

ARGUMENT about Piano quality is endless, proves little, and is far from conclusive.

ACCURATE JUDGMENT is obtained only by knowing HOW A GOOD PIANO IS MADE.

And we DO know HOW!

For we have seen scores of Pianos fall into obscurity when TIME revealed their imperfections. We have seen others rise to the topmost place. And thus we have learned, in a lifetime devoted to piano-making, the EXACT requirements of the Master Piano.

Those requirements we meet. That much is CERTAIN, and we stake our name, our world-wide reputation, on the Piano of our make. No amount of money could build a Piano of intrinsically greater worth.

And thus it's worth remembering that "when you sell a Mason & Risch Piano, you sell the Best Piano Built."
