PATENT

WIRED COMB FOUNDATION.

Is better, cheaper and not half the trouble to use that it is to wire frames. Every cell perfect. Thin, flat-bottom foundation has no fish-bone in surplus honey. Being the cleanest is usually worked the quickest of any foundation made. J. VAN DEUSEN & SONS, Sole Manufacturers, Sprout Brook, Montgomery Co., N.Y. b4 1y.

BIG SMOKERS FOR BIG BEEKEEPERS.

My new Smoker is now ready. I claim the following points of excellence, viz.:— A stronger blast than any ever made; a valve accessible from the outside, and for delicacy of spring exceeded by none; calfskin leather instead of sheepskin; bellows boards protected against damp by shellac inside and outside; fire-barrel, 3½ x 10 inches, and bellows 6 x 9, spring outside, grate heavy, and riveted in the barrel. Neither ashes nor cinders can possibly get into the bellows. The whole is well constructed. There is not a weak or flimsy spot in the whole machine. Price, \$2.50 each, cash with order. When 3 or more are ordered together express charges will be prepaid.

S. CORNEIL.
