

Annual Harvest Festival
ST. MARY'S, BELLEISLE.

The above took place on Sunday afternoon last. The sacred edifice had been very tastefully and appropriately decorated with flowers and "fruits of the earth" and a good congregation assembled for the purpose of the festival. The choir was augmented for the occasion, several friends kindly assisting, with the result that the music was exceptionally bright and hearty. The Rector was the preacher, basing his sermon on the words: "Lift up your eyes and look on the fields"—St. John IV, 36. After sketching the incident he invited his hearers to apply the text to their own fields with a view to learning at least something of God's providential care for the wants of His creatures, and his method of supplying their daily wants. Altogether, the service was one quite in keeping with the long list that have preceded it in the history of St. Mary's.

On Thursday last the annual meeting of St. Mary's Guild Miss Society was held. The report showed steady but telling work for the past year. The officers of the Guild were unanimously re-elected en bloc, and the Miss collectors for the coming year are—east of the church, Miss Beatrice Wade, west of the church, Miss Josie Willist.

Sanders' Family Reunion

At the Lookout, Franklin Park, Boston, there was recently a gathering of the members of the Sanders family, descendants of Captain John Sanders, a native of the parish of Downton, Wiltshire, England, who came to America in 1638 and settled in Salisbury Mass. Two descendants of the third generation, Timothy and Joseph Sanders, brothers, came to Nova Scotia. The former settled in Wilmot the latter at Yarmouth, and have many descendants in this province and in Massachusetts. Among the guests present at the gathering referred to was W. M. Sanders, son of the late Samuel Sanders, of West Paradise, whose widow is still residing there. It is proposed to make the gathering an annual affair. The spelling of the name has been changed through a number of generations from Sanders to Saunders.

Estabrooks' Coffee is
 full of snap and fine flavor. It gives genuine satisfaction to the last drop, and brings back the cup for more. It is as uniformly good as Red Rose Tea. It does not contain an atom of chicory, nor any other adulterant. You will certainly enjoy it.

Guessing at the Age of the Earth

Another guess as to the age of the earth has been made by science, and is sufficiently liberal to satisfy most laymen. The earth is between 55,000,000 and 70,000,000 years old, according to Dr. Frank W. Clarke, chief chemist of the United States Geological Department, and Dr. George F. Hickey, geologist. Their estimate, accompanied with that of other scientists even more eminent, shows plainly enough that nobody knows how old the earth is. On this great mystery knowledge is strictly negative.

Death After a Scratch

Morris Quanzan, an eleven-year-old Windsor boy, fell off his bicycle and scratched his wrist. He thought nothing of the injury, but blood poisoning set in and he is dead.

Such incidents are seen—by no means infrequent—ought to make people realize the danger that may lie even in the smallest, feebest wound.

Take a simple illustration. When a dirty wound, a barbed wire fence or a splinter of wood, scratches the hand, the latter is inoculated with germs, of which the air is full. Directly these germs are introduced through the break in the skin, a battle between them and certain organisms in our blood.

The way to avoid serious results is to cleanse the wound and apply Zam-Buk. Zam-Buk is a powerful, yet painless germ-killer, and when applied to the broken skin is absorbed into the tissue, instantly destroying the germs that spread disease and inflammation.

As soon as applied to a sore or a cut, Zam-Buk stops the pain and smarting. That is why it is so popular with children.

The flesh is thus soothed and purified, the wound is made perfectly healthy, and all poison and cause of festering removed. Having done this, Zam-Buk then proceeds to heal the wound or sore, and new healthy tissue is built up in a quick, painless and perfect manner.

Zam-Buk must not be confused with ordinary ointments. Zam-Buk is a unique preparation, possessing anti-septic, soothing and healing qualities that are not to be found together in any other preparation. It is not only a unique healing balm, but it is also a skin food. For all skin diseases and injuries—cuts, bruises, burns, eczema, chafing, ulcers, ringworm, etc., it is without equal. It is also used widely for piles, for which it may be regarded as a specific. All druggists and stores sell at fifty cents a box, or post free from Zam-Buk Co., Toronto, for price. Hazardous imitations should be always refused.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is today the best known medicine in use for the relief and cure of bowel complaints. It cures griping, diarrhoea, dysentery, and should be taken at the first unnatural looseness of the bowels. It is equally valuable for children and adults. It always cures. Sold by all dealers.

ENGLISH LIQUID PAINT

5 Good Reasons why you should use it

- 1—because it is made of 70% White Lead and 30% Zinc White—the ideal proportion.
- 2—because the only white lead used in it is Brandram's E. E. Genuine White Lead.
- 3—because it is the result of 31 years experience in mixing paints for the Canadian people.
- 4—because it is finer, more uniform, covers more surface, lasts longer and holds its colors longer, than any other—more economical—use.
- 5—because it is guaranteed pure and the formulas printed on every can.
